Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. This is likely improve the overall numbers as we process historic records.

Hopefully that helps to break down where we are at. I can't reiterate enough that data is still coming in and we are still actively cleansing it.

Subject: RE: Daily Summary Report
Attachments: 2016-01-20 - Flint Lead MDHHS Sitrep.pdf

Good Evening,

Below are the statistics requested for the Governor's update, regarding elevated blood lead levels and the number of people tested for elevated blood lead levels (per the attached MDHHS Situation Report 1/20/16). Unfortunately, we do not currently have the ability to pull this data on a daily basis. Therefore, the below numbers are reflective up until January 8th. The CHECC is working to develop a process to obtain more updated counts on a more regular basis, so that those number can be given to the Governor in his daily report.

- People Tested for Lead 10/1/2015 to 1/8/2016: **2,642**;
- Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
- Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
- Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**

Thank you, and please let me know if you have any questions.

Civil Service suggested that everyone call in on the phone rather than use the mic, but this may overwhelm the system.

I don't know if this will help or not, but can each branch call using 1 phone in the SEOC and have everyone in that branch do their reports through the 1 phone and the mic, so that everyone on the phone can hear the information.

Or move the phone to be by the speaker or vice a versa.

Just trying to help...Just my 2 cents...

Subject: *SBA Declaration Materials*
Attachments: Estimated Disaster Worksheet.doc; Instructions for Completing Worksheet.doc

As discussed, I have been in discussion with the US Small Business Administration (SBA) regarding a declaration and potential SBA low interest loan assistance to the businesses of Flint due to the water contamination. Generally, under federal law, only natural disaster are eligible for disaster declarations; however, SBA has a program where the Governor certifies that at least 5 businesses in the disaster area suffered substantial economic injury as a result of an incident. If we can demonstrate we have 5 businesses that have experienced 40% or greater damage from this event, the Governor can simply certify damage has occurred and a declaration will likely be issued by SBA. To this end, two documents are attached for your use.

For clarification, the businesses only may seek assistance for economic injury. Substantial economic injury occurs when a business concern is unable to meet its obligations as they mature or to pay its ordinary and necessary operating expenses. Loss of anticipated profits or a drop in sales is not considered substantial economic injury for this purpose. However looking at a drop in sales, the length of time the business will be impacted, the type of business and typical business cycle of the industry, provides the quickest way to determine if the injury is substantial.

Due to the nature of this event, form completion will be problematic. Please call once you have reviewed to discuss.

Subject: RE: maps

Tony,

On the Parcels Contacted map, the Recovery Branch recommends changing the "Not Visited" item to "Follow up Required" as it appears there is just a lack of data. It would benefit the operation to send a team back to those homes to verify the information we have on file. This is the mission ARC is working on this week and going forward.

The Parcels Filter Status map concerns me as well. I don't think this data accurately represents what our teams are utilizing in the field. At this time, we currently don't take into account whether or not a parcel is a paying subscriber on the Flint water system during the canvassing. Our main objective is to get filters into all homes on the Flint water system. I recommend not producing this map in the future for the purpose of identifying homes needing a filter.

It is our understanding that the outstanding data is being worked on today and takes 24-48 hours for GIS to validate. This includes the outstanding data Jim referenced and the data being entered by ARC. I have copied the Planning Section Chief in case they have any objections; however, we discussed these items and came to a general consensus earlier.

Let us know if you need anything else.

Thanks,
Brianna and Carly

Subject: FW: 2-1-1 Update Flint Water Response for Friday, January 22, 2016
Attachments: 2016-01-22 MI211 Flint Water Daily Update.docx

My apologies for the delay in distributing the Friday update. I was traveling and had a problem getting an internet connection outside the office.
Tom

This is the daily 2-1-1 summary on the Flint Water Response for Friday, January 22, 2016

GENERAL INFORMATION:

- Based on State of Michigan references to "Call 211" in print and online media sources, many callers to the service think 2-1-1 is a state agency. This leads some to ask questions about potential bias in the information 2-1-1 is providing about the Flint water situation. The public understanding of 2-1-1 as an independent and impartial service is essential to maintaining our position as a trusted source of information with both the community at-large and state partners. **Michigan 2-1-1 would like to set up a call or meeting with the appropriate state representatives and some key stakeholders to standardize how the state publicizes the 2-1-1 service.**
- *Central Michigan 2-1-1 has created a Drop Box folder for 2-1-1 agents taking Flint Water calls.* It holds a four page master document that ensures updates and new information are immediately available to all 2-1-1 staff. It includes sections on Background Information (including President Obama's Emergency Declaration), Rumor Control, Health & Water Quality/Safety Concerns, the Taxonomy Terms 2-1-1 is using to provide referrals and track needs, a general Q&A section, and links to Printed Materials and online resources such www.helpforflint.com along with various flyers and statements on the response from State of Michigan.
    - If you have information or materials to include on the master document, please email them to jennifer.pollak@lifewayscmh.org, melissa.ladd-patnode@lifewayscmh.org, and tpage@uwmich.org.

CORRECTIONS AND CLARIFICATIONS
None today

CALL VOLUME:
Call volume continues to be higher than average, but is dropping from the Wednesday peak. Average wait time was down significantly to under 15 minutes during peak volume

- There was a brief period today when the queue for Flint water calls reached 20 callers. Central Michigan 2-1-1 contacted other regional 2-1-1 partners for assistance and was able to reduce the queue and wait time for Flint caller back down to approximately two minutes.

SPECIAL NEEDS/REQUESTS

- The lifting of the requirement to provide identification is making it easier for undocumented residents and residents without ID to access water resources. 2-1-1 working to verify whether the Hispanic Center will continue to provide access assistance for the residents.
- *2-1-1 continues to receive several calls a day from churches, nursing homes and business owners asking about filters for* their establishments. They are being referred to the Chamber of Commerce to share the impact on their organizations.

RUMOR CONTROL

- No new rumors to report.

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**

This Memorandum is an acknowledgement that a Bill of Lading has been issued and is not the Original Bill of Lading, not a copy or duplicate, covering the property named herein, and is intended solely for filing or record. RECEIVED, subject to the classifications and tariffs in effect on the date of the receipt by the carrier of the property described in the Original Bill of Lading.

(Name of Carrier) Carrier's No.

From MERCHANTS MOVING & STORAGE Pur. Order No. _____

At 1215 STATE STREET, RACINE, WISCONSIN 53404 TOLL FREE 800/247-3009 Date 1/14/16 Shipper's No.

The property described below, in apparent good order except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classification in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back hereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

At 1215 STATE STREET, RACINE, WISCONSIN 53404 TOLL FREE #800-247-3000 Date 1/14/16 Shipper's No.

The property described below, in apparent good order except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Official, Southern, Western and Illinois Freight Classifications in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - o Even small amounts of lead can harm kids' health because they are still growing.
  - o Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - o You can receive a free a NSF-approved filter if you use City of Flint water.
  - o Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - o Run only cold water through the filter.
  - o Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

FLINT WATER RESPONSE TEAM

www.michigan.gov/flintwater

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.

To: MSP-EOC-MDEQ
Subject: FW: Test Results from MDEQ Data

Based on the data below is it safe to say the following statement:

11. Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):
a. 577 homes, per data from September 3, 2015 to January 20, 2016.

To: plangc
Subject: Test Results from MDEQ Data

Good Evening,

We ran the counts and found the following based on a results of higher than/less or equal to 0.015 (mg/L)

Of 853 tests:

68 tests were greater than 0.015 mg/L – (matched to 40 parcels)
785 tests were less than or equal to 0.015 mg/L – (matched to 577 parcels)

It's important to note that parcels don't take into account multiple tenants (such as duplexes and apartment complexes); that count was a basic match from the address location to an individual parcel.

I can tell you that it looks like about 12 of the tests did have an address associated.

- A total of 159 water filters were distributed by DHHS and GCCARD. One hundred and fifty six filters were distributed of which one went to a daycare and 37 were installed in homebound/senior locations. Two- 8 cup pitchers/ 1- 23 cup pitcher was distributed to a daycare.

- Greater Flint Health Coalition's Genesee Children's Healthcare Access Program (CHAP) has a supply of filters (provided by United Way) and is providing those directly to client families currently served by Genesee CHAP. Genesee CHAP works at the family, provider, and system levels to serve Flint & Genesee County families with children on Medicaid. Susan Schneberger serves as Senior Program Director for Genesee CHAP and can be reached at chap@flint.org.

- Flushing and Flint DaVita Dialyses locations received 120 water filters. Fresenius Medical Care (FMC) of Flint received 30 water filters.

We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department Community Health Director, Tamara Brickey, connected Chris Mann (GCHD IT consultant) with Ed Berger from MTA to reference the water filter database for an upcoming water filter distribution to disabled clients.

- Tamara Brickey, spoke with Vicki Austin Sacharski from the Disability Network for the purpose of connecting Disability Network clients with water filters. DN will track information of those clients who call in with questions about filters and get the information to GCHD. We will pass that information along to MTA for delivery. GCCARD may be able to assist with installation.

- Tamara is reaching out to a regional representative from DaVita Dialysis to help coordinate the distribution of water filters.

- Department of Health and Human Services has distributed the following:
  113 filters (of which 1 went to daycares)
  10 – 8 cup pitcher
  1 – 23 cup pitcher- to daycare
  Total distributed 124

- Flint Community Schools Superintendent, Bilal Tawab met on Friday, October 16, 2015 with representatives of MDEQ, LARA, and DHHS to discuss a new round of water testing at each of the Flint Community Schools starting on Wednesday, October 21,2015.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 100 water filters were delivered to Burton location of Planned Parenthood for distribution by GCHD.
- Tamara Brickey (GCHD Community Health Director) and Hilda McShane (GCHD Marketing Specialist), met with MTA about reaching disabled and dialysis patients. MTA will work with GCHD to determine which MTA Your Ride clients may be in need of water filters.
- Another dialysis provider in Flint has requested 30 filters for patients.
- Toni (Nursing Director, GCHD), Jori July (GCHD Immunizations Supervisor) and Hilda McShane met this AM with Molina. Further arrangements with Molina will be made. No date set at this time.
- GCHD is still awaiting communication from Total Health Care.
- Department of Education has come out with a statement that all school age kids in Flint should be lead tested. Our state colleagues along with Toni will work on getting education out to the schools/families regarding getting kids tested.
- Diplomat has a program that they do with physicians about vitamins for kids. Dr. Mona Hanna-Attisha (Hurley) is talking to them about changing the formulary of the vitamin to help with lead issues in kids.
- Jim Henry (GCHD Environmental Health Supervisor) met with DEQ representatives on Friday. DEQ is proposing starting a new round of water testing in all schools receiving Flint water as of Wednesday, October 21, 2015. DEQ is proposing a stakeholder meeting every Friday to discuss updates.

Subject: Genesee County Health Department water filter system daily mass notification - 10.16.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- The attached document was provided, emailed, and mailed to 346 licensed food establishments using City of Flint Water by the Genesee County Health Department (GCHD). The Michigan Department of Agriculture and Rural Development (MDARD) emailed and mailed the attached document to: grocery, food processing establishments, and party stores using City of Flint water. This document is available at www.gchd.us.

- Michigan Department of Health and Human Services (MDHHS) and Genesee County Community Action Resource Department (GCCARC) distributed 247 water filter systems and 11 water pitchers on 10.15.15.

- The Michigan Childhood Lead Poisoning Prevention Program (CLPPP) created a toolkit to help agency partners, primary care providers and community advocates prepare for lead week, October 25-31, 2015. The Michigan toolkit contains ideas for local lead week activities, a sample press release, sample social media posts and a sample news article. Several CLPPP brochures have also been revised in anticipation of lead week, including the handout for parents, "Is Your Child Safe From Lead?" and a new handout for pregnant and breastfeeding mothers. A CLPPP program profile and a quick reference guide for primary care providers is also in the toolkit.

- Genesee County Health Department Nursing Director, Toni La Rocco, will meet with Molina Healthcare of Michigan representative, Omar Sims, to plan a lead clinic in the near future.

- DaVita Dialysis' Hurley location received 100 water filter systems on 10.16.15 from the Genesee County Health Department.

- Planned Parenthood is scheduled to receive 100 water filter systems on 10.19.15 from the Genesee County Health Department.

- Genesee County Health Department is working with Flint Mass Transit Authority (MTA) to distribute the water filter system to disabled and kidney dialysis YOUR RIDE customers.

- Chris Mann will have additional conversations with the State to discuss updates to the database for tracking filter distribution.

- Genesee County Environmental Health Supervisor, Jim Henry, is meeting with the DEQ laboratory director to discuss future samplings.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- As requested by the state of Michigan, Chris Mann of GCHD made all the requested changes to the water filter system database.
- DaVita Dialysis Center has requested 100 water filter systems. Filters will be dropped off Wednesday, October 14.
- Genesee County Health Department will be delivering 100 water filters to Planned Parenthood on Monday, October 19.
- City of Flint Schools' Superintendent is reaching out to his principals requesting input on the distribution of the water filter system to staff and families.
- Dr. Laura Carravallah reached out to Marc Edwards of Virginia Tech regarding the copper levels in the Flint water. Marc did test the Flint water and copper levels in the water are within EPA standards.
- Nursing Director, Toni LaRocco, is finalizing plans for an upcoming lead clinic with McLaren Health Plan on November 5. Toni and staff are in talks with Molina Healthcare of Michigan to schedule another lead clinic.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Chris Mann and GCHD Community Health Director, Tamara Brickey, are working with the State to insert more field information to the current Excel water filter database.

- GCCARD's Lippincott location does not have stable internet connection and because of this, staff are not using the most up-to-date water filter system Excel file. The State is gathering this information and will send Genesee County Health Department their Excel database and we will upload the data on a daily basis.

- Tamara has made contact with Flint Schools. She will make arrangement with staff and student's families to receive a water filter system. A date for the filter distribution to staff and student's families has not been set.

- Jim Henry, GCHD Environmental Health Supervisor got a call from State. They are looking for our staff to do another round of sampling at all Flint schools who receive city of Flint water.

- Planned Parenthood will receive 100 water filters for distribution to their clients.

- GCHD will be making contact with the Disability Network to continue planning to reach the disabled population within Flint that need assistance obtaining a water filter.

- MDEQ reached out to the CDC regarding the effects of bathing in water contaminated with lead. The experts are looking further into this matter. See attached FAQ Flint Water Fact sheet.

- Dr. Caravella of GCHD's Board of Health is concerned whether the distributed water filter systems will remove copper. She is concerned about individuals in the community who have a rare condition related to copper.

- Jim Henry is working to receive lab results in a timely manner.

- GCHD Director of Nursing, Toni LaRocco had a conversation with various individuals from the State regarding blood lead clinic. Toni is working to implement an upcoming lead clinic for children, 0-5 scheduled with McLaren Health Plan. Toni is reaching out to the University of Michigan – Flint to have students and faculty present at all clinics. Toni is working on other locations to host clinics with other health plans. The first message for people should be that the first choice in testing should be at their primary care provider.

- FAQs regarding lead and water for providers and public will be released in future from MDHHS.

- As of October 13 the total distribution for both DHHS and GCCARD is 8447.

- 336 filters and pitchers were distributed on 10/13 by DHHS and GCCARD.

- Daycares also began picking up filters and pitchers on yesterday as well from GCCARD.

Subject: Genesee County Health Department water filter system daily mass notification - 10.13.15

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- 20,000 filters + 9,000 replacement filters have been delivered to Genesee County Community Action Resource Department (GCARD) and Michigan Department Health Human Services (MDHHHS).

- We are reminding partners to blackout the barcode on filter boxes before distribution.

- As of 10.13.15 Flint Housing Commission has distributed water filters to all of its housing units.

- Valley Area Agency on Aging (VAAA) is creating a list of homebound seniors. Three (3) state employees and Five (5) GCCARD employees are working through that list and will help with home installation.

- Distribution has been completed at Rosehaven Manor, Court Street Commons, Riverfront Dorms, Job Corp, and University of Michigan-Flint international student population

- *Municipalities with residents that receive Flint City water will be contacted and asked to be the distribution point for the water filter system in their area by the City of Flint.*

- Eileen Tomasi from Flint Schools has asked to use the elementary schools as water filter distribution points for both staff living in Flint and parents of school children. GCHD is awaiting a follow up conversation with the Flint Community Schools.

- Genesee County Health Department (GCHD) is starting to see an increase in requests for blood lead testing. GCHD Nursing Director, Toni LaRocco, is working with McLaren Health Plan to develop a lead clinic in November. University of Michigan-Flint has offered nursing students to assist at the clinic. Adults can use the Genesee County Health Department's Primary Care Clinic and the Health Department will bill insurance, or go on standing orders.

- Total filters distributed by MDHHS and GCCARD, 8,000. Genesee County Health Department has distributed 4,000 filters, which include approximately 2,700 to the public, 100 to Wellness Services, 100 to GCHD Primary Care Clinic, 100 to WIC, 100 to Reverence, and 375 to Hurley Maternal Infant Health Home Visiting Services.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Today, Genesee County Health Department's Community Health Director, Tamara Brickey met with DaVita staff to discuss plans for ongoing water filter distribution. One hundred water filters were also distributed to the DaVita office located at Hurly Medical Center.

- Through Facebook and Twitter, Genesee County Health Department distributed Michigan State University Extension and Hurley Children's Hospital's nutrition booklet. The "Nutrition & Lead" booklet highlights healthful, cost-effective meals that help lessen the harmful effects of lead. I've attached the low-resolution graphic developed by MSU Extension staff. You are encouraged to post the graphic on your social media platforms and website. As instructed by Extension staff, please link the graphic to the "Nutrition & Lead" booklet found on the Extension's website.

- In partnership with Molina HealthCare of Michigan and Flint Community Schools, Genesee County Health Department's Nursing Supervisor Toni LaRocco has assisted with the development of four upcoming lead screening events at the following locations:

- Flint Community School, Freeman Elementary School: January 12, 2016
- *Flint Community School, Eisenhower School: January 26, 2016*
- Carriage Town Ministries, February 4, 2016
- Carriage Town Ministries, February 8, 2016

To help spread the word of the above events, I have attached the event flyers for Freeman Elementary School and Carriage Town Ministries lead screening events. I have also attached a low-resolution graphic for website and social media posting that promotes the February 4, Carriage Town lead screening event . Please help us promote these very important lead screening events by posting the flyer and/or low-resolution ad on your social media platforms, website, or simply print copies of the flyer and distribute to appropriate clients who will benefit from this service.

- Genesee County Health Department's Nursing Supervisor, Toni LaRocco is currently working with Meridian Health Plan to develop future lead screening clinics.

- Based on a recent abc12 news segment regarding Flint residents not using, or not knowing where to pick up a water filters prompted the idea of hosting a joint agency press conference. The press conference would cover the following information: where and when water filters can be picked up, dispel misinformation regarding the Detroit water, water filter usage, and nutrition information.

- Attached is a draft list of talking points for water donations developed by the United Way of Genesee County for review.

- If you would like to assist with the development of consistent messaging regarding the water situation, please contact Sean Kammer at 810.391.7771, or email Kristin Moore at kmoore@cityof flint.com.

- There are still plenty of 8 cup water pitchers for distribution. Please contact: **Anthony M. Sitko** – Director of Shared Services, Flint Community Schools, (810) 767-6030 or tsitko@flintschools.org or Matt Purcell at GCARD, MPurcell@co.genesee.mi.us.

- With regards to water filter distribution, it was suggested by Genesee County Health Department Community Health Director, Tamara Brickey that we as agencies need to go where residents congregate: churches, clubs, senior cents, etc. to distribute water filters.

*Please note that MDHHS did not buy the current PUR filters being distributed. Once these are exhausted if needed DHHS will purchase PUR replacements.

FOR IMMEDIATE RELEASE

GENESEE COUNTY COMMISSIONERS DECLARE EMERGENCY

Flint, MI -- January 4, 2016 – During their first board meeting of the year, Monday morning, Genesee County Commissioners declared a state of emergency in Genesee County. The move a sign that county leaders support Flint Mayor Dr. Karen Weaver and her efforts to get resources and relief to the residents suffering from the ongoing water situation in the city.

Mayor Weaver declared a state of emergency in Flint last month to raise awareness about the severity of the problems surrounding the water situation that continues to effect residents. The problems a result of the man-made disaster caused by the city switching to the Flint River as a water source in 2014.

Following the board's vote today, Genesee County Commission Chairperson, Jaime Curtis said, "This is a state, man-made disaster and we're going to ask the state to fix their disaster. Curtis also said, "Genesee County is the fifth largest county in Michigan and we will not be ignored."

Mayor Weaver hopes the county's show of support will convince the Governor to provide the City of Flint with financial support to help leaders address immediate infrastructure needs. Those needs include more than $45 million to replace every identified lead pipe in the city, reimbursement of the $2 million spent to switch back to the Detroit Water Sewerage Department, $6 million to help with the transfer to the Karegnondi pipeline and additional resources to support the city's Heath Initiative to assist affected adults and children in Flint who have consumed water contaminated with lead.

In an interview with media after the board's emergency declaration Mayor Weaver said, "It's a victory and a step in the right direction." The mayor plans to meet with Governor Snyder in Lansing Thursday of this week to discuss the state's response and next steps.

- If you cannot attend the 12/22 water crisis meeting at Genesee County Health Department's library, but would like to participate, please call: (
- Michigan Department of Health and Human Services' Deputy Director of Field Operations, Sheryl Thompson, is working on obtaining several pallets of bottled water for drinking as well as "cans" of water that can be used for bathing, toileting, and cleaning only. The canned water is perfect for families experiencing large water bills and or possible shut offs.
- Genesee County Health Department distributed 100 PUR water filters to Hurley Children's Hospital for its first lead focused cooking class at the Flint Farmers' Market this past Saturday. The cooking classes were hosted by the MSU extension. Waiting is the plan after all testing? Using the recommendations from DEQ, which includes labor and staff overtime. Super will use recommendations. We don't funding so we are creating the plan.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- The Food Bank of Eastern Michigan is supplying pantries, missions, soup kitchens and shelters with all the water they need for public distribution.

- If your agency would like an updated list of water distribution sites, please contact Dan at 396-0222 or dfilipovich@feedingamerica.org.

- Agencies can also direct everyone to fbem.org. Use the drop down tab that says FIND HELP. At this point your clients will be asked their zip code and then they will be directed to the nearest pantry that is an agency of the Food Bank.

- Today, Michigan Department of Health and Human Services (MDHHS) received approval from Department of Environmental Quality (DEQ) to allow the use and public display of the Bath Time Poster that was developed to address individuals' concerns about using the water to bathe their children (see attached). The Genesee County Health Department encourages all agencies to display the bath time poster.

- Hurley Children's Hospital with MSU extension will offer their first lead focused cooking class at the Farmers' Market this Saturday. Lead focused nutrition recipes and resource book will be distributed at the cooking class . Press release promoting the cooking class will go out tomorrow.

- Mott Children's Health Center continues to work with City of Flint to pick up PUR filters.

From Jamie Gaskin
Over the past 48 hours some additional support has started to surface given the National and regional media coverage. These are all developing streams of possible support and generally reflect organizations and business that got connected several months ago during our initial response. These are developing but I wanted to loop in all of you as this develops and also share some basic information:

1. MSP has again surfaced another source of bulk water that is Federal surplus. This water is free as long as we pay for shipping. I have looped in Bill Kerr at the foodbank as his team is really managing the logistics and understands the local demand and the ability of the local distribution system to handle storage etc.. These shipments come at the cost of shipping. This is about ½ the cost of buying the water and shipping ranges from between $1000-$2,000 per semi.

2. PUR – They have reached out to me again (Previously donated 2,000 faucet mount systems). I have directed them to consider donation of additional replacement filters and a financial donation. The financial donation would support shipping costs of more bottled water as well as possible prevention work.

3. ZeroWater – I am again working through some ideas with their CEO. He is very interested in the schools. I am not sure how this will develop.

*As we have shared in the past the distribution system currently has supplies of filter mount systems (PUR & Britta), replacement filters (PUR & Britta), and 8 cup pitchers (ZeroWater). If we get to levels below 500 available units for any system it is my understanding that this will serve as a trigger for us to resource more.

I also want to share that I have about $15,000 left of the more than $275k donated. As I get closer to expending all the funds the UW will continue to evaluate our own internal investment and make some adjustments. Please direct any possible financial investors to support the water fund either by calling me directly or making even small donations on our website. I will also be working with Isaiah Oliver at the Community Foundation around the MI Health Endowment Funds. Both the United Way and the Community Foundation are committed to working together and trying to maintain maximum flexibility as the situation develops.

I will follow-up though the normal Health Department updates moving forward but I just felt it necessary to try to bring everyone up to speed on developing work. If you have any questions for me please let me know. I will be available all through the Holiday period via cell phone and I will only be out of town from Christmas eve through the following Saturday. Please do not hesitate to call me for any reason.

- City of Flint picked up Two Hundred (200) ZeroWater 8-Cup Filter Pitchers from Flint Community Schools 12/14/15 for distribution.
- The Genesee County Health Department has a total of 1,650 Pur water filters for distribution.
- Mott Children's Center will give City of Flint 117 water filters from the first batch of filters distributed at U of M Flint.
- Department of Health and Human Services and GCCARD attended the Health Fair on Saturday, December 12 and distributed the following at Bethel United Methodist Church's health fair.
  - 12 Filters
  - 17 Replacement Cartridges
  - 2 PUR replacements
  - 1 Pitcher
- Between December 11 and December 14, 2015, Genesee County Community Action Resource Department and Department Health Human Services distributed the following:
  - 78 filters
  - 6 pitchers
  - 53 replacement filters

- Sheryl Thompson from Michigan Department Health Human Services will order replacement filters when the inventory level reaches 500. After replacement cartridge order is placed, it takes a few days for delivery.
    - The Zero Water Pitcher replacement filters have been delivered. All sites will begin giving out a pitcher replacement filter with every Zero Water pitcher given out.

Summary October through December 14, 2015

	Received	Distributed	Remaining
Water Filters	15,000	11,232	**3,768**
Water Pitchers	720	229	**491**
Replacement Cartridges	9,000	1,258	**7,742**

- Mott Children's Health Center distributed 117 PUR filters (that you attach to the faucet, [part of the batch that the United Way purchased and was distributed at U of M Flint).

- Mott Children's Health Center's leadership has put together a lead information packet. The intent of the packet is to distribute to patients. The packet includes information on appropriate filters and resources and how to obtain them. Genesee County Health Department will update Mott Children's Health Center as necessary with new distribution locations.

- As noted by Mott Children's Health Center, most parents of newborns continue to use bottled water to mix with formula.

- Genesee County Health Department continues to distributed water filters at its lead screening clinic in Burton.

- After a complete inventory is taken at all water filter distribution sites of remaining water filter cartridges, The State of Michigan has agreed to purchase additional PUR replacement filters.

- As of December 4, Michigan Department of Health and Human Services has distributed the following:

Water Filters	11,046
Water Pitchers	184
Replacement Cartridges	1,073

- Michigan Department of Health and Human Services and Genesee County Community Action Resource Department have distributed the following in November: water filters 778, Zero Water Pitchers 63, and replacement filters 924. Total filter distribution as of October 1 is 10,951.

- The MDEQ and the City are coordinating the distribution and analysis of containers (bottles) for water testing. Bottles are available at City Hall and the water plant. Genesee County Health Department does not have bottles for distribution. Customers' name, phone, and address are required to be documented on a form when the water sample is submitted for analysis, not when the bottle is picked up. Analysis is conducted in Lansing at the MDEQ lab.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- *Genesee County Health Department (GCHD) will distribute an additional 100 water filters to the City of Flint* for distribution at City of Hall.
- Besides all the water filter distribution occurring at the blood lead screening clinics and offsite exhibits by Genesee County Health Department's staff, the Health Department continues to distribute water filters at its Burton WIC clinic and continues to educate parents on lead in water issues. Distribution at the WIC clinic has been swift and additional inventory, another 100 water filters, will be added to the WIC distribution inventory.
- Genesee County Health Department will distribute a press release that supports Professor Marc Edwards, of Virginia Tech University's announcement that Flint residents do indeed need to continue to use water filters.
- After a through inventory of water filters, Michigan Department of Health and Human Services (MDHHS) will purchase more Pur replacement filters. As suggested by MDHHS staff, GCHD will inventory its supply of replacement filters and give inventory outcome to MDHHS.
- Genesee County Health Department will host blood lead screening clinics at Grace Emmanuel and Bethel United Methodist churches.

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

UW Jamie Gaskin reported that UW will giveaway 110 Thanksgiving baskets. The baskets will contain a water filter system.

For those who need 8oz - Zero cup water filters, please contact Tony Sitko at Flint Community Schools. His email address is:tsitko@flintschools.org.

Genesee County Health Department will give City of Flint 50 PUR water filters for distribution at City Hall.

Water filter distribution is well over 13,596.

BJ Roach from the State Police had nothing to report at this time.

Subject: Template for evening report

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18
- Maps???

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/23/2016
		6,323 National Guard 7,361 ARC

        2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and Rapid Response Teams).

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. *15 National Guard State (6-9 folks) type 3 teams – Goal tomorrow 300 homes per team*
    b. 40 ARC (2-4 folks) type 5 teams – Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, *does include duplicate counts from the second canvasing*
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs:
        ii. Number on Cyber Mission:
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

Subject: MSHDA - FYI

Dear MSP Team:

Thank you for your help on Friday with the two large rental apartment complexes that needed additional supplies. Much appreciated.

In the spirit of keeping you in the loop, I have attached a document with 453 confidential home addresses to various individuals in the City of Flint. For these addresses, we have asked each landlord to be sure to install water filters for tenants living at these locations. While we anticipate most landlords have made contact and installed water filters, our team will be doing some follow-up during the week of February 2nd to ensure landlord compliance.

At this time, we don't need anything, I simply wanted to make you aware that MSHDA had communicated with landlords associated with these distinct 453 units and asked them to install filters and we'll be following up in a week's time to ensure that has been completed. As you know, we distributed nearly 1,500 of the 2,000 filters last Saturday to our larger complex units – you should have that spreadsheet as well. The remaining 500 filters have been and will be used for these said addresses. I had promised to get you those addresses last week and I am just following up with that information now.

Thank you for your time,

Brian Mills

Subject: churches

Hi Tom, ref the churches- I have had contact with all on my list within the last 2 days, many of them today. We had several deliveries to them Thursday- today. Many of the churches are doing their normal Sunday distributions. All advised they are good right now. I spoke to Richard Boone, Mt. Vernon Chapel. He advised they did not need anything for tomorrow, however, the church was having a meeting tonight to discuss water distributions at their church in the evening 2 days during the week. The meeting was to decide if they would proceed with the idea, what hours and days of the week. Mr. Boone requested volunteer help if they chose to do this. Mr. Boone will call me after they decide those issues and I will put him in contact with Chad ref volunteers. Mr. Boone was very excited about that. All seemed appreciative for the supplies/water they have received. Please let me know if you have any questions. Thanks, BJ

Subject: Parcel Filter Status
Attachments: 20160122_1700_Parcels_Contacted.pdf; 20160122_1700_Parcels_Filter_Status.pdf

There are 38,144 total parcels.

- 6,736 (18%) agreed to have water tests.
- 17,595 (46%) have a water filter.
- 28,401 (74.5%) have had contact.
- 26,673 are connected to city water.

Attached are two maps.
The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.

The second map indicates the status of residents that have or have not received a filter. As noted, be wary of multi-tenant as it will be misrepresented. A parcel may be marked but we do not have accurate information on how many units exist on the parcel. Per GIS, the data used is about 90% cleansed. More coverage will be added as they continue to cleanse field team data.

- Cleansed version 3 of apps data
- Began repairing V2 and V1 data. 85% complete.
- Prepared map of vulnerable persons
- Hotspots of vulnerable persons for MDCH
- Map for MDARD of water mains
- Pulled data from app for recovery unit
- Provided total installed filters from V3 to planning
- Provide team assignment maps
- Provide JIC maps
- Coordinated with FEMA on lead mapping (ongoing)
- Coordinated with local GIS and confirmed they do not have unit counts for multi-tenant in databases
- Tying app data to parcels for running total by residence.

Subject: RE: Injury/Accident Track

Ginna Holmes and I were returning from the Red Cross meeting around 5:30 and looking for a parking spot. One side of the structure was full and we were driving over to the other side which crosses the exit from the underground parking. A minor collision occurred at that intersection (exit ramp and between two sides of parking structure). Ginna was driving her personal car and was struck on the passenger side. Both she and I are fine and no police report was filed. The other driver's car looked perfectly fine; Ginna's was the one whose bumper was damaged.

Subject: UAW installing filters

Amanda,

The Captain is asking for the below numbers to be included in the SIT rep daily. Also, maybe we want to push for a media release on what the UAW folks are doing to help the FWRTS.

UAW water filter installs =72 in the last two days (at this point today); these are being tracking on the new IPad app. They installed about 800 faucet filters between January 12th through the 21st (before the app/paper).

See below thread for further info.

Gabe

Subject: FW: Filter Installation Data Request

Captain,

FYI on the Filter numbers from the UAW folks. They estimate they installed about 800 faucet filters between January 12th through the 21st. Since the IPads with the updated fields rolled out (1/21/16) we are now able to track this. I am working on getting you a number on that.

Subject: Filter Installation Data Request

Per Captain Kelenske's request in the SEOC conference call this morning to obtain daily data for filters being installed by WRT, I contacted the union representative for the pipefitters and plumbers who have been embedded with our teams since combining with the Genessee County Sheriff's office on January 12, 2016.

Since introducing iPads into data tracking on January 12th, the union workers have tracked installations on paper (as there was not an iPad category to capture this information), and estimate that they have installed approximately 800 filters. Most of these facilities were multi-unit dwellings and/or vulnerable population residences. Beginning yesterday (1/21/16) with the additional battery of questions being captured via iPad, these vocational "embeds" are installing filters at any residence indicating a YES answer to the question, "Do you require assistance installing a filter?". In addition these workers are also continuing to focus on multi-unit dwellings and vulnerable populations identified by either the SEOC and local EOC.

As the SEOC is able to see the same data, it will be possible for you to see the number of installs daily, given that the YES answer is now a trigger for an installation.

Let me know if you have any questions.

If there is an issue with bullets coming in late: It is basically not possible with the amount of meetings, etc. that everybody is in to get all notes in time for submission at 6. We only have a very limited Planning function (i.e., Henrik).

Incident Command:

- Attended ARC meeting with VOADs to discuss volunteer management and strategies.
- Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
- Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
- Coordinated delivery of supplies to special locations.
- Coordinated with City of Flint to establish lighting at Fire Station #3 POD.

Operations Section:

- Met with volunteer agencies to improve communications and messaging.
- Evaluating potential volunteer assignments.
- Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
- Addressed security issues at Fire Station 3, 6 and 8 PODs (residents talking about gang activity, displaying weapons, etc.)

Planning Section:

- Track levels and distribution of supplies at Fire Station PODs.
- Set up flowchart for updated ipad questionnaire used by canvassing teams and PODs.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinating with SEOC Logistics to receive process for receiving or denying unsolicited donations of filter equipment.
- Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
- Developed SitRep #10.

Logistics Section:

- Coordinated and verified deliveries of supplies to apartment complexes.
- Identified potential locations for potential recycling stations.
- Data entry for deliveries to homebound residents on ipads.
- Tracking ipads used at EOC and for field operations.
- Entered resource requests for canvassing team expansion.

Attachments: Master Map List.docx

Today we

- Updated the Field Team Support maps to gridded area
- Updated the Field Team Support maps to use township and range rather than gridded area
- Provided updated map of vulnerable populations for MDCH
- Provided list of vulnerable individuals to local EOC through local situation unit leader
- Released V3 of the field data collection app with new form data for second round of home visits
- Updated JIC Map
- Provided data for Recovery Team of Field Team Activity
- Cross referenced health facilities and adult foster care to identify facilities in the affected area
- Provided list of franchise customers beyond City of Flint limits to public safety branch
- MSHDA was provided a map of active water subscribers
- Provided updated lead data to U of M Flint and coordinated with FEMA GIS to complete lead service line mapping
- Updated operational dashboard for field team activity (still need to provide updated dashboard for PODS)
- FEMA Logistics recommended inventory management be integrated into the dashboards and GIS web-developers are actively researching a strategy for this

Also, CPT asked that we maintain a master map list and provide it to you for the situation report daily. It is attached.

Subject: Franchise Customers

To all,

12:02 p.m. - The JIC requested to know how many residences are outside the City of Flint, that are on the Flint water system. The JIC also needed to know if the WRT's have made contact with those homes and if so, how many and where.

12:05 p.m. - I spoke with our SEOC GIS, who are working on obtaining the number of residences located outside of Flint and contacts made. D/Lt. BJ Roach was contacted at 1:27 p.m. to check with the Local EOC volunteer teams for data.

Update (1:48 p.m.)

The below information was provided by D/Lt. B.J. Roach and this information was provided to the SEOCPIO.

- The door to door water response teams are not being used to deliver filters to the residences outside the City of Flint. Local Flint officials and personnel are being used to deliver these resources.
- The City of Burton has 65 homes. The water filters were given to the Mayor for distribution. Burton received their first supply of filters on Jan 13th.
- Genesee Township has 25 homes and water filters were given to Commissioner Curtis who transported them to Genesee Township for distribution.
- Mt. Morris has 1 business, 1 home and 2 churches. These filters were also delivered to Commissioner Curtis for distribution.
- The local EOC is currently working with Flint Township who has 45 homes and an apartment complex that have over 500 units. They are currently working with Commissioner Curtis to coordinate with the apartment complex owner to get filters delivered. The plan is to have the maintenance personnel at the apartment complex handle the install of the filters.

SEOC GIS provided the below information.

- There are a total of 140 residence located outside the City of Flint that are considered Franchise Customer by the Flint Water Department.

plangc

From: Weber, Thomas (MSP)
Sent: Thursday, January 21, 2016 11:08 AM
To: plangc; MSP-seocda1
Subject: vrc plan; donations management plan

Do we have copies of the Volunteer Plan or the Donations Management Plan for this incident?

Tom Weber, PEM
State Planning Unit Manager
Emergency Management and Homeland Security Division
Michigan State Police

Subject: RE: Planning Maps

Hi All,

I am adding Lauren from Red Cross to this chain as she was coordinating the mapping – maybe she can circle back direct with Ken on the plan going forward so we are not changing things in Recovery at the SEOC and causing extra work.

Thanks,

Carly (SEOC Recovery Branch)

Subject: RE: Planning Maps

Ken, that is a phenomenal note. Our recovery unit made that decision. I would coordinate with them if you want to make a case to revert them to precincts.

Subject: RE: Planning Maps

Malysaa: Thanks for sending me these maps. It will be helpful to have them at hand to print as needed for the field ops folks.

All:
I just want to state that I think these new assignment areas as defined, in my opinion, will cause extra work and complication in actual field operations for the simple fact that they do no break on streets.
Groups assigned to adjacent areas I suspect will encounter many situations where it is not clear who has street. They have had these problems already in the process --where teams head down streets and discover they have been done, others skipped and generally a lot of extra work in the field operations office because they are constantly trying to mark-up maps with where people are going or have been.

Subject: Planning Maps

Both the individual team maps and the planning wall map are attached. An update to the wall map that includes metrics/statistics such as filters distributed, vulnerable population, residential structures, etc.. for each team area will be sent later today.

Please let me know if you have any questions.

Subject: Volunteer Ideas

Three thoughts that came to mind for volunteers:

1. Building a specific registry of volunteer plumbers who can be called upon for fixtures and pipes (most likely used based on water testing)
2. Special college volunteer program for data entry with Red Cross (iPad operators)
3. Seeing if Culligan or something similar can contract to support vulnerable populations

Genesee County Health Department

Frequently Asked Questions About
Lead in Flint Water

MDHHS Michigan Department of Health & Human Services

- Lead is hard to avoid completely. It can be found in old paint, water pipes and brass water faucets, in dirt, at some job sites, and in metal used for some hobbies.
- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are little and still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a NSF-approved filter.
  - Find a NSF-approved filter at http://www.gchd.us/docs/lead_filter_information.pdf.
  - If you use City of Flint water, you can call 211 to find out where you can pick up a free water filter.
- Some filters can remove up to 99% of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Change the filter cartridge as often as you should.
  - Run only cold water through the filter.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop. Use the tips below to know when it's best to use filtered water:

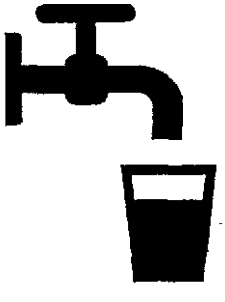
Lead in Water

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- **You can't see, smell, or taste lead in water.**
- **Lead won't change the color of your water.**
- **The only way to know what your home's lead levels are is by having your water tested in a lab.**

Please call the Flint Water Department at 810-787-6537 to request a free or low-cost water test.

In The Kitchen



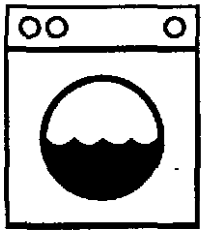
Use filtered tap water for:

- Drinking (including making coffee, drink mixes, juice, baby formula)
- Cooking (even if you boil the water, the lead will stay in the water and food)
- Washing fruits and vegetables

You can use unfiltered tap water for:

- Washing your hands
- Washing dishes
- Wiping down countertops

Cleaning



You can use unfiltered tap water for:

- Mopping floors
- Washing clothes

Your washing machine and dryer won't put lead from the water into the air of your home.

In the Bathroom

Use filtered tap water for:

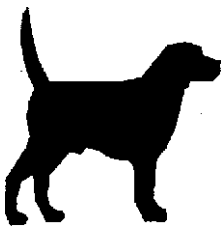
- Brushing kids' teeth

You can use unfiltered tap water for:

- Showers
- Baths (don't let kids drink the water as they play in the tub)
- Brushing your teeth (if you are an adult)

Lead will not cause rashes or other skin problems. However, if chlorine levels or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

Caring for Pets



Use filtered tap water for:

- Pets' water bowls

You can use unfiltered tap water for:

- Baths

If you notice your pet acting differently than normal, please contact your vet.

Other Sources of Lead in Your Home

Lead Paint

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

Dirt

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

Dust

- The dust in your home can contain tiny amounts of both the paint and the dirt that contain lead.

Hobbies & Jobs

- Solder, fishing sinkers, bullets, and stained glass framing materials are some of the items in your home that may contain lead. You could also track home lead dust from your job site.

Have Questions?

For more information about protecting yourself and your family from lead, please visit:

www.michigan.gov/lead

Or you can call the Michigan Department of Health and Human Services at:

1-800-648-6942

The staff at this number will help direct you to the best department that can answer your questions about lead in your home.

To request a free or low-cost water test, please call the Flint Water Department at:

1-810-787-6537

To find out if you can get a free water filter, please call 211.

Difference between Total and Occupied/Vacant

You can easily open the attached ZIP file with ZIP Reader by PKWARE®. ZIP Reader by PKWARE is a FREE Windows utility that enables you to process compressed and/or AES passphrase-encrypted files created by PKZIP® or other products that support these capabilities.

In addition, ZIP Reader by PKWARE can process strongly encrypted and digitally signed files created by PKWARE SecureZIP®, whether secured with digital certificates or passphrases.

Visit www.zipreader.com to download your free copy of ZIP Reader by PKWARE.

Note, the sender of this message may have used an alternate file extension for .ZIP files. To open this attachment, you may need to first rename the file extension to .ZIP.

Flint Water Response Team Plan for Saturday & Sunday, 01.23-24.16_V2.0_FINAL

Changes are highlighted in red

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
OGCS	Office of Genesee County Sheriff
HH	Household
LEOC	Local Emergency Operations Center
NG	National Guard

Key Leaders

WRT OIC	Lt. Amy Dehner	
ARC OIC	Robert Gaskill-Clemons	

Plan

Agency	Team Types	Mission
MSP/OGCS/NG	15 Teams	3000 HH
ARC	40 Type V	7000 HH

MSP/OGCS/NG

Resource Status

Team Type & Quantity	Type: N/A Quantity: 18				
Resource	**Minimum**	**Minimum Confirmed**	**Notes**	**Date**	**Time**
Team Leader	15	15		1/22/16	1525
16ft -20ft box truck	15	15		1/22/16	1525
Truck Driver	0	0	Sourced from NG	1/22/16	1525
Team Member	180	180		1/22/16	1525
Team Transport Vehicle for 6-9 Team Members	15	15	12 from DOC & 3 from	1/22/16	1525

			Warehouse		
Team Transport Driver	15	15	12 DOC & 3 from NG	1/22/16	1525
Patrol Car	15	15		1/22/16	1525
iPads	30	30		1/22/16	1525
Hand Warmers	300	300		1/22/16	1525
Vests	0	0		1/22/16	1525
Distribution Kit	3000	3000		1/22/16	1525

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 40 (10 ERV & 30 Box)				
Resource	**Required**	**Minimum Confirmed**	**Notes**	**Date**	**Time**
Team Leader	40	40		1/22/16	1525
ARC ERV	10	10		1/22/16	1525
ARC ERV Driver	10	10		1/22/16	1525
16ft box truck	30	30		1/22/16	1525
Truck Driver	30	30	Sourced from ARC	1/22/16	1525
Team Member	150-300	150-300	Islamic Relief & Others	1/22/16	1525
Team Transport Vehicle for 2-4 Team Members	30	30	10 from warehouse & 20 from ARC	1/22/16	1525
Team Transport Vehicle Driver	30	30	Sourced from ARC	1/22/16	1525
Patrol Car	0	0		1/22/16	1525
iPads	40	10		1/22/16	1525
Hand Warmers	60	382		1/22/16	1525
Distribution Kit	7000	7000		1/22/16	1525

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Subject: RE: JIC Maps

Shading looks great. Can I please get just one change. In the legend, we need to remove "citizen." Please use: Home Reached

I'll need that change on both the PDF and eps.

Just waiting on the numbers now.

Thanks!!

Subject: We intended to have this on the map

For the maps that were sent, we intended to have this table on the document, but were unable to get it added in time.

Due to some tech issues we cannot update it until the morning, but I still wanted to provide the information so you could print it off and hang it up next to it if needed.

Team Area	Residential Structure (Total residential structures in each team area)	Filter/Pitcher Distributed (Total distributed in each team area [V1+Paper+V2 Pre + V2 Post])	Vulnerable Population (Total elderly pop in each team area[Elderly + VAAA])
1	239	37	9
2	2259	842	55
3	2063	550	34
4	776	134	19
5	3488	899	63
6	1889	631	30
7	2593	658	56
8	1353	506	68
9	3709	1198	78
10	4407	1242	69
11	2892	878	87
12	1986	829	31
13	3523	1216	55
14	5502	901	102
15	2077	573	15

Shading looks great. Can I please get just one change. In the legend, we need to remove "citizen." Please use: Home Reached

I'll need that change on both the PDF and eps.

Just waiting on the numbers now.

Thanks!!

Subject: questions
Attachments: Commodity Distribution App Scripts 2016-01-20.docx

The attached file contains the broad range of questions and land use type that we'll be working with. The only portion needed/pertinent for tonight/tomorrow are the questions at top for "all" and for "single family residences." Those two will get the guard what they need, and I think most of those are already in the app.

All the questions below that are for water customers that will be developed with and covered by other departments (LARA/MDARD, etc).

From Chris for SA only.

From: Roe, Christopher [mailto:christopher.roe@fema.dhs.gov]
Sent: Wednesday, January 20, 2016 3:30 PM
To: MSP-seocda1
Subject: Cong. Coordinating Call notes--(Unofficial. SA only.)

Hi Zach:

Brief unofficial synopsis of the call FYSA. Dan Shulman plans to send official notes later—

Presenting Attendees: Capt. Kelenske, Gen. Vadnais, David Samaniego, FEMA FCO, and Ben Goldhaber of HHS presented on basic operational outcomes-to-date in Flint. All of these details were culled from your SITREP. (Nothing new—basic discussion of POD sites, MI-NG roles, etc.) Additional attendees were representatives from Sens. Stabenow and Peters, Rep. Kildee, Rep. Pelosi, and a representative from the Congressional Black Caucus.

A total of three questions were received. Two from Rep. Kildee's DC staff and one from the Congressional Black Caucus Rep on the call.

Questions were as follows:

Rep. K1: Asked how individuals who were unable to travel to POD sites and/or functional needs received commodities.

Capt. Kelenske referred to the 2-1-1 system as the most effective means to get constituents with challenges accessing the PODS the commodities they need.

Q2 from Rep. Kildee's Office: Will there be an increase in distribution centers?

Answer from Capt. Kelenske: MSP has leveraged the faith-based community to distribute some commodities over the course of the past two Sundays. He confirmed that 9 churches were used two weeks ago, and (up to) 15 churches were used to distro materials last Sunday. (1/17) He stated that MSP will continue to leverage those opportunities as they become available.

Q1 from Cong. Black Caucus: How were large facilities such as schools, hospitals, and businesses being provided with commodities?

Answer from Capt. Kelenske: These organizations were stockpiling water and have an abundance available. He mentioned that in the initial phase of the response, MSP had borrowed water from them. (Which has since been reimbursed.)

Call began at 1430 Hours and was concluded by 1500. No follow-up RFI's were received from any Congressional Staffers.

Hope this is useful!

Thanks,
CWR

Hey Chris,

Here are the ARC warehouse numbers from 6pm that were not in the SitRep. As you know FEMA logistics was recounting the warehouse tonight to get accurate numbers.

6pm ARC Warehouse:

Water: 40,896
Filters: 66,764
Cartridges: 59,586
Pitcher: 0
Test Kits: 6000

See below and attachment.

Let me know if you have any questions,

Subject: Daily Summary

- As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671
    e. Filter Pitchers 89

3. Total number of customers on the Flint water system
    a. 29,944 paying customers

b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 95,760 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 7 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

See below update:

- Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments. Set update interval for maps to 7:00 PM daily. New map refocuses efforts on residential only, and highlights only filter distributions for coverage.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident. Plan on building a dashboard to monitor status of these facilities for display in the SEOC.
- Coordinated with Flint City GIS to gather total counts for buildings and units per parcel. Still not delivered, but meeting late in the day confirmed the data is available.
- Built a data entry tool and deployed to the documentation unit for paper forms from field teams. No issues to report on this tool.
- Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners. Additionally, he will attend morning GIS huddle to deconflict tasks and identify priorities for the day.
- Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability. Intended release is 1/21/2016.
- Received tasker for updating app for Phase II of team deployments. However, no form fields have been provided and need to meet to structure out the app as this will be a major overhaul requiring a new release of the system.
- Provided map of preliminary Water Testing Results to CPT Kelenske for planning purposes and SA.
- Nikkia Anderson returned to the office and has been reintegrated into the schedule.
- HSIP Gold received today. Will work to incorporate into viewers of the following days. This opens up a wider array of data sources for mapping.
- Fixed accounts for iPADS that were failing in the field and brought them back online.
- Coordination continued with U of M Flint. Plan on passing data tomorrow to assist in synchronizing efforts.

Subject: CDC Visit This Week - ATSDR

Hi Amanda,

Below is a summary of the visit from CDC this week:

Deployment:

Tuesday night (1-19-16) until Friday night (1-22-16)
Leave ATL and Chicago on late flight and arrive in Lansing near 11:00 PM ET
Lodging near HD (located at 201 Townsend Street (Capitol View Building), downtown Lansing
1:30 meeting with state officials (Mikelle Robinson, Deputy Health Official point of contact, reserved conference room)

Attendees (EOC making travel arrangements):

Ileana Arias, PhD Division Director – Division of Community Health Investigations, ATSDR
Role - Sr. NCEH/ATSDR representative, linked to the SHO
Herbert Wolfe, PhD – Senior Advisor – Office of the Director, NCEH/ATSDR
Role – NCEH/ATSDR OD Response Lead
Mary Jean Brown, PhD – Director, Lead and Health Homes Program
Role – Lead expert, liaison to lead program and education interventions, surveillance strategy
Mark Johnson, PhD – Region 5, ATSDR
Jasen Kunz and Troy Ritter – Water systems specialists (Legionnaire's disease) in Environmental Health Services Branch
John Sarisky – Branch chief and water systems specialist in the Environmental Health Services Branch
Andy Dent – Director, Geospatial Research, Analysis, and Services Program (GRASP)
Christain Scheel – Associate Director, NCEH/ATSDR Office of Communication
Pat Breysee -Director, NCEH/ATSDR
Donna Knutson– Deputy Director (Acting), NCEH/ATSDR
Sharunda Buchanan – Director, Division of Environmental Emergencies and Health Services
John Decker – Associate Director, NCEH/ATSDR Office of Science
Nancy Messonnier - Deputy director, NCIRD, OID

Purpose:

To gather ground information on what is happening in Flint and with the State HD regarding the water and lead situation. Specific asks from the state and county have been received –

- A public health advisor to provide on-site assistance to SHO in prioritizing and managing critical tasks
- Communications expert to guide internal and external messaging, and assistance in preparing SHO for legislative hearings and inquiries
- *Assistance in developing comprehensive plan* to accelerate lead testing among children 0-6 years of age
- Support in developing statewide lead surveillance strategy for all high risk communities in Michigan
- Assistance in prioritizing and guiding a plan for secondary/tertiary prevention strategies for the Flint community, including with working local public health, subject matter experts, the academic community, and the Governor's multi-agency coordinating committee
- Blood lead surveillance- review of case definition for surveillance; *determine utility of methods such as shewart charts* for situational awareness; review of Poisson regression modeling for Flint; identification of best practices for geospatial analysis and the role of ZIP code versus other geographic units such as wards.
- Legionellosis - development of methods and tools for the identification of high risk facilities and development of risk mitigation guidance for such facilities

- BSN prepared nurse facilitator to supervise student nurses rotating through Flint and providing community outreach and intervention to residents

Upon return from the visit, HHS will develop a more consolidated, longer term plan for assistance for Flint and the State of Michigan to be implemented with ASPR coordination.

Is this what you were looking for?

Thanks,
Jennifer Lixey Terrill

Subject: Franchise Customers

Gabe,

Per the local EOC below is the details on the franchise customers.

- City of Burton is the only one where we know that they are all taken care of (65 customers have been served with a complete kit (filter, replacement, water, info material) - they went to each household individual, provided info on the Fire Station PODs, issued a news release, etc.)

- Mt. Morris had 1 house, 2 churches, 1 business. Should be all taken care of, BJ is confirming.

- Genesee Twp has been taken care of per the MI CIMS log, number of customers unknown.

- Flint Twp: Currently the local EOC logistics has requested the SEOC logistics the support to fill 600 complete kits. Those would be for the 45 homes and apartment complex of 500+ residents.

Henrik- please let Gabe know if I captured any of this information.

Subject: RE: Franchise Customers

City of Burton is the only one where we know that they are all taken care of (65 customers have been served with a complete kit (filter, replacement, water, info material) - they went to each hh individuall, provided info on the Fire Station PODs, issued a news release, etc.)

For the other municipalities, Jay said that he spoke with SEOC Logistics to make sure that we have the resources to send them out. There is one Apt complex in Flint Twp (Sunridge?) with 500+ apartments, so they specifically requested stuff for that municipality (over 600 hhs on Flint water), and I don't know where that stands.

Jay is on a call right now, after that I will be in the recycling/trash management meeting, so I don't know when I'll be able to fully clarify this, but I'll be working on it.

Hi Henrik,

Do you have an idea of how many resources that have been provide to franchise customers (Genesee Twp, Mt. Morris, Flint Twp., and Burton)? I don't believe we have seen all of those requests and Gabe is looking for numbers.

Thanks!
Amanda

Subject: Daily Summary

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:
- SitRep 13

Status on Governor's request letter to the President:
- Emergency declaration received.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.

- Information reported to the JIC:

o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 82,992 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.

- Working with colleges to obtain volunteers for canvassing.

- Requested information from SEOC regarding amount of distributed bottles to date, and projected amounts for future distribution for trash management/recycling plan meeting on 01/19/2016.

Subject: SitRep bullets

Incident Command:

- Established objectives for the current operational period.
- *Requested deployment of Reserve Deputies from Saginaw County Sheriff's Office to support field operations.*
- Coordinating the use of PUR sampling teams with SEOC and City of Flint.
- Responded to offer of relieve from the Little River Band of Ottawa Indians. Sought guidance from SEOC.
- Standardized information collection systems (i.e., spreadsheets) for tracking of home deliveries of supplies to allow GIS mapping for emergency responders without access to GIS systems.
- Provide guidance to Fire Station PODs for distribution and collection of test kits/water sample.
- Addressing concerns that distributed water is tainted with lead (via reports through 211).

Operations Section:

- Clarifying volunteer operations, and working to improve communication between EOC/SEOC and Michigan Community Service Commission to develop a clear plan.
- Provided clarification of data entry on ipads to canvassing teams through Sheriff's Office.

Planning Section:

- Tracking supplies and distribution at PODs.
- Discussion with ARC, SEOC and EOC operations regarding digital submission of address sheets from ARC canvassing teams to SEOC for data entry.
- Preparing IAP process for current operational period.
- Identified operational functions at EOC to provide input for development of objectives for the operational period.
- Requested information from SEOC regarding amount of distributed bottles to date, and projected amounts for future distribution for trash management/recycling Plan meeting on 01/19/2016.
- Developed SitRep #8.

Logistics Section:

- Initiated and followed up on resource requests.
- Coordinated hotshot deliveries of supplies to faith-based organizations and special locations.
- Coordinated with Comcast to set up locations for distribution of filters.
- Identifying suitable space for incoming National Guard command staff.
- Assisted coordination of donated vehicles.

HI team,

Please see below a few folks that need water resources:

Flint, MI 48507

- People came to her house today 1/18 and left a flyer but no water- needs water. Also, the filter does not fit on her sink so she doesn't know what to do. Says she followed the directions but the only part of her sink that works in the "sprayer" and the filter won't fit on this.
- We may need to get her a pitcher that filters water.

Fling, MI 48505

- Needs a water delivery- in back of apartment with a cane- takes about 3 minutes to answer the door- please do not leave until she gets to the door

- Needs water delivery- disabled and unable to leave home- has a filter

To: plangc
Subject: Activities Summary 1/18

We:

- Continued producing maps of lead service lines (40% complete with primary effected area)
- Developed a map of comparative activity for the JIC from pre-response to post-response (established a recurring task to update this map)
- Established metrics to measure percent completion of resource distribution. The following two are from today:
    - Active Water Subscribers confirmed as Having a Filter: 13164 of 29994 total subscribers (44% coverage)
    - Total parcels confirmed as having a filter: 15364. Total parcels needing to be targeted is unknown as field teams are noting that the Flint parcel layer is not accurate for vacant homes. Need to work with assessor's office to update. Planned to be researched and established tomorrow.
    - Multi-tenant home status: Cannot be completed right now as we need to work with Flint's assessor's office to identify tenancy counts. Planned to be researched and established tomorrow.
- Fixed data from apps and paper copies of field team reports and PODS. There remains a significant amount of unplotted data due to issues with teams using paper forms.

Hi Jim,

Thanks for putting this together as an option. However, we would like to have the two maps side by side to show the "before and after" activity that shows where we started versus activity to date.

Also, I don't think the color scheme is stark enough to distinguish the difference. We can discuss further, but right now we are focused on getting the two maps side by side as showing the before and after.

Please let me know if you have any questions.

Hello Tiffany,

Attached is a draft of what was discussed. The "today" numbers are current as of 17:48 (5:48 PM).

I did some color changes. Explained below:

- Avoided red due to make it more ADA compliant
- Made vacant parcels green to give a cleaner visual that those areas are clear (noting that lead service lines may still exist to those houses)

Please let me know if the attached meets your intent.

Hi Jane,

Below is the info we need for today and going forward. Thanks!

Homes visited daily. Jan. 18th 5,040

To date, total number of homes visited by water response teams. 21,393

Since January 9, total number of resources distributed to residents, both at the water resource sites and by the water response teams, in addition to donations:
•cases of water 37,313
•water filters 53,713
•water testing kits 7,379

The State of Michigan has purchased the following resources, since January 5, which will continue to be delivered to Flint over the coming days:
•cases of water 58,456
•filters 108,520
•water testing kits 28,903

Operations

Today was a planning day, so objectives, critical tasks, and tactics were reviewed for an operational period of 7 days beginning Tuesday, January 19.

Operations submitted a resource request for MANG to assist with delivery of water, filters, test kits and replacements filters to Flint residents, beginning Tuesday, Jan 19.

A cost analysis of State of Michigan purchasing water vs FEMA purchasing water has been requested prior to FEMA purchasing additional. They "leaned forward" immediately yesterday and had water in route before this analysis could be done. We would like to ensure the most cost effective means before additional is purchased.

An informational document was reviewed and approved by command regarding "Lead in the Water" for the Michigan.gov/Flintwater website

An Arabic version of the palm card was reviewed and approved by command. This was developed via Arab American and Chaldean Council.

We learned that the CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.

In working to assist in gathering of information for Capt's briefing to be conducted on 1-19-16, I have the following:

Purchased since activation:

82,992 cases of water was purchased in addition to 16,056 donated cases of water

115,700 faucet filters were purchased

236,000 replacement cartridges were purchased

2,300 filtered water pitchers were purchased

From Planning:

Here is the information on resource distributed as of 5 pm today. This includes the updated totals from yesterday (between 7-9 pm) and the daily totals for PODs and FWRT as of 5 pm today.

As of 1/18/16 as of 5pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

Subject: RE: Draft Map

Hi Jim,

Thanks for putting this together as an option. However, we would like to have the two maps side by side to show the "before and after" activity that shows where we started versus activity to date.

Also, I don't think the color scheme is stark enough to distinguish the difference. We can discuss further, but right now we are focused on getting the two maps side by side as showing the before and after.

Please let me know if you have any questions.

Subject: Draft Map

Hello Tiffany,

Attached is a draft of what was discussed. The "today" numbers are current as of 17:48 (5:48 PM).

I did some color changes. Explained below:

- Avoided red due to make it more ADA compliant
- Made vacant parcels green to give a cleaner visual that those areas are clear (noting that lead service lines may still exist to those houses)

Please let me know if the attached meets your intent.

Hi Amanda

1. I talked with James T. regarding the attached spreadsheets provided by Lauren and the data needs to be entered into an online form. This can't be uploaded into the system. This means that either we put an EMHSD staff member into the EOC under Planning to be a data entry person or have the Red Cross do it.

From here forward, the red cross should be entering this information into the online form and not into a spreadsheet that is forwarded to us.

2. Is the goal to know what amount of filter types are at each house, so that we can forecast how many replacement filter cartridges that will need to be replaced for the next year or so. If yes, then the red cross needs to make sure that this data is captured, if they use paper and not the iPad.

We can talk on this.

Thanks
Sam

Good Afternoon Sam,

As discussed, please ensure this data is merged with the ipad data. These are the numbers for the ARC WRT.

Thank you
Lauren

Hi Jesse, thank you for you contacting us today about Pepsico's generous donation of 1000 cases of Aquafina Water to the Flint Water Crisis. The Michigan Community Service Commission(MCSC)/Department of Health and Human Services (DHHS) is charged with coordinating donations for this crisis and supporting the Red Cross and United Way with volunteer efforts.

Pepsico's water donation will be accepted on **Wednesdsay, January 20th** at: **4315 Clio Rd., Flint, MI**
Hours: 10am - 7pm
Staff/volunteers will be available to unload the donated water.

Thank you again for your generous support and kindness! Take care and stay warm. Janet

Subject: GIS Update 1/17/2016

The major effort for the day was determining metrics for success regarding filter distributions. A method has been developed to tie back resource distributions to active water customers. As a result of this effort it was determined that of the 29,994 active water subscribers on the Flint Water System, 12,002 have been confirmed as having received filters (4623 of which were a result of SEOC driven operations that we began tracking on the 13th of January). There are a significant number of paper copies of records and database entries that need to be cleaned that are not included in the above. Additionally, there are a significant number of persons who do not show in the records as having been a water subscriber that received a filter. We are actively working to synch up all of these datasets to get a more accurate picture of who does and does not have filters.

Another major focus was determining what map should be provided through the JIC to the media to update the public on the status of response efforts. It was determined that the point data from the dashboard is ideal to show progress. This has been established as a recurring task and the map will be produced daily by 1700.

Maps produced today:

- Flint Water Response Teams Planning Maps
- Team Activities Map for JIC
- City of Flint Infrastructure Map for FEMA

Additionally, provided tabular data from Flint Water Response Team Activities for the Recovery Unit.

No progress was made on the mapping of lead water service lines in the City of Flint.

Subject: JIC sit rep UPDATED

We're no longer going to send the American Red Cross news release tonight. We have too many questions. Please update the bullet point to:

- Preparing a news release by the American Red Cross and United Way regarding the volunteer resource center and how individuals can volunteer to help.

From: JICManager
Sent: Saturday, January 16, 2016 7:44 PM
To: MSP-SEOCPIO
Subject: JIC sit rep

My apologies for the delay- we've been slammed today.

- Held a media availability at Fire Station #5 where Major General Vadnais announced Michigan National Guard efforts will be doubled to approximately 70 personnel by Monday to assist at water resource sites.
- Governor's Office issued a new release announcing the Presidential emergency declaration approval.
- Answered media calls about the state's resource distribution and activity efforts to date.
- Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
- Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration. Preparing talking points for the Congressional and legislative conference calls.
- Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel.
- Issued a news release from the American Red Cross and United Way regarding the volunteer resource center and how individuals can volunteer to help.

Execution:

Key Locations

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building	0830-1600

	1101 Beach St, Flint	
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment
11. Conduct post-deployment debrief with team leaders and members
12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	0 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	14
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/19/2016 08:00:00
SEOC Hours of Operation End:	01/19/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 19):

The SEOC continues to provide:
- *Situational awareness.*
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- *Public Information Control.*

- Logistics
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

- JIC
o Shared water activity map with Media last night and this evening.
o Issued news release concerning donations.
o Worked with FEMA external affairs to schedule Legislative and Congressional call for tomorrow.
o Comcast has put filter installation video on the On Demand section.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Wednesday and Thursday.
o Confirmed team typing for Flint Water Resource Teams.
o Sent out 5 type 3 and 10 types 5 teams to canvass today.

o Data is for 1/19/16 as of 5:00 pm:
o Total homes visited.
□ 22,129 (total).
□ 2,715 (today).
o Door Hangers.
□ 9,851 (total).
□ 1,163 (today).
o Water Cases.
□ 6,103 (total).
□ 789 (today).
o Replacement Cartridges.
□ 3,795 (total).
□ 322 (today).
o Faucet Filters.
□ 7,394 (total).
□ 730 (today).

- Planning Section.
o Published Sit Rep #14.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Updated staff assignments for the Planning group.
o Identified staff to assist with data entry of daily Red Cross field team worksheets.
o Worked with FEMA to clarify data reporting method and schedule.
o Participated in daily SEOC briefings and distribution process conference calls.

- Operations Section
o Facilitated daily SEOC briefing calls.
o Held logistics meeting with FEMA in reference to resources available and need for ordering.
o Held logistics meeting in reference to National Guard deployment.
o 71 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
□ Whole warehouse being inventoried, numbers will be available at 0800 tomorrow morning.
o Point of Distribution (as of 6 pm)
□ Contacts.
• 1,822.
□ Water (cases)
• 9,559.
□ Filters (faucet)
• 1,409.
□ Replacement Cartridges
• 534.
□ Filters (pitcher)
• 89.
□ Test kits
• 1,127.

• Finance Section.
o Continue to revamp spending plan and cost tracking.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

• GIS Branch Updates.
• Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
• Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
• Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
• Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
• Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
• Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
• Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
• Received tasker for updating app for Phase II of team deployments.
• Fixed accounts for iPad's that were failing in the field and brought them back online.
• Coordination continued with U of M Flint.

DTMB:
• Drivers have been extended through Saturday to support the canvassing efforts.
• Working on securing space in the flint office building for FEMA staff.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
• Discussed with SAMSA to talk about grants available and the DBH hotline.
• Ordered EPA pamphlets concerning nutrition plan for distribution.

DEQ
• 7,200 sample bottles delivered today and 7,200 more coming in tomorrow.
• 14,000 sample bottles will be delivered tomorrow.

Local EOC Update:
• Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
• Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
• Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
• Developed SitRep #9.
• Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Pushed the 1/18 water activity map on social media.
- Issued news release #09 regarding donations.
- Posted social media content regarding donations.
- Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.

• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
□ Democratic debate mention by Hillary Clinton
□ Flint as Governor Snyder's Hurricane Katrina
□ Class-action lawsuits filed today against the state
□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) -- that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
- Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the

local Emergency Operations Center and provide for water test kits for their use.
• Facilitated logistics for bottle delivery and water test kit assembly.
• Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
• Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
• Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher– Model #ZD-018
Zero 8 cup pitcher– Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had 5 police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

100 National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have 10 patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.
Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

SEOC Hours of Operation End:	01/19/2016 20:00:00

Executive Summary

On January 6, 2016, Governor Snyder declared a State of Emergency for the City of Flint and Genesee County. Genesee County requested the Governor's declaration on January 5, 2016, following the declaration of a State of Emergency in the county in response to the presence of lead in the public water supply, and the detection of elevated blood lead levels exceeding governmental standards. These conditions exist in the City of Flint, which declared a local State of Emergency and activated local response plans and their Emergency Operations Center on December 15, 2015. A public health emergency was declared by the Genesee County Health Department on October 1, 2015.

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to the Flint River as their primary water source. The corrosive river water caused the leaching of lead from lead pipes into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Elevated blood lead levels were observed in a significant sampling of young children in the City of Flint, and confirmed by the State Chief Medical Officer.

To mitigate the negative effects of corrosive river water on the water infrastructure in the City of Flint, the city switched back to DSWD as their primary water source on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone. MDHHS has increased surveillance of blood lead levels in children, addresses water issues in environmental investigations facilitated to identify lead sources in the environment of affected children, and provide health education and information to residents, health care providers and daycare/educational institutions. Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff, consolidate data from local sources into comprehensive databases, and providing mapping services that support incident analysis and forecasting. Data and maps will be made available regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, predictive blood lead levels for affected areas, demographics, etc.

Before December 16, 2015, $9.35 million were provided by the State of Michigan, and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While drops in lead levels have been observed since reconnecting to the DWSD system, water in the City of Flint is still not safe to drink, unless specifically filtered.

Incident Response/Recovery Priorities/Objectives

TBD

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
• Pushed the 1/18 water activity map on social media.

• Issued news release #09 regarding donations.
• Posted social media content regarding donations.
• Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.
• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
□ Democratic debate mention by Hillary Clinton
□ Flint as Governor Snyder's Hurricane Katrina
□ Class-action lawsuits filed today against the state
□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare

providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
- Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the local Emergency Operations Center and provide for water test kits for their use.
- Facilitated logistics for bottle delivery and water test kit assembly.
- Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
- Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
- Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher– Model #ZD-018
Zero 8 cup pitcher– Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA
989-763-4256

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had 5 police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

100 National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have 10 patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.

Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 15, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

The Community Health Emergency Coordination Center (CHECC) is at Level 2 Activation

****NOTE: Contains potentially identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested for Lead 10/1/2015 to 1/8/2016: 2,642;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 28
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 15
Severity Indicators: Hospitalized/Discharged - 1/1; Deaths - 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- EBL report through 1/15/2016
  - 23 families contacted
  - **17 EBL investigations completed.**
  - **17 Water samplings completed.**
  - **10 EBL Reports Received.**
    - **9 homes with lead dust hazards**
    - 3 homes with lead in soil hazards
    - **8 homes with lead-based paint hazards**
    - **5 homes with lead detected in tap water**
      - 1 home with lead water levels greater than 15 ppb
  - **4 investigations scheduled.**
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.
- 1 home was found to have elevated lead concentrations (72 ppb) in water from a bathroom tap. The family has been advised not to use the tap for consumption or brushing teeth. An additional filter will be provided to the family and options for replacing the fixture will be explored.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- CM report through 1/8/2016:
  - # of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)
  - # offered CM: 134 (0-5 year olds) and 12 (6-17 year olds)
  - # CM started: 25 (0-5 year olds) and 3 (6-17 year olds)
  - # of children receiving CM who live in Flint: 25 (0-5 year olds) and 3 (6-17 year olds)
  - # billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)
  - # other disposition: 30 (0-5 year olds) and 1 (6-17 year olds)

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **Developed metrics related to elevated blood lead testing among children < 6 years of age in Flint who are enrolled in Medicaid.**
- **Held conference call with CDC to discuss development of tools related to identification of and recommendations for facilities at greater risk for transmission of opportunistic pathogens.**
- Developed/updated Talking points to respond to Legionella questions.
- Completed Summary report describing second illness wave case investigations.
- Updated Analysis/Summary on first illness wave investigation with recently acquired patient information and illness-related mortality standard.
- Supplied Legionellosis cases to Vital Records for linkage to ascertain any unreported deaths.

Filter & Water Distribution Sheryl Thompson

Filter report through 1/13/2016

	Received	Distributed	Remaining
Water Filters	22,000	13,008	8,992
Water Pitchers	720	409	311
Replacement Cartridges - Brita	19,400	3,367	16,033
Replacement Cartridges - PUR	5,706	375	5,331
Replacement Cartridges - Zero	375	205	170

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Weekly HHS internal briefing.**
- **Weekly coordination call with GCHD.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Began work on filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)

Toxicology - No Updates

WIC - No updates.

Healthcare/Providers - No updates

DEQ Information - Linda Dykema as Liaison

- DLARA plumbers will replace fixtures at Freeman Elementary School that were previously tested and found to have > 15 ppb of lead in the water. MDEQ will conduct a "deep flush" of the school plumbing since many lines have been unused for several months. MDEQ will then retest of the water from the new fixtures to confirm whether or not these efforts have been effective in reducing or eliminating exposure to lead in the water.

Water Response Team: Concept of Operations and Support V2.0_011816

Mission: *Distribute filters and additional* resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Office Genesee County Sheriff (OGCS)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross (ARC) OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

The below quantities are planning factors and will be continually refined based on data from WRT feedback

Team Typing

Type	Mission	Truck	Team Leader	Team Member	Team Transport Vehicle	Team Transport Driver	Patrol Car	iPad	Distribution Kit
Type I	500 HH	1 – 26' - 24' Box	1	10-20	1+	1+	1-2	1-2	500
Type II	400 HH	1 - 20' 18' Box	1	8-16	1+	1+	1-2	1-2	400
Type III	300 HH	1 16' Box	1	6-9	1+	1+	1-2	1-2	300
Type IV	200 HH	1 14' Box	1	4-8	1+	1+	1-2	1-2	200
Type V	100 HH	1 ARC ERV*	1	3-6	1+	1+	0	1-2	85**

* American Red Cross Emergency Response Vehicle

**Replenishment required to achieve mission

Flint Water Response Team Plan for Tuesday, 01.19.16_V2.0_FINAL

Changes are highlighted in red

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
OGCS	Office of Genesee County Sheriff
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

WRT OIC	Lt. Pat Young	
ARC OIC	Robert Gaskill-Clemons	
Warehouse	Shawn Scott-Fitzgerald	

Plan

Agency	Team Types	Mission	Priority Distribution Areas
OGCS/MSP	5-6 Type III	3600 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg
ARC	10 Type V	1200 HH	Refer to 20160116_Team_Assignment_Areas_Update.jpg

Resource Status

Team Type & Quantity	**Type:** Type III **Quantity:** 5-6				
Resource	**Required**	***Confirmed***	***Notes***	***Date***	***Time***
Team Leader	5-6	5-6		1/18/16	
16ft box truck	5-6	5-6		1/18/16	
Truck Driver	5-6	5-6		1/18/16	
Team Member	40-50	40-50		1/18/16	
Team Transport Vehicle for 6-9 Team Members	5-6	5-6		1/18/16	

Team Transport Driver	5-6	5-6		1/18/16	
Patrol Car	10-12	10-12		1/18/16	
iPads	10-20	20		1/18/16	
Hand Warmers	144	382		1/18/16	
Vests	0	200		1/18/16	
Distribution Kit	1500-1800	1500-1800		1/18/16	

Team Type & Quantity	**Type: Type V Quantity: 12**				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		1/18/16	
ARC ERV	10	10		1/18/16	
ARC ERV Driver	10	10		1/18/16	
16ft box truck	0	0		1/18/16	
Truck Driver	0	0		1/18/16	
Team Member	30-60	30		1/18/16	
Team Transport Vehicle for 2-4 Team Members	10	10		1/18/16	
Team Transport Vehicle Driver	10	10		1/18/16	
Patrol Car	0	0		1/18/16	
iPads	10-20	10		1/18/16	
Hand Warmers	60	382		1/18/16	
Distribution Kit	1200	1200		1/18/16	

Execution:

Key *Locations*

Team	**Assembly Area**	**Hours of Operation**
OGCS/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

OGCS/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in

3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to OGCS_MSP WRT Volunteer Assembly Information V2.0_011816 for detailed information on volunteer processing at LEOC)
    5. Provide training to new team members
    6. Issue vest and badge to team members
    7. Execute morning distribution assignment
    8. Lunch served between 1230-1330
    9. WRT OIC and Team Leaders midday brief
    10. Execute afternoon distribution assignment
    11. Conduct post-deployment debrief with team leaders and members
    12. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

OGCS/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail.

Priority Distribution Areas

iPads	10	10		1/28/16	8:00 am
Hand Warmers	40	40		1/28/16	8:00 am
Distribution Kit	1000	1000		1/28/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas – Continuation of January 28th Team Assignment list – see below

Priority – City Sections 3, 9, 11, 17, 19, 20, 23

Secondary – City Sections 2, 10, 28

Map Support

Maps and addresses will be provided daily to provide detailed information on city sections. Teams will target specific homes requiring follow up.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 28, 2016

GENERAL INFORMATION:

- **FOLLOW UP:** 2-1-1 was hit hard in the aftermath of last night's robo-townhall by Gov. Snyder and the nationally broadcast town meeting with Rachel Maddow on MSNBC. Calls from Flint are becoming longer and expressing more frustration. We received word that some state government outreach materials are directing residents to call 2-1-1 "to share their feelings and ideas". We are working to track down the specific source for this, but it is important to clarify ***2-1-1 is an information and referral service, not a chat line.*** Flint residents clearly need a venue for sharing their feelings and ideas, but 2-1-1 is not equipped to collect or act on this information – using the service for this purpose prevents other callers from receiving the assistance they need.

CALL VOLUME:

The Michigan 2-1-1 system experienced much higher than average call volumes today. Seasonal demand for tax preparation scheduling and assistance are a major source of calls, in addition to over 600 calls from utility assistance customers who received notice that they are no longer eligible for a Michigan Energy Assistance Program that helped in past years with heating expenses. With 14,000 households receiving notices they are being dropped from the program, we anticipate demand from these utility customers will remain high for several more days, particularly in SE Michigan.

The Michigan 2-1-1 providers are working together to address system capacity challenges and to meet quality service expectations. Temporary staff are being added in some locations, but space restrictions limit the number of additional agents who can be added on-site. The 2-1-1 technology platform is highly flexible, requiring only an internet connection and a direct-dial phone number to receive calls. Available options to address the capacity need are 1) deploying regular 2-1-1 staff to work from home; 2) utilizing volunteers to take Flint water calls from an outside location; or 3) contracting for staff from 2-1-1 providers in other states. Each option has training, supervision and cost implications for 2-1-1s and our funding partners to consider.

SPECIAL NEEDS/REQUESTS

- Residents have heard news reports that initial lead and copper test results have been posted. They are calling 2-1-1 for results. 2-1-1 is not sharing individual results, but is instructing these callers to visit http://www.michigan.gov/flintwater and click on the report under the 'In The Home' link.

RUMOR CONTROL

- 2-1-1 continues to receive a number of calls regarding the rumor that Sparklett bottled water is contaminated with lead. Callers are informed that MDEQ has tested all bottled water sources and confirmed they are lead- and copper-free.
- A member of the Communications team at 2-1-1 partner Michigan Association of United Ways shared a link from Twitter and Facebook account 'BrownBlaze' based in Milwaukee with posts stating:
  - ☐ "Flint residents are barred from selling their homes and moving their families bc it is illegal to sell with a known lead or copper issue."
  - ☑ CPS is threatening to remove children from homes with water issues. **Note:** This rumor has been documented by fact-checking web site Snopes.com as "FALSE".
  - ☐ "Undocumented immigrants in Flint aren't just being denied clean water, they aren't being tested for lead poisoning." This tweet included a link to a story about undocumented

residents facing ICE raids: http://grist.org/cities/its-not-just-clean-water-flints-undocumented-immigrants-cant-access-medical-lead-testing/

Michigan 2-1-1 forwarded these links to SEOC for response.

UNRESOLVED

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- ☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
- ☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

Recovery Branch – 1/28/16 as of 5:00 pm

- Attended Local Brief, SEOC State Agency Briefing Meeting, Distribution Process Meeting, and Community Partners Meeting (Briggs).
- Coordinated data entry for ARC paper tracking forms with Headquarters volunteers.
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- Dispersed daily Flint Water Resource Team Plan and area assignment for water response teams.
- Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes our data shows don't currently have filters.
- *Continued demobilization of trucks and vans.*
- **City Sections Visited Today**: 2, 3, 9, 10, 11, 17, 19, 20, 23, 28
- **City Sections Scheduled Tomorrow***: Finishing routes from January 28.
- **10 American Red Cross Teams scheduled for Friday, January 29th.**

Water Response Teams	TOTALS
Occupied Homes	5,836
Vacant Homes	165
Unknown	733
Total Homes Visited	**6,734**
Resources Provided	
Door Hangers	882
Water - Cases	4,013
Filters - Faucet	3,286
Replacement Filters	737
Filter Pitchers	26
Water test kits	338
Total Resources Dispersed	**9,282**
Future sample test site	273

*City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

MDHHS Director's Situation Report
Flint Water Response
28 January 2016

State Emergency Operations Center (SEOC) Update

Data is for 1/27/16 as of 5:00 pm:

- Total homes visited.
  - 4,966 (round 3 total)
  - 1,020 (today)
- Water Cases:
  - 2,534 (round 3 total)
  - 766 (today)
- Replacement Cartridges:
  - 343 (round 3 total)
  - 173 (today)
- Faucet Filters:
  - 1,877 (round 3 total)
  - 676 (today)

Data and Surveillance

Surveillance Indicators:

People Tested for Lead 10/1/2015 to 1/22/2016: *3,351

***These numbers are only updated bi-weekly**

Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38

Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7

Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

Filter & Water Distribution:

Filters distributed GCCARD/DHHS January 1-27, 2016

- Brita Filters – 1,749
- Zero Water Pitchers – 276
- PUR Filters – 215
- Replacement Cartridges – Brita – 2,206
- Replacement Cartridges – PUR – 523
- Replacement Cartridges – Zero – 346

Bureau of Epidemiology

- Mary Grace Stobierski and Kim Signs will be participating in a call today with MDARD
  - Will discuss with partners who have expressed interest in assisting with the animal aspects of the Flint response
  - Lead toxicity in animals is reportable to MDARD

Environmental Investigations

Elevated Blood Level Environmental Investigations:

Through 01/27/2016:

- 26 families contacted
- 24 EBL investigations completed
- 21 Water sampling completed
  - 10 Homes where water filters were observed
- 13 EBL Reports Received
  - 12 homes with lead dust hazards were identified
  - 5 homes with lead in soil hazards
  - 12 homes with lead-based paint hazards
  - 9 homes with lead detected in tap water
    - 2 home with lead water levels greater than 15 ppb
- 0 investigations scheduled
- 8 applications received for the Lead Safe Homes Program
  - 2 family enrolled

MDHHS Collaborations with Genesee County Health Department for Case Management Services:

- No updates

Children's Services Agency:

- 86% of all statewide foster care placement providers documented verbal confirmations of water filters. 100% confirmation anticipated by Friday
- Genesee County MDHHS has received 150 water testing kits which are being distributed to staff for water testing
- Genesee County MDHHS has received additional water filtration systems, refill cartridges and filtered pitchers and currently has sufficient supply on hand
- MDHHS Children's Services Agency has dedicated four additional full time employees onsite in the city of Flint
- DEQ has agreed to provide water testing for all Child Caring Institutions in the City of Flint. The list of facilities was provided on 1/27/16
- Administration for Children & Families (ACF) communicated with MDHHS/CSA on 1/28/16 regarding approval of increased IVE maintenance payments (federal dollars) to support costs associated to foster homes, facilities and relative placements for water filtration systems
- Informational update call with all foster care and adoption private agency providers on 1/28/16 to provide water situation update
  - Provided instructions regarding future placement of MDHHS supervised children in the City of Flint

Behavioral Health

- A community and federal partners meeting was held on January 26 at Genesee Health System to discuss planning strategies, coordination of efforts and communication messaging. Next meeting

with the community group "Flint CRG" (Community Resilience Group) will be held Tuesday, February 2, 2016 at 11 AM at GHS

- Community needs identified in the January 26 behavioral health community:
  - Numerous undocumented children 6 yrs. or younger were identified as at risk and needing lead testing and supports
  - Many individuals from the Hispanic community have not been aware of the Flint water problem and have been drinking it since 2014, due to language and local news access barriers
  - Numerous calls from people wanting to make cash contributions should be directed to www.flintkids.org
  - A major issue identified as contributing to the anger in the community is: Why should Flint residents pay expensive water bills when they can't use the water? Flint water bills were commonly reported as about $200 per month
  - GHS is beginning to provide onsite crisis counseling directly in neighborhoods
  - GHS flyers regarding how to obtain services are being attached to the packages for water as they are distributed
  - There is an increased stress in the population related to lead testing results being difficult to understand
- On January 28, Barbara Reynolds, CDC Senior Advisor for Crisis and Emergency Risk Communication, provided risk communication technical assistance to Flint community partners that have a role in behavioral health
- SAMSHA is requesting an 8 person U.S. Public Health Service Mental Health Team to assist with current response efforts

Nutrition Planning and Projects

- Accomplishments:
  - GCHD Flint WIC site visit planned for 1-29-16 with USDA and HHS. Dr. DeSalvo and Dr. Lurie to review and get feedback from WIC Clinic staff
  - Plan to provide WIC overview, updates, and share breastfeeding efforts and data in Flint
  - Discuss what else we can do and is needed
- New WIC Facility:
  - State WIC Agency staff made a visit to and confirmed their support for the new proposed WIC expansion site at the Hurley Children's Center in downtown Flint (adjacent to the Farmer's Market) on 1-27-16
  - Local agency staff and the Children's Health Center are working to finalize an MOU. Hope to open the site as early as March 2016
  - The clinic would initially be staffed 2 days/week, with plan to increase days per week in subsequent months
- Gaps: Nutrition strategy identifying short, medium, and long term goals for City of Flint. Interdepartmental committee with representatives from MDARD, MDE, MDHHS, and United Dairy Industry of Michigan developing white paper

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, January 27, 2016

GENERAL INFORMATION:

- At 5:00 pm today Gov. Snyder held a Robo-Townhall with Flint residents. Approximately 8,000 community members participated. During the call an unknown number were cut off. They tried to call back in using caller id, but were unable to reconnect. Several very irate residents called 2-1-1 asking for a number to reconnect. Others called demanding to "take me off the governor's robocall list". By the time 2-1-1 was able to reach state partners to determine what was occurring, the Robo-Townhall was completed. State partners are working to determine if the call was recorded and if there will be link where the public can listen to the call.
    - One caller said Gov. Snyder referred to 2-1-1 "dozens of times". Managers and staff had to stay late without notice to take the additional calls, some of which lasted 30 minutes as angry callers vented on 2-1-1 staff who repeatedly had to explain that 2-1-1 is NOT part of the governor's office or a state agency.
    - Based on the anger and confusion expressed by callers, I asked one of the PIO working at the SEOC to connect 2-1-1 to the governor's office to address how the state will refer to 2-1-1 and distinguish it as a service independent of state government. The PIO made the introduction and I was immediately contacted by the governor's Director of Communications who expressed a willingness to meet and ensure we have a system in place to coordinate information sharing between 2-1-1 and the governor's office so we can focus on the needs of Flint residents.

CALL VOLUME:

As noted above, there was an unexpected surge in call volume between 5:00 pm – 6:30 pm due to the Governor's Robo-Townhall. Otheriwise daytime call volume is slowly dropping as the seasonal increase for tax prep assistance stabilizes after the initial high demand.

SPECIAL NEEDS/REQUESTS

- **FOLLOW UP:** As noted in past updates, Michigan 2-1-1 been advised by DHHS to refer callers with concerns their children developing rashes from bathing to contact their primary care provider. With 2-1-1 as a partner with Michigan Association of United Ways on the "Children's Health Access Program" (MI-CHAP), MAUW contacted the Genesee County CHAP team to confirm they had the capacity to assist families that do not have a primary care provider. Moving forward 2-1-1 will tell callers *"If you don't have a primary care provider for your child, please contact the Genesee Children's Healthcare Access Program at 1-810-953-CHAP (1-810- 953-2427) for assistance in finding one".*

RUMOR CONTROL

☑ **Yesterday's report at on** www.Snopes.com titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?"*** (http://www.snopes.com/flint-water-crisis-cps/) has been thoroughly documented, debunked and is labeled **"FALSE".** MDHHS staff responded quickly and followed up with Snopes and provided a statement from Children's Services Agency Executive Director Steve Yager that,

> "MDHHS has not assigned a single Children's Protective Services complaint due to any issues related to Flint water. MDHHS works proactively to assist families whose water is shut off and to ensure families have water filters and bottled water in Flint. When a family is without water, our goal is to help that family provide clean water for their children. That can be through assisting

families in applying for State Emergency Relief, setting up plans for children to access safe water at a relative's home or providing bottled water. **We do not petition the court to remove a child solely for the lack of water in a family's home."**

☑ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**

  ☑ **UPDATE:** DHHS Communications staff are monitoring social media and responding to social media inquiries and leads as they are identified.

☑ Today a City of Flint resident called 2-1-1 reporting a social media post that said "Sparkletts 33.8oz contains lead". The 2-1-1 agent shared the information from the MDEQ statement that all sources of bottled water have been tested and MDEQ has confirmed they are all have undetectable levels of lead and copper.

UNRESOLVED

☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation request an extension of the state of emergency, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, due to the continuing need for resources to address the situation, to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby request the legislature extend the a state of emergency proclaimed on January 5, 2016 and expiring on February 2, 2016 for another 60 days in the County of Genesee and the City of Flint;; and

WHEREAS, Section 1 of Article V of the Michigan Constitution of 1963 vests the executive power of the state of Michigan in the Governor; and

WHEREAS, under the Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended, MCL 30.401 to 30.421, the Governor is responsible for coping with dangers to this state or the people of this state presented by a disaster or emergency or threat thereof, and may issue executive orders and proclamations, having the force and effect of law to implement the Act; and

WHEREAS, under Section 3 of the Emergency Management Act, 1976 Public Act 390, MCL 30.403, the Governor shall, by executive order or proclamation, declare a state of emergency if the Governor finds that an emergency has occurred or that the threat of an emergency exists; and

WHEREAS, on April 25, 2014 the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source, the harmful effects of untreated water struck the city's water infrastructure, causing leaching of lead into the water which caused damage to the water system and potential negative health impacts to the citizens; and

WHEREAS, the area affected includes parts of the City of Flint, within the County of Genesee; and

WHEREAS, the damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services; and

WHEREAS, from October 1, 2015 to this date, the County of Genesee, ~~and the~~ City of Flint, and the State of Michigan have taken a number of actions to cope with the situation, including but not limited to, switching back to the Detroit water system on October 16th, declaring ~~local~~ states of emergency, activating the emergency response and recovery aspects of their emergency operations plans, marshaling and distributing required resources on a city-wide level, and issuing emergency public information and bulletins; and

WHEREAS, ~~local~~ resources ~~have been insufficient~~continue to be needed to address the situation~~, and additional assistance from voluntary organizations and the state is required~~ to protect public health, safety, and property, and to lessen or avert the threat of more severe and long lasting impacts to the community;

NOW, THEREFORE, I, RICHARD D. SNYDER, Governor of the state of Michigan, pursuant to the Constitution of the state of Michigan and provisions of Act No. 390 of the Public Acts of 1976, as amended, do hereby ~~proclaim~~ request the legislature extend~~t~~ the~~hat a~~ state of emergency proclaimed on January 5, 2016 and expiring on February 2, 2016 for another 60 days ~~exists~~ in the aforementioned county and municipality~~;~~, and

FURTHER, the Emergency Management and Homeland Security Division of the Department of State Police shall coordinate and maximize all state efforts, and may call upon all state departments to utilize resources at their avail to assist in the emergency area pursuant to the Michigan Emergency Management Plan; and

FURTHER, termination of this emergency will occur at such time as the threats to public health, safety, and property caused by the emergency no longer exist and appropriate programs have been implemented to recover from the effects of this emergency, but in no case longer than February 1, 2016, unless extended as provided by Act No. 390.

Team Assignment – Target Areas

Priority – City Sections 3, 9, 11, 17, 19, 20, 23

Secondary – City Sections 2, 10, 28

Map Support

Maps and addresses will be provided daily to provide detailed information on city sections. Teams will target specific homes requiring follow up.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Recovery Branch – 1/27/16 as of 5:00 pm

- Attended Local Brief, SEOC State Agency Briefing Meeting, Distribution Process Meeting, and Long-term Recovery Efforts Meeting
- Coordinated data entry for ARC paper tracking forms
- Coordinated with the SEOC GIS team to identify areas to develop and provide maps that the Red Cross Teams are working on today
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as follow up required
- Worked with GIS to acquire addresses for water response teams
- Coordinated daily are assignment for water response teams
- Compiled a list of targets for apartment complexes. Once plan is in place, coordinating a team to go to each complex and verify all tenants have been given or have a water filter. Once complete – GIS will manually mark entire parcel as complete.
- Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes our data shows don't currently have filters
- Continued demobilization of trucks and vans
- **City Sections Visited Today:** 6, 26, 27, 28, 29, 31
- ***City Sections Scheduled Tomorrow****: 3, 9, 11, 17, 19, 20, 23

Water Response Teams	TOTALS
Occupied Homes	4,390
Vacant Homes	147
Unknown	429
Total Homes Visited	**4,966**
Resources Provided	
Door Hangers	821
Water - Cases	2,534
Filters - Faucet	1,877
Replacement Filters	343
Filter Pitchers	22
Water test kits	153
Total Resources Dispersed	**5,750**
Future sample test site	216

*City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

MDHHS Director's Situation Report
Flint Water Response
27 January 2016

State Emergency Operations Center (SEOC) Update

Data is for 1/26/16 as of 5:00 pm:

- *Total homes visited:*
  - 3,946 (round 3 total)
  - 1,350 (today)
- *Water Cases:*
  - 1,768 (round 3 total)
  - 727 (today)
- *Replacement cartridges:*
  - 170 (round 3 total)
  - 170 (today)
- Faucet filters:
  - 1,201 (round 3 total)
  - 677 (today)

Data and Surveillance

Surveillance Indicators:

People Tested for Lead 10/1/2015 to 1/22/2016: *3,351

***These numbers are only updated bi-weekly**

Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38

Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7

Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

Filter & Water Distribution:

Filters distributed GCCARD/DHHS January 1-26, 2016

- Brita Filters – 1,738
- Zero Water Pitchers – 240
- PUR Filters – 203
- Replacement Cartridges – Brita 2,190
- Replacement Cartridges – PUR 511
- Replacement Cartridges – Zero 291

Bureau of Epidemiology

For 1/26/16 – 1/27/16:

- Met with CDC subject matter experts to delineate technical assistance needs, including statistician, lead epidemiologist, and a GIS specialist to enhance response

- Submitted draft Flint Blood Test Report through Jan. 22, 2016 to HHS Communications
- Submitted first Daily Blood Count Report to HHS management.
- Submitted draft responses to Governor's Task Force letter.
- Held meeting/conference call with EPA, CDC, GCHD to discuss response to high lead water test results at individual homes or other locations

Toxicology:

- Participating in MDHHS / CDC planning for response to callers with rashes

Bureau of Laboratories:

- MDEQ has asked BOL to help with water testing as their surge capacity
- Testing protocols, training, competencies and proficiency testing issues are being addressed
- Kent Co HD and Saginaw Co HD laboratories have offered to help with water testing and DEQ has been notified of offer

Health Education

- Barbara Reynolds, Senior Advisor for Crisis and Risk Communication, CDC, will be in Flint on 1/28/2016 to discuss the current situation and help develop appropriate risk communication strategies.
- Meeting information is as follows:
  - WHAT: TA on Risk Communication
  - WHEN: Thursday, January 28, 2016 9:00-11:00 AM
  - WHERE: Genesee Health System, 420 West Fifth Avenue, Flint, Michigan, Third Floor Conference Room
  - If possible, please RSVP to Lisa Hutchins; lhutchins@genhs.org

Environmental Investigations

Elevated Blood Level Environmental Investigations:

Through 01/27/2016:

- 26 families contacted
- 22 EBL investigations completed
- 20 Water sampling completed
  - 10 Homes where water filters were observed
- 11 EBL Reports Received
  - 12 homes with lead dust hazards were identified
  - 5 homes with lead in soil hazards
  - 12 homes with lead-based paint hazards
  - 9 homes with lead detected in tap water
    - 2 home with lead water levels greater than 15 ppb
- 3 investigations scheduled

- 6 applications received for the Lead Safe Homes Program
  - 1 family enrolled

MDHHS Collaborations with Genesee County Health Department for Case Management Services:

(Through 1/26/2016):

- Case management report:
  - 191 of 192 (0-5 year olds) and 12 of 12 (6-17 year olds) were contacted
    - 142 (0-5 year olds) and 7 (6-17 year olds) offered case management
  - Case management services provided to 27 (0-5 year olds) and 4 (6-17 year olds) Flint children
    - 9 (0-5 year olds) and 1 (6-17 year olds) billed to Medicaid
  - 40 (0-5 year olds) and 2 (6-17 year olds) with 'Other' disposition, which includes moved out of county or out of state, or had follow-up test that shows lead level <5
    - Of the 8 children who have moved to another Michigan county, 5 are receiving case management and 3 cases are pending (trying to locate)
    - For the 2 children that moved out of state, we do not currently have a new address for them
  - Case management gaps: 1 nurse now on medical leave, with 2.5 FTE actively working on case management

Children's Services Agency:

- Dr. DeSalvo and Dr. Lurie will be visiting a WIC clinic in Flint on Friday 1/29/2016
- Current Actions:
  - Statewide- 81% documented verbal confirmations of water filters for all current placement providers
  - Contact has been made with each Business Service Center (BSC)/County regarding any verbal verifications not yet received. It is anticipated that we will receive 100% confirmation by Friday
  - The Genesee County Child Welfare Director is working closely with our cash district to assure we continue to have sufficient supply of water filters and replacement cartridges
- Identified Gaps:
  - The Genesee County Child Welfare Director has been informed that GCCARD has water test kits available and MDHHS will receive 150 kits today
  - DEQ water testing for all licensed child care providers needed. Collaboration with DEQ is in process.
- Testing Results: (water, environmental & blood lead)
  - CCI testing: Whaley reported that they have been testing their water monthly since 11/15 and elevated lead levels were not found
  - Water testing will begin upon receipt of water testing kits

- Interagency Coordination/Communication
  - Ongoing coordination with SEOC
  - Coordination with private agency providers (foster care and residential) to verify safe water for every child in care. In process of scheduling an informational call this week
  - Informational conference call conducted on 1/26/15 with BSC directors and the urban county directors
  - Memo sent on 1/26/16 to all County Directors and private agency partners providing information regarding placement changes and removals

Behavioral Health

- SAMHSA, through Dr. Coady, has arranged for some technical assistance on our communication regarding the Flint Water Crisis
- A behavioral health community partners meeting was held at Genesee Health System (GHS) to provide mental and behavioral health agencies and stakeholders the opportunity to identify resources that can leverage behavioral health services, and determine strategies to develop a short, intermediate, and long-term recovery plans, sixteen participants from a variety of disciplines ranging from faith-based organizations to community health were in attendance

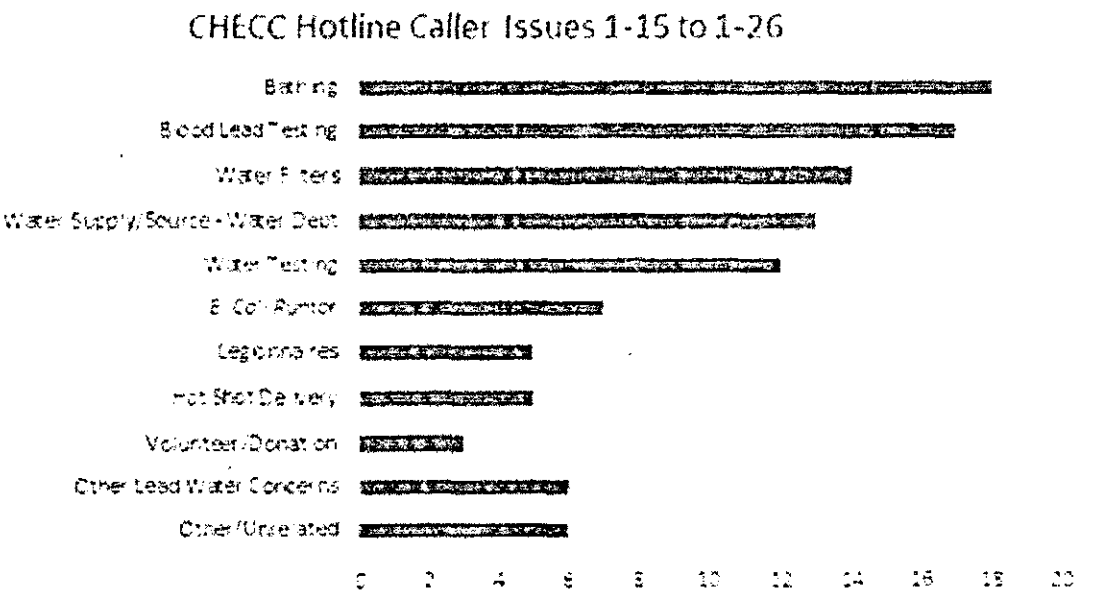
Conference Call with GCHD – HHS – CHECC on January 26, 2016

- Genesee County identified gaps to meet their public health response to the Flint Water Situation. The following healthcare professional request were submitted to HHS by the Federal Health Coordinating Officer (FHCO):
  - Team Lead / Mental Health Professional (1 individual)
  - Technical Assistance with GCHD (4 individuals)
  - 1-Sanitarian
  - 1-Health Educator
  - 1-Nurse
  - 1-Behavior Health Specialist
  - Risk Communication Development Specialist (1 individual)
  - *Public Health Monitoring (Data Collection) and Outreach Messaging Support* (1 individual)
  - Nurse Case Managers (2 individuals)

CHECC Caller Hotline

- As of January 26, 2016; the CHECC hotline had received a total of ninety calls since initial activation on Friday, January 15
  - Of these calls, twenty-three had been referred to personnel assigned to the CHECC Epi Desk
  - Furthermore, the CHECC hotline received and facilitated five requests for rapid response team deployment

- Common questions/issues directed to the hotline focused largely on lead testing and bathing considerations, noted on the table below



This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, January 26, 2016

GENERAL INFORMATION:

- **Reminder: Anyone having difficulty dialing 2-1-1 can use the alternate toll-free number 844-875-9211.**
- On Wednesday, January 27 at 7pm MSNBC's Rachel Maddow will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume continues to be high, requiring extra staffing from other regional Michigan 2-1-1 partners and using managers at Central Michigan 2-1-1 to again take calls during the peak demand. Wait time today did increase around the noon hour resulting a 20-30 minute hold time for callers during that period. Callers did not express frustration or dissatisfaction with longer than average wait times.

Follow on 1/25/16 call volume: Jennie Pollak, Central Michigan 2-1-1 Manager, reported that during yesterday's peak demand there were a maximum of four (4) calls in queue for Flint Water Assistance. The major cause of high call volume over the past week is related to referrals for free tax preparation assistance.

- 2-1-1 is exploring options to address capacity issues with the SEOC and Michigan Community Service Commission, including utilizing volunteers or contracting with an out-of-state 2-1-1 provider to assist with water-related calls.

SPECIAL NEEDS/REQUESTS

- ☐ **Callers continue to have many questions about various water filter options.**
  - ☐ Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
  - ☐ There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
  - ☐ Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**
- ☐ **FOLLOW UP:** SEOC is coordinating with Michigan 2-1-1 on a standard form to use for water resource delivery requests. A MI211 vendor is converting the form into an electronic that will allow 2-1-1 agents to collect the callers' needs and delivery information, then automatically send the individual requests in real-time to the Genesee Sheriff contact responsible for managing deliveries. **The vendor notes it is possible to automate work orders directly to an e-tablet or mobile device if this would be useful for tracking. Is there SEOC/Sheriff's Dept interest in pursuing this option?**

- A handful of callers have asked 2-1-1 specifically about FEMA relocation assistance. 2-1-1 has directed them to traditional relocation services such as DHHS with the caveat that this kind of support is minimal and that no formal relocation assistance has been established at this time for Flint residents due to the water situation.
- Callers are asking about reimbursement for medical expenses, such as previous co-pays, that are related to treatment or testing. Until further notice 2-1-1 is telling callers they are responsible for their medical expenses, but we anticipate this will be an ongoing concern.

RUMOR CONTROL

- ☑ **FOLLOW UP ON 1/25/16:** 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water".
  - ☑ SEOC provided a copy of the "Lead In Water" information sheet as a reference for 2-1-1 agents and posted the document at www.michigan.gov/flintwater under the "In Your Body" link.
  - ☑ **DHHS has issued the following statement on the safety of bathing in Flint water:**
    - Parents can maintain routine bathing practices. We do recommend that bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.
    - We are aware that there have been concerns related to rashes.
    - If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
    - Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox.
    - MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
    - We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.
- ☑ **FOLLOW UP ON 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. ***Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?***
  - ☑ **RESOLUTION:** DHHS Medical Epidemiologist, Dr. McFadden, provided the following response:

    Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?

    A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

    Inhalation of aerosolized water droplets containing Legionella is one of the ways that people get legionellosis. ***In-home portable humidifiers are known to generate***

aerosolized water particles that can then be inhaled. Dirty reservoirs and filters in humidifiers can quickly breed bacteria like Legionella. Use of tap water for these devices is strongly discouraged. Most manufacturer guidelines specify that only sterile water should be used in such devices (including rinsing of humidifier containers) and they should be cleaned regularly and thoroughly to prevent bacterial growth and transmission of potentially-aerosolized organisms like legionella. If these devices are used, manufacturer guidelines should be closely followed.

- ☐ **WHO FROM STATE OF MICHIGAN IS MONITORING SNOPES.COM?** www.Snopes.com is a *popular fact-checking web site that works to identify the source of internet rumors, then verify* or dispel them. It labels stories as 'True', 'False' or 'Unproven'. There is long article posted today on Snopes at http://www.snopes.com/flint-water-crisis-cps/ titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?".*** The label on the story is **'UNPROVEN'**.
    - **SEOC is following up with SNOPES after receiving an advisory message from 2-1-1.**
    - **Strongly advise a PIO or other communications professional is tasked with monitoring this site on a daily basis to address rumors as they emerge.**
- ☐ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**
- **FOLLOW-UP ON 1/25/16:** 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been taken away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. **SUGGESTION:** 2-1-1 received a recommendation that e-tablets could have an electronic disclaimer that residents could sign when they receive their first delivery. This could also authorize regular deliveries of water-related supplies to homebound residents.
    - ☐ **Is there any discussion about establishing a regular delivery schedule for homebound residents, particularly those with a need for sterile water for medical devices like nebulizer? What issues need to be addressed to support this?**

UNRESOLVED

- ☑ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites. **RESOLUTION: SEOC has approved inclusion of this need on the standard referral form mentioned above in the Special Needs/Requests section.**
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☑ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

  RESOLUTION: See DHHS statement above in Rumor Control
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead

contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

- ☑ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles? RESOLUTION:** Youngs Environmental has provided 2-1-1 with information on several recycling drop off sites.
- ☑ **From 1/25/26:** 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders? RESOLUTION:** National Guard provided 2-1-1 a contact to report any issues. Jennie Pollak at Central Michigan 2-1-1 is the internal contact for collecting these reports, then forwarding them in a manner that protects the caller's confidentiality.
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

Recovery Branch – 1/26/16 as of 5:00 pm

- Coordinated data entry for ARC paper tracking forms
- Compiling a list of targets for apartment complexes. Once plan is in place, coordinating a team to go to each complex and verify all tenants have been given or have a water filter. Once complete – GIS will manually mark entire parcel as complete.
- Attended Local Brief, Operations Plan Meeting, and Distribution Process Meeting
- Worked with GIS to acquire addresses for Water Responses
- Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes our data shows don't currently have filters
- Continued demobilization of trucks and vans

Water Response Teams	[redacted]

**American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that i-Pads must be used in the field for data entry in order to clearly capture the homes that have filters.

MDHHS Director's Situation Report
Flint Water Response
[26 January 2016]

State Emergency Operations Center (SEOC) Update

Data is for 1/25/16 as of 5:00 PM:

- Total homes visited
  - 313 (visited after 5:00 PM on 1/24/16)
  - 2,596 (3rd round)
- Water Cases
  - 192 (delivered after 5:00 PM on 1/24/16)
  - 1,041 (3rd round)
- Replacement Cartridges
  - 55 (delivered after 5:00 PM on 1/24/16)
  - 0 (3rd round)
- Faucet Filters
  - 57 (delivered after 5:00 PM on 1/24/16)
  - 524 (3rd round)

Data and Surveillance

Surveillance Indicators:

People Tested for Lead 10/1/2015 to 1/8/2016: *2,642

***These numbers are only updated bi-monthly.**

Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 28

Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7

Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 15

- Adults ≥65 years: 218 individuals living in the seven Flint zip codes have been tested for lead since 10/1/2015 (221 tests total). Of those, 8 individuals tested had levels ≥ 5 µg/dl, and none were higher than ≥ 9 µg/dl.

Severity Indicators:

Hospitalized/Discharged: 1/1

Deaths: 0

Filter & Water Distribution:

Filters distributed GCCARD/DHHS January 1-25, 2016

- Brita Filters – 1,730
- Zero Water Pitchers – 216
- PUR Filters – 186
- Replacement Cartridges – Brita 2,173
- Replacement Cartridges – PUR 489

- Replacement Cartridges – Zero 264

Bureau of Epidemiology

For 1/25/16 – 1/26/16:

- Epi and Toxicology conducted meetings around creating a surveillance structure and plan for identification and enumeration of rash presentations that may be occurring in response to water exposure
- Discussed follow-up environmental investigations to include additional water sampling and evaluation of household plumbing concerns at residence of person(s) presenting with rash

Toxicology:

Potential Gap: Factsheets being provided by the JIC posted on the website http://www.michigan.gov/documents/deq/LeadInWaterInfoSheetV2a_511710_7.pdf?20160125100726 that include toxicology topics have not been vetted by Toxicology and Response Section. That is only a gap if they want to reference the Toxicology and Response Section as a source of information.

Bureau of Laboratories:

- Wisconsin State Lab offered MI extra capacity for clinical and environmental lead testing. Forwarded to BOL Director, he said they do not need any help at this time for clinical testing and will forward the offer to DEQ lab director for water testing.

Health Education

- Pur Water Filter Installation fact sheet completed and forwarded to the JIC as of 1/26/16. Placed order for Brita filter to do the same.

Environmental Investigations

Elevated Blood Level Environmental Investigations:

Through 01/20/2016:

- 25 families contacted
- 21 EBL investigations completed
- 19 Water sampling completed
  - 10 Homes where water filters were observed
- 12 EBL Reports Received
  - 12 homes with lead dust hazards were identified
  - 5 homes with lead in soil hazards
  - 11 homes with lead-based paint hazards
  - 8 homes with lead detected in tap water
    - 2 home with lead water levels greater than 15 ppb
- 3 investigations scheduled
- 6 applications received for the Lead Safe Homes Program
  - 1 family enrolled

- 1 home was found to have elevated lead concentrations (72 ppb) in water from a bathroom tap. The family has been advised not to use the tap for consumption or brushing teeth. An additional filter will be provided to the family and options for replacing the fixture will be explored.

MDHHS Collaborations with Genesee County Health Department for Case Management Services:

(through 1/25/2016):

- Case management report:
  - 191 of 192 (0-5 year olds) and 12 of 12 (6-17 year olds) were contacted
    - 142 (0-5 year olds) and 7 (6-17 year olds) offered case management
  - Case management services provided to 30 (0-5 year olds) and 4 (6-17 year olds) Flint children
    - 16 (0-5 year olds) and 1 (6-17 year olds) billed to Medicaid
  - 40 (0-5 year olds) and 2 (6-17 year olds) with 'Other' disposition, which includes moved out of county or out of state, or had follow-up test that shows lead level <5
    - Of the 8 children who have moved to another Michigan county, 5 are receiving case management and 3 cases are pending (trying to locate)
    - For the 2 children that moved out of state, we do not currently have a new address for them
  - Responded to 1 call referred from the CHECC on 1/25/16
  - Case management gaps: 1 nurse now on medical leave, with 2.5 FTE actively working on case management

Children's Services Agency:

- 192 of 239 (80%) documented verbal confirmations of water filters at all current placement providers
- 3 of 3 (100%) verbal and observed confirmations of water filters at the impacted Child Caring Institutions (CCIs)
- Identified gaps – water testing kits, the local office director is working with MDHHS Field Operations to obtain water testing kits
- Testing results (including water, environmental and blood lead) – currently coordinating testing with SEOC
- Interagency coordination
  - Regular communication with ACF
  - Coordination with SEOC
  - Coordination with private agency providers (foster care and residential) to verify safe water for every child in care

Local Program Conference Call Agenda

January 26, 2016

Phone Number:
PIN: ____ __ Host Code

---

1. **Welcome and Roll Call**
2. **Distribution Status as of 1/25/16**
    a. Homes visited by FWRT on 1/25, **11,144**
    b. Total number of homes visited, 37,844
    c. There are 38,144 total parcels
3. **Distributed on 1/25/16 (PODS & FWRT)**
    a. Number of cases of water **16,125** (total 164,991)
    b. Filters **4,920** (total 91,763)
    c. Filter cartridges **3,153** (total 197,775)
    d. Test kits **3,177** (total 28,763)
4. **Neighborhood canvasing campaign**
    a. 8:30am-5:00pm
        i. 10 Red (ARC) (2-4 folks) teams----Goal today 100 homes per team
5. **National Guard**

    National Guard has demobilized, still be supporting POD mission.

Next Call – Tuesday 27th – 8:30 am
Participants:
Genesee County EM
EMHSD District Coordinator

Are we making progress?

What can we do to help?

Anything else we can do?

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 25, 2016

GENERAL INFORMATION:

- ☑ Thank you to the PIOs and DHHS partners who offered to discuss the growing public perception that 2-1-1 is a state agency and how the state is promoting 2-1-1 for the response. I will work to coordinate a meeting or conference call later this week.
- There are two major public meetings this week.
    - **Tuesday, January 26 at 5pm the NAACP is holding a Public Mass Meeting** at University of Michigan-Flint, Northbank Center, 432 N. SAGINAW STREET, FLINT, MI 48502. The meeting will be hosted by Cornell William Brooks, national NAACP President & CEO.
    - **Wednesday, January 27 at 7pm MSNBC's Rachel Maddow** will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_maddd.html.
- The Flint Water Plant reported it is receiving the results of lead tests and is compiling the results from up to 100 tests per day. Processing the results is labor intensive as it requires converting the lab data into parts-per-billion, then preparing letters to residents with the results.
    - Water samples submitted for testing take up to three (3) weeks to process. The department is telling the public it is a 30 day wait for results.
    - Many samples are submitted with incomplete contact information, requiring additional research to get results back to the resident.
    - Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- There are reports that residents using the free Lifeline phones (also known as Obama phones)are having problems using the abbreviated 2-1-1 dialing code. The Michigan 2-1-1 State Office is trying to verify this. If there is a problem we will work with the Lifeline vendor to correct the issue. **Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.**

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Jennie Pollak, Central Michigan 2-1-1 Manager, was out sick today and was not able to provide a report on call volume and demand. While call numbers are not yet available, the vendor who provides the statewide call platform notified the Michigan 2-1-1 office that 85% of our incoming and outgoing lines were in use, an indicator that volume was again very high. This 85% threshold triggers close monitoring of the system by the 2-1-1 Technology Director who can turn on additional capacity if needed, ensuring that callers can still reach the 2-1-1 system. 2-1-1 continues to use the 'call-back' feature that allows caller to keep their place in the queue without holding on the line, then be contacted by the first available agent.

SPECIAL NEEDS/REQUESTS

- See above request for a contact to get sample bottles for residents to submit water for testing.
- SEOC is developing a standard form for 2-1-1 to use for water resource delivery requests. Once the format is standardized, Michigan 2-1-1 will work with one of our vendors to convert the this into an electronic form that will allow 2-1-1 agents to collect the callers needs and delivery information, then automatically send the individual requests in real-time to the contact responsible for managing deliveries.
- 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders?**
-
- 2-1-1 has received several questions from responders asking how we handle non-English speakers, as well as deaf/hard of hearing individuals.
    - There are a few 2-1-1 agents in the state system who are fluent in Spanish and Arabic. When these staff are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
    - 2-1-1 handles requests from deaf and hard of hearing individuals in several ways.
        - TDD/TTY is available at every center, but very few calls come in this way
        - 7-1-1 teleinterpreter is regularly used by callers to reach 2-1-1
        - Email is widely used as it allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent
        - Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time

RUMOR CONTROL

- 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water". 2-1-1 contacted SEOC about how to respond and was informed the "Lead In Water" document circulated internally is the prime reference. . 2-1-1 agents have this document, but it does not appear to be available on the state's web site. **Can the SEOC provide a link where we can refer callers to read the document, or give Michigan 2-1-1 permission to post it at MI211.org?**
    - Hearing different messages from different state officials is causing concern and confusion for the public. **Can PIOs provide any guidance as to how 2-1-1 should handle questions from callers about the reliability of information from these officials?**
- 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been taken away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. **Can the SEOC verify if this is**

correct? If so, who is working on a HIPPA-compliant process for tracking information on the needs of homebound residents and when is it expected to be available?

•

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites. **Possible Resolution: SEOC is considering inclusion of this need on the standard referral form mentioned above in the Special Needs/Requests section.**
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
- ☐ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

Recovery Branch – 1/25/16 as of 5:00 pm

- Updated Flint Water Response Team Plan for tomorrow
- *Updated ICS 204 forms (Obj. 1 and Obj. 6)*
- Continued demobilization of trucks and vans
- Attended Local Brief, Tactics Meeting, Operations Plan Meeting, and Distribution Process Meeting
- Worked with GIS to acquire addresses for Water Responses
- Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes our data shows don't currently have filters

LEOC	Genesee County Administration Building 1101 Beach St, Flint	0830-1600

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Map Support

Maps will be provided daily to provide detailed information on city sections. Teams will target specific homes not originally reached during the first two rounds of canvassing.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail.

Recovery Branch – 1/25/16 as of 5:00 pm

- Updated Flint Water Response Team Plan for tomorrow
- Updated ICS 204 forms (Obj. 1 and Obj. 6)
- Continued demobilization of trucks and vans
- Attended Local Brief, Tactics Meeting, Operations Plan Meeting, and Distribution Process *Meeting*
- Worked with GIS to acquire addresses for Water Responses

Water test kits	6,735
Total Resources Dispersed	**58,852**
Future sample test site	3,702

*Not all of the American Red Cross teams for today used iPads so the above numbers do not reflect the paper data.

ESTIMATED DISASTER ECONOMIC INJURY WORKSHEET FOR BUSINESSES

Accurate responses to the questions below will assist in evaluating a request for an economic injury disaster declaration from the U.S. Small Business Administration.

1. Name of Property Owner: _____

   Name of Property Owner: _____

   Business/Property Address: _____

   Mailing Address: _____

   Telephone Numbers: Business:_____Home: _____

2. **Estimated Adverse Economic Impact**

   Did the disaster economically impact your business? If so, when did the impact start and end?

   _____ (month/year) to _____ (month/year)

   What were your business' revenues during that period? $_____

   What were your business' revenues during the same period of the prior year? $_____

3. Amount of business interruption insurance received or anticipated, if any: $_____

4. Provide a brief explanation of what adverse economic effects the disaster had on your business:

   _____

   _____

   _____

   _____

5. How many people did you employ **prior** to the disaster? _____

   How many people did you employ **after** the disaster? _____

If your business also suffered property damage, answer the following questions:

6. Estimated dollar loss to:

   Real property (building), if owned: $_____

   Contents (machinery and equipment, furniture and fixtures, inventory, leasehold improvements, etc): $_____

7. Insurance recovery received or anticipated for **property** damages: $_____

_____ _____

Signature of Business Owner/Representative Date

Instructions for Completing the "Estimated Disaster Economic Injury Worksheet for Business"

Item 1

Line 1

Enter the property owner's name. If different than the business name, also enter the business name.

Line 2

If more than one owner, enter the co-owner's name or names

Line 3

Enter the street address of the business location.

Line 4

Enter the mailing address of the business

Line 5

Enter the telephone numbers of the business and owner's home.

Item 2

Line 3

Enter the date that the economic impact to your business due to the disaster started or is estimated to start. Economic impact can be defined as a decrease in revenues from normal levels resulting in decreased gross profit. Then enter the date that revenues and gross profits returned to normal levels. This date may be in the future and will require an estimate.

Line 4

Enter the business' revenues between the two dates you showed

Line 4

Enter the business' revenues between the same two dates of the previous year.

Item 3

Line 1

If you have business interruption insurance to cover losses due to the disaster, enter the amount received or anticipated. Enter zero if none.

Item 4

Line 1

Enter a brief narrative explaining how the disaster affected your business' revenues and operations

---

Item 5

Line 1

Enter the number of employees, including management and part-time employees, of the business prior to the date of the disaster.

Line 2

Enter the number of employees, including management and part-time employees, of the business after the end of the disaster. This may require an estimate.

Item 6

Line 2

Enter the estimated loss, in dollars, to the building occupied by the business, if owned by the business or an owner of the business..

Line 3

Enter the estimated loss, in dollars, to the contents of the business' building.

Item 7

Line 1

Enter the insurance recovery received or expected for disaster damage to the building and/or contents.

Signature and Date

Provide the signature of the business' owner or representative and enter the date the form was prepared.

This is the daily 2-1-1 summary on the Flint Water Response for Friday, January 22, 2016

GENERAL INFORMATION:

- Based on State of Michigan references to "Call 211" in print and online media sources, many callers to the service think 2-1-1 is a state agency. This leads some to ask questions about potential bias in the information 2-1-1 is providing about the Flint water situation. The public understanding of 2-1-1 as an independent and impartial service is essential to maintaining our position as a trusted source of information with both the community at-large and state partners. **Michigan 2-1-1 would like to set up a call or meeting with the appropriate state representatives and some key stakeholders to standardize how the state publicizes the 2-1-1 service.**
- Central Michigan 2-1-1 has created a Drop Box folder for 2-1-1 agents taking Flint Water calls. It holds a four page master document that ensures updates and new information are immediately available to all 2-1-1 staff. It includes sections on Background Information (including President Obama's Emergency Declaration), Rumor Control, Health & Water Quality/Safety Concerns, the Taxonomy Terms 2-1-1 is using to provide referrals and track needs, a general Q&A section, and links to Printed Materials and online resources such www.helpforflint.com along with various flyers and statements on the response from State of Michigan.
    - If you have information or materials to include on the master document, please email them to jennifer.pollak@lifewayscmh.org, melissa.ladd-patnode@lifewayscmh.org, and tpage@uwmich.org.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume continues to be higher than average, but is dropping from the Wednesday peak. Average wait time was down significantly to under 15 minutes during peak volume

- There was a brief period today when the queue for Flint water calls reached 20 callers. Central Michigan 2-1-1 contacted other regional 2-1-1 partners for assistance and was able to reduce the queue and wait time for Flint caller back down to approximately two minutes.

SPECIAL NEEDS/REQUESTS

- The lifting of the requirement to provide identification is making it easier for undocumented residents and residents without ID to access water resources. 2-1-1 working to verify whether the Hispanic Center will continue to provide access assistance for the residents.
- 2-1-1 continues to receive several calls a day from churches, nursing homes and business owners asking about filters for their establishments. They are being referred to the Chamber of Commerce to share the impact on their organizations.

RUMOR CONTROL

- No new rumors to report.

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource to pick up test kits from homebound/senior residents who cannot drop off test kits at designated sites.

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
- ☐ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

Phone Number:
PIN: Host Code

---

1. **Welcome and Roll Call**
2. **Distribution Status as of 1/19/16**
    a. Update of homes visited by FWRT 4,943 (total-27,072)
        i. Added were the ARC numbers after 5pm.
3. **Distributed on 1/19/16 (PODS & FWRT)**
    a. Number of cases of water **10,767** (total 37,313)
    b. Filters **3,128** (total 53,713)
    c. Filter cartridges **935** (total 169,520)
    d. Test kits **2,626** (total 7,379)
4. **Neighborhood canvasing campaign**
    a. 8:30am -5:00pm /Going to every home again .
        i. 7-9 Blue/black/green teams (6-9 folks) type 3 teams---Goal today 300 homes per team
        ii. 10 Red (ARC) (2-4 folks) type 5 teams----Goal today 100 homes per team
5. **National Guard**
    a. National Guard is bringing in 75 additional troops today (105 will report tomorrow) to help with the FWRT.

Next Call – Tuesday 20th – 8:30 am

Participants:
Genesee County EM
EMHSD District Coordinator

Are we making progress?
What can we do to help?
Anything else we can do?

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC planning has been given G-11 on the 800 MHz radio has the event channel that they can communicate with local EOC on ground truth inventory.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber attack yesterday.
- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

        1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

        2. Distributed:
            a. Number of cases of water 27,195
            b. Filters 50,432
            c. Filter cartridges 168,605
            d. Test kits 4,861

        3. Total number of customers on the Flint water system
            a. 29,944 paying customers
            b. 45,000 hookups (This is our high end target #)
            c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

City owns waste disposal. They plan to add larger dumpster with servicing twice a week. No city official in County EOC to action today.

Sir. Just talked to 2LT Benke and he confirmed all Stations understand the drop off and collection procedures for water samples. He again emphasized the need for trash pickup and additional dumpsters.

Team,

The Water Resource Team Concept is enclosed. The Distribution branch is heading out to Flint today to get a better feel for the process but anticipate a more deliberate discussion on the by tomorrow morning.

Of special interest is the team type and levels of support. The most robust team, a type 1, has been hitting above 800 home during daylight hours thus far. These numbers do not include a Law Enforcement escort.

Subject: Volunteer Opportunity in Flint

Follow Up Flag: Follow up
Flag Status: Flagged

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Water Resource Team: Concept of Operations and Support

Goal: Increase the number of households served per day by the Water Resource Teams through scalable resource optimization

How: Standardize and Support

1. Standardize the team composition and resource requirements
2. Provide end to end support to the Water Resource Teams

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (Vehicles, Members) Product
        ii. Priority: Wards/Precincts
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Lunch
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: MSP
    c. Responsible: MSP Water Resource Commander, American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: MSP Water Resource Commander
    c. Responsible: All Water Resource Teams

Team Typing

	Mission # of Households (HH)	Truck	Truck Driver	Team Members	Chase Vehicle (s)	Chase Driver (s)
Type I	500 HH	1 - 24'	1	10-20	1+	1+
Type II	400 HH	1 - 18'	1	8-16	1+	1+
Type III	300 HH	1 16' ft	1	6-9	1+	1+
Type IV	200 HH	1 14' ft	1	4-8	1+	1+
Type V	100 HH	1 ERV	1	2-4	1+	1+

Distribution Kit per Household

Door Hanger	1
Water, case	1
Filter*	1
Test Kit	1
Replacement Filters	1

*If filter doesn't fit then distribute

Pitcher*	1

Water Resource Team Plan for Saturday, 01.16.16_V2.0_FINAL

Water Resource Team Commander	Lt. Paul Pummil	
Red Cross OIC	Robert Gaskill-Clemons	
Warehouse	Shawn Scott-Fitzgerald	

Plan

Agency	Team Types	Mission	Wards

Volunteers	60-90	70		01.15.16	2330
Chase Vehicle for 6-9 people	10	10		01.15.16	2330
Chase Vehicle Drivers (volunteers)	10	10		01.15.16	2330
iPads (2 per team)	20	20		01.15.16	2330
Product Each	3000	X		01.15.16	2330

Team Type & Quantity	Type: Type V Quantity: 10				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
ERV	10	10		01.15.16	2330
Truck Drivers	10	10		01.15.16	2330
Volunteers	20-40	40		01.15.16	2330
Chase Vehicle for 2-4 people	10	10		01.15.16	2330
Chase Vehicle Drivers (volunteers)	10	10		01.15.16	2330
iPads (2 per team)	20	20		01.15.16	2330
Product Each	1000	X		01.15.16	2330

Execution:

Team	Assembly Area	Hours of Operation	
MSP	LEOC 1101 Beach St, Flint	0900-1700	
ARC	ARC *1401 S Grand Traverse St, Flint*	0730-Dusk	
Warehouse	4315 North Clio Road, Flint	0700-1900	

Critical Task: Assemble, coordinate, and monitor Water Resource Teams (WRT)
Tactics:

1. Assign team leaders, team members, and routes to teams
2. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings
3. Issue boxed lunch if available
4. Issue vest and badge to team members
5. Provide training to new team members
6. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

MSP WRTs will be issued lunch prior to team departure if available. If not, WRTs will return to LEOC to receive lunch

Reporting:

Tactics:

1. All WRTs will utilize ipads as primary reporting method and paper tracking as seconday method if ipads fail

Target Area Prioritization Map

Solution Description 4
Solution Analysis 4

1. OVERVIEW

PROBLEM STATEMENT

A new requirement has been presented by command to ensure all data can be connected to local parcel layers in real time to facilitate daily analysis of field team activities and refining efforts to target down to show statuses on a home by home level. When we presented this requirement to our mapping vendor (ESRI) they expressed serious concerns about trying to accomplish this given our current GIS infrastructure. After meeting with their technical experts they advised that in order to provide real time parcel updates the state would need to deploy additional software and hardware to accommodate.

BACKGROUND

To date we have been leveraging a single vendor (ESRI) to support GIS for the Flint Water Emergency. The tools that are currently being used include:

- ArcGIS Online: Used to build apps for the field teams and stream data in real time to web-based viewers and dashboards.
- ArcGIS Desktop/ArcGIS Pro: Used to manage data as it comes in and build printed maps in support of SEOC operations.

When the incident began we reached out to ESRI for additional support and have been assigned consultants to help us ensure we are getting the most out of our tools. Additionally, they have been temporarily expanding our licensing for the above tools to accommodate our surge in usage during this emergency. To date, the tools have been performing as expected and have been able to support field operations very effectively.

OVERALL RECOMMENDATION

ESRI is recommending that we migrate our data from the current "ArcGIS Online" based infrastructure into a toolset called "ArcGIS Portal". These two tools are functionally identical to the end users, however, "ArcGIS Online" is hosted directly by ESRI in their cloud, while "ArcGIS Portal" would be hosted from dedicated servers. Making this shift allows the GIS team to get enhanced access to the data as it is stored on site. The biggest improvement is the ability to directly manipulate the databases being used to host maps and put in specialized triggers and controls that are needed to translate the field data into a parcel polygon.

2. BACKGROUND

FACTS/ASSUMPTIONS

The vendor has stated they would handle the setup and configuration of this for free within the Amazon Cloud and would allow us to use this service for 3 months for free. After this 3 month period ends, they advised that they will migrate any data from the incident to our local servers and decommission the Amazon Cloud services. Not knowing how long the GIS services will be needed, there is a risk that the long term sustainment of this capability will lead to incurred costs.

Additionally, these tools would bring a great capability enhancement to the SEOC in future incidents. As such, it is advised that we consider coordinating having the software installed directly on state servers. However, to accomplish this, DTMB would need to provide multiple virtual servers that ESRI could directly log in to for initial installation and configuration of the software. Typically, setting up virtual servers requires a lengthy approval and design process that often lasts months to years. In order to bring such a tool to bear on local infrastructure exceptions would need to be made to push the standing up of these virtual servers as a priority project for DTMB.

Additionally, ESRI advised that in order to ensure the GIS staff can do the complex database work they would also like to have a consultant within the SEOC to train and advise staff on best practices. This consultant involves an additional cost, which a quote would need to be provided for.

3. COURSE OF ACTION (COA) ANALYSIS

COA 1: CONTINUE USING ARCGIS ONLINE

SOLUTION DESCRIPTION

This COA assumes no change to our current infrastructure. Following this COA implies that the time delays of processing field team data to parcels will be delayed and staff hours will be focused on accomplishing this task.

SOLUTION ANALYSIS

No change from current strategy. This strategy incurs no cost. Time delays anticipated as staff time is needed to process data.

COA 2: REQUEST ESRI STAND UP ARCGIS PORTAL ON THE AMAZON CLOUD

SOLUTION DESCRIPTION

This COA facilitates the upgrade of GIS infrastructure for this incident for 3 months. It operates under the assumption that infrastructure established will not be needed after this incident in future SEOC activations.

SOLUTION ANALYSIS

This solution facilitates increased data analysis capabilities. However, it may incur cost in the long term as the infrastructure needed would need to be migrated from the Amazon Cloud for long term storage.

COA 3: REQUEST ESRI STAND UP ARCGIS PORTAL ON STATE OF MICHIGAN SERVERS

SOLUTION DESCRIPTION

This COA facilitates the upgrade of GIS infrastructure that can be used for the foreseeable future. It operates under the assumption that DTMB could hastily deploy virtual servers in accordance with ESRI specifications for this software. It also operates under the assumption the ESRI would be granted administrative access to these servers to perform initial installations and software configurations.

SOLUTION ANALYSIS

This solution facilitates increased data analysis capabilities. However, it may incur cost in the long term as the infrastructure would need to be maintained after installation. In contrast to COA 2, the data would not need to be migrated after 3 months and could be used in the long-term support of the Flint Water Emergency. Additionally, it can be used for any other incident within the state requiring complex GIS support.

SOLUTION ANALYSIS

Of the 3 established courses of action, COA 1 is the cheapest, but does not meet the desired intent of live parcel level updates. COA 2 is also low cost and relatively easy to accomplish, but does not support long-term operations. COA 3 is the most costly and complex, but establishes a solution for GIS within the SEOC that can support emergencies and disasters long-term.

4. CONCLUSSIONS

Knowing that this incident has long term data needs and that the tools used during this incident have been extremely successful, it is recommended that COA 3 be pursued to ensure a stable long term infrastructure exists to support operations into the foreseeable future. However, as part of following this course of action, it is recommended that DTMB facilitate this installation by directly coordinating with GIS technicians. Additionally, if COA 3 is followed it is strongly recommended that a consultant be brought on site to address any technical issues that may arise directly with DTMB and MSP GIS practioners.

Situation Report

January 23, 2016

The Joint Information Center (JIC) is operating from the State Emergency Operations Center on Saturday, January 23 and Sunday, January 24.

Tasks accomplished:

- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- Working on redesigning the Flint water website.
- Added the Governor's appeal news release to the website.
- Working on adding the palm card and foreign language palm cards to the website.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- JIC is planning on issuing the nightly activity news release.

Operations

- Identifying all vulnerable populations to help streamline Hot Shot process
- Working on plan for church water distribution and pod locations
- Looking for other areas for pods
- Fielding multiple calls from celebrities, donations, volunteers

Uniform Ground Teams

-

Safety

- Working on tracking incidents at warehouse and car accident at GCEOC

City of Flint Liaison

- Coordinated water donations and delivery areas
- Completed lighting @ Station 3
- Coordinated water pickup for city employees
- Working on lighting at other stations
- *Testing*

DHHS - MCSC

- Last minute large donations of water and volunteers expected during weekend; placement locations needed
- Hill 23 Drive full; reroute deliveries to Clio Road Warehouse
- Putting summary of deliveries together

American Red Cross

- 900 Volunteers expected Saturday
- Request Salvation Army Canteen Teams be deployed to areas of volunteers, NG, and MSP; Salvation Army contacted and will participate.
- *Finalized lodging for Team Rubicon*

Genesee County Health Department

- Concern water at jail. Working on solution.
- Need good and effective public health message
- Materials translated into different languages (Arabic, Spanish, Mandarin, Russian)
- Local and State Health Depts fielding calls @ water quality
- *Calls coming in from water well residents concerned about lead*

Logistics

- Hot Shot Requests *URGENT*
- IPad troubleshooting
- Recycling

National Guard

- Coordinated traffic and completed traffic signs
- Collected Red Cross volunteer requests from pods
- Continued Operations
- Implemented teams with less members but backed with IPad users
- 12,790

Below is a list of core maps we regularly create and provide to planners. Note - All data that is used in the maps is migrated to the cloud using ArcGIS Online for use by all participating agencies (primarily FEMA, Flint, and Genesee County)

- Daily Field Team Planning Maps with by zone handouts for individual team assignments broken out using Township and Range Survey
- Live dashboards hosted from cloud to show real time statuses for field team activity and POD distributions that track locations of homes that received Water, Filters, Replacement filters, Filter Pitchers, and Water Test Kits. Tool also used to survey residents on other critical questions pertinent to operations
- Vulnerable populations map containing medical equipment dependent residents, elderly facilities, and other individual identified by the Valley Agency on Aging
- Food and Water Facilities maps as maintained in conjunction with MDARD
- MDEQ Water Test Results Map (Updated through 1/20/2016)
- Basic orientation maps containing Flint Precincts, Flint Wards, Flint Parcels, etc.
- Core Flint Water infrastructure maps and flow diagrams for water mains and pumping (service line maps under construction in coordination with FEMA and U of M Flint, approximately 50% complete)
- Daily team progress maps for public as distributed through the JIC
- Maintain maps of operational data such as PODS and other key emergency response locations
- Mapped all pre-incident filter distributions

We also have a vast library of hundreds of various features that we can use to produce both web-based and paper maps upon request for all agencies in support of this incident. However, for accuracy we typically request updated tables from state agencies to ensure all map requests have the latest content.

Sample Script for Team Members:
We're here to make sure you have all the resources you need. The questions we are going to ask will help us assess the resources you have on hand. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

For the individual capturing data, please ensure to add an answer for every question asked.

1. Address
2. City
3. State
4. Zip
5. Type of Home (Single family, Multi-Family, Apartment.)
6. Door Card (indicate if provided)
7. Willing to be a water sample site?
    a. Are you willing to be a water test site?
8. Water test kits given to resident
    a. How many water test kits have you been supplied?
9. How many faucet Filters do you have?
    a. How many faucet filters do you have?
10. What type of Filters do you have?
    a. What type(s) of filter have you been provided?
11. Number of Filters given to resident
    a. How many filters were provided by the team today?
12. Type of Filters given to resident
    a. What type of filter was provided by the team today?
13. Have Filters been installed?
14. Yes or No Do you need help installing?
15. How many replacement Cartridges do you have?
    a. How many replacement cartridges do you have?
16. Type of replacement Cartridges resident has
    a. What type of replacement cartridges do you have?
17. Replacement Cartridges given to the resident
    a. How many replacement cartridges did the team provide to you today?
18. Type of replacement Cartridges given to the resident
    a. What type of replacement cartridges have you been provided?
19. How many Pitchers do you currently have?
    a. How many pitchers have do you have ?
20. Type of Pitchers resident has?
    a. What type of filter do you have?
21. Pitchers given to resident
    a. How many pitchers did the team provide you today?
22. Type of Pitchers given to resident
    a. What type of pitchers did the team provide you today?
23. Water quantity given to resident
    a. How much water was provided to you by the team today?
24. Type of Water given to resident

Team Leader Copy
Includes detailed description of each question

Sample Script for Team Members:
We're here to make sure you have all the resources you need. The questions we are going to ask will help us assess the resources you have on hand. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

For the individual capturing data, please ensure to add an answer for every question asked

1. Address
2. City
3. State
4. Zip
5. Type of Home (Single family, Multi-Family, Apartment.)
6. Door Card
    a. Was a door hanger provided today (for tracking purposes)
7. Willing to be a water sample site?
    a. Are you willing to be a water test site? (If yes, someone may come and test their water periodically. This helps us determine levels for planning and long term recovery.)
8. Water test kits given to resident
    a. How many water test kits have you been supplied (this allows us to track # supplied vs # tested at location)?
9. How many faucet Filters do you have?
    a. How many faucet filters do you have (this helps us determine the number of replacement cartridges the resident will need for future orders)?
10. What type of Filters do you have?
    a. What type(s) of filter have you been provided (this helps us determine the number and type of replacement cartridges the resident will need for future orders)?
11. Number of Filters given to resident
    a. How many filters were provided by the team today (this lets us know how many cartridges the resident will need for future orders)?
12. Type of Filters given to resident
    a. What type of filter was provided by the team today (this lets us know what type of cartridges the resident will need for future orders)?
13. Have Filters been installed?
    a. Yes or No (so we know how many are installed for tracking)
14. Do you need help installing?
    a. Do you need assistance in installing your filter (so we can get someone to assist the resident)?
15. How many replacement Cartridges do you have?

   a. How many replacement cartridges do you have (this lets us know how many cartridges the resident has so we can calculate numbers for future ordering)?
16. Type of replacement Cartridges resident has
   a. What type of replacement cartridges do you have (this lets us know what type the resident will need for future ordering)?
17. Replacement Cartridges given to the resident
   a. How many replacement cartridges did the team provide to you today (this helps us with future ordering)?
18. Type of replacement Cartridges given to the resident
   a. What type of replacement cartridges have you been provided (this helps is with future ordering)?
19. How many Pitchers do you currently have?
   a. How many pitchers have do you have (this lets us know how many replacement cartridges will be needed for future ordering)?
20. Type of Pitchers resident has?
   a. What type of filter do you have (this helps us with ordering for future replacement cartridges)?
21. Pitchers given to resident
   a. How many pitchers did the team provide you today (this helps us with determining cartridges needed for ordering)?
22. Type of Pitchers given to resident
   a. What type of pitchers did the team provide you today (this helps us with determining the type of cartridges needed for ordering)?
23. Water quantity given to resident
   a. How much water was provided to you by the team today (this helps us for tracking and ordering)?
24. Type of Water given to resident
   a. What type of water was provided to you today, were they cases of 16.9 oz bottles or gallon jugs (this assists us for ordering)?
25. Date Collected
   a. For tracking purposes

Revised FWRT Questions

1. Address
2. City
3. State
4. Zip
5. Type of Home (Single family, Multi-Family, Apartment.)
6. Door Card
    a. Was a door hanger provided today (for tracking purposes)
7. Willing to be a water sample site?
    a. Are you willing to be a water test site? (If yes, someone may come and test their water periodically. This helps us determine levels for planning and long term recovery.)
8. Water test kits given to resident
    a. How many water test kits have you been supplied (this allows us to track # supplied vs # tested at location)?
9. How many faucet Filters do you have?
    a. How many faucet filters do you have (this helps us determine the number of replacement cartridges the resident will need for future orders)?
10. What type of Filters do you have?
    a. What type(s) of filter have you been provided (this helps us determine the number and type of replacement cartridges the resident will need for future orders)?
11. Number of Filters given to resident
    a. How many filters were provided by the team today (this lets us know how many cartridges the resident will need for future orders)?
12. Type of Filters given to resident
    a. What type of filter was provided by the team today (this lets us know what type of cartridges the resident will need for future orders)?
13. Have Filters been installed?
    a. Yes or No (so we know how many are installed for tracking)
14. Do you need help installing?
    a. Do you need assistance in installing your filter (so we can get someone to assist the resident)?
15. How many replacement Cartridges do you have?
    a. How many replacement cartridges do you have (this lets us know how many cartridges the resident has so we can calculate numbers for future ordering)?
16. Type of replacement Cartridges resident has
    a. What type of replacement cartridges do you have (this lets us know what type the resident will need for future ordering)?
17. Replacement Cartridges given to the resident

   a. How many replacement cartridges did the team provide to you today (this helps us with future ordering)?
18. Type of replacement Cartridges given to the resident
   a. What type of replacement cartridges have you been provided (this helps is with future ordering)?
19. How many Pitchers do you currently have?
   a. How many pitchers have do you have (this lets us know how many replacement cartridges will be needed for future ordering)?
20. Type of Pitchers resident has?

Donations Management Plan

This plan was designed to support donations management of the Flint Recovery Effort and assist with the coordination of material and financial donations.

I. Needs Assessment of individuals

To ensure the donations are meeting the needs of Flint residents, a communication system to track the needs and make adjustments of requested donations is outlined below.

A. Identifying and Meeting Individual Needs

- 211 will provide a report to identify trends from the information they have collected – demographics of who requested assistance and what services they requested
- 211 will be listed as the number for people to call, to allow all information regarding requests for assistance or offers to help to go to one location. The system will assist people with understanding how to volunteer/donate or receive assistance for the Flint water issues.
- To manage the increase of calls and manage caller volume, 211 will partner with other communities 211 operators
- Information is being collected that identifies people who need assistance with installations and other face to face contact.
- Information will be tracked to identify needs and determine if additional donations need to be requested. 211 will provide regular updates.

II. Material and In-Kind Donations

When donation arrangements have been made, Wendy and Pam will be sent and email alert by Janet.

A. Donation List

- Materials: Water – individual bottles, gallon jugs, and larger.
- In-Kind: Labor to install filters, trucks to deliver materials
  Donors should be directed to Janet Hunter HunterJ8@michigan.gov
  Internal Phone to provide to donors not for publication: cell

B. Publicize Items to Donate

- The donation list will be sent to partners to post with their networks and post on state, county, and city sites and social media
- Donation items and drop off locations will be listed in a press release.
- Press releases will inform public of donation opportunities
- Government organizations and community partners will be asked to post on their web-sites and social media
- 211 will have all information to share with those who contact them
- Additional information requests for donating can be directed to the Michigan Community Service Commission, Janet Hunter HunterJ8@michigan.gov

B. Warehouse Location – Drop off Location for Large Donations of Water

- A warehouse location to store surplus of donations is located at: 4315 Clio Rd, Flint, MI
  Refer interested donors that have more than one semi truck of water to Janet Hunter HunterJ8@michigan.gov (Internal Phone, not for publication: cell

C. Public Drop off locations of Water

- Donations will be tracked at the sites.
- Inventory and burn rates will be tracked to identify need for donations.
- Small Water Donations: – cases and pallets 100 cases or less deliver to:
  Monday - Friday 9:00 am - 4:00 pm Catholic Charities Center for Hope 517 E. Fifth Ave
  Saturday -Sunday 9:00 am – 4:00 pm Red Cross 1401 Grand Traverse
- Large Water Donations – 100 cases or more, one Semi Truck
  Monday - Friday 8:00 am - 4:30 pm Food Bank of Eastern Michigan 2300 Lapeer Rd
  810-239-4441 If Food Bank receives donations offers of more than one semi truck or if they are full, they will refer donor to Janet Hunter to make arrangements to donate to the warehouse.

III. Cash Donations www.flintkids.org

A. Financial Donations

- United Way, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have come together to create a fund that will address both the short-term and long-term needs of Flint residents. The Community Foundation is managing all financial donations and no administrative fee is assessed Direct Donation requests to www.flintkids.org or
  phone 810-232-8121 (United Way) 810 -767-8279 (Community Foundation of Greater Flint)

News Release

DATE: January 11, 2016 **FOR IMMEDIATE RELEASE**

Media CONTACTS:
Mary Jo Herbig, Director of Communications, Community Foundation of Greater Flint
(810) 767-8439 or mherbig@cfgf.org

Jamie-Lee Venable, Director of Community Impact, United Way of Genesee County
(810) 516-9455 or jvenable@unitedwaygenesee.org

FLINT CHILD HEALTH & DEVELOPMENT FUND WILL PROVIDE SUPPORT TO FLINT CHILDREN EXPOSED TO LEAD

FLINT, MI – A group of concerned community members have created a charitable fund so that people nationwide can contribute to support both short and long term needs of Flint's children exposed to lead. The Fund, established at the Community Foundation of Greater Flint, is a supplemental resource to the ongoing pursuit of additional state and federal funding.

"If there was ever a time to invest in our children, it is now," said Dr. Mona Hanna-Attisha, Hurley Medical Center physician. "Our Flint children deserve every opportunity to be healthy and successful. The creation of this Fund will further ensure that our children are afforded the resources and interventions to overcome this population-wide exposure to lead."

The Flint Child Health & Development Fund will support the delivery of critical public health, medical, and community-based services and interventions that address and mitigate the short and long term impacts experienced by Flint, Michigan children exposed to lead as the result of the 2014-2016 Flint Water Crisis. The Flint Child Health & Development Fund will be used to aid children with interventions that support positive health outcomes for Flint children, including:

- Immediate response
- Optimal child health & development
- Early childhood education
- Continuous access to a pediatric medical home
- Access to infant and child behavioral health services
- Nutrition education
- Healthy food access
- Safe & healthy home environments
- Integrated social services
- Research

Grants from the Fund will be advised by a committee of community members with representation from residents, Hurley Children's Hospital, Mott Children's Health Center, Greater Flint Health Coalition, United Way of Genesee County, and the Community Foundation of Greater Flint.

"The Fund, and its Advisory Committee structure, ensures that donations will be used in the most effective way to help Flint children," said James Gaskin, Chief Executive Officer of United Way of Genesee County. "We extend our deep appreciation to all the donors who have responded generously to this emergency."

The Community Foundation is extremely grateful to the United Way of Genesee County and their CEO, Jamie Gaskin, for the dedication of staff, time and resources in the day to day coordination of the immediate response to this ongoing crisis, said Kathi Horton, President, Community Foundation of Greater Flint. "Together, the Community Foundation and United Way will be working with the fund advisory committee to ensure that the needs of Flint's children are addressed."
Give online to the Flint Child Health & Development Fund at www.flintkids.com.

Data Entry Application

Outline

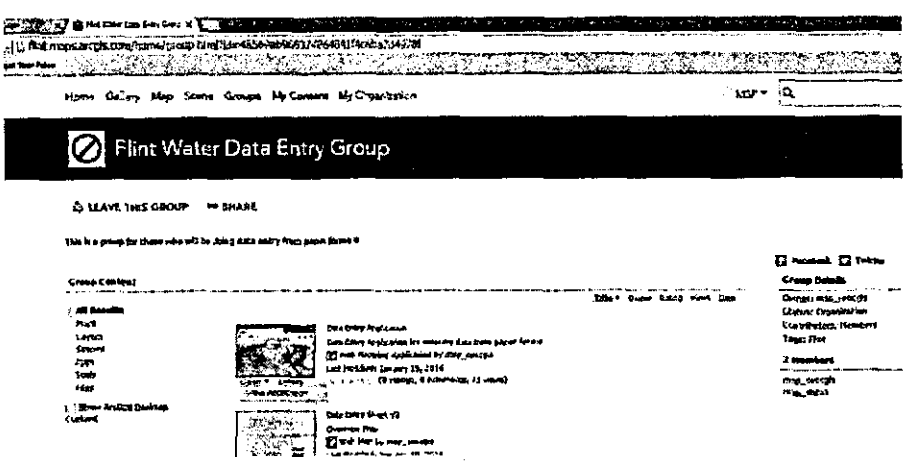
1. Login
2. Search for address
3. Add a point
4. Edit or delete if corrections are needed.

Login

Login to https://flint.maps.arcgis.com

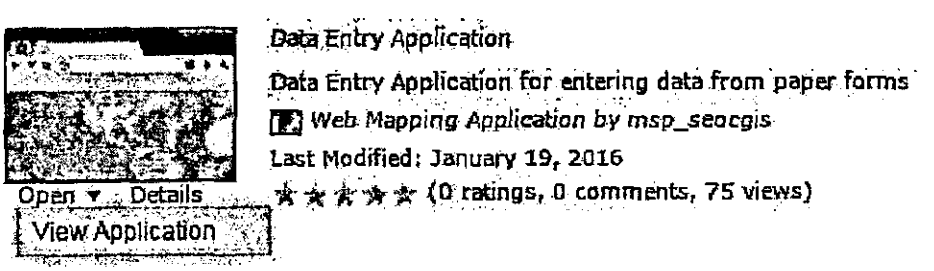
- Username: As assigned,
- Password
- Note the password ends in a zero

Go to Groups > Flint Water Data Entry Group



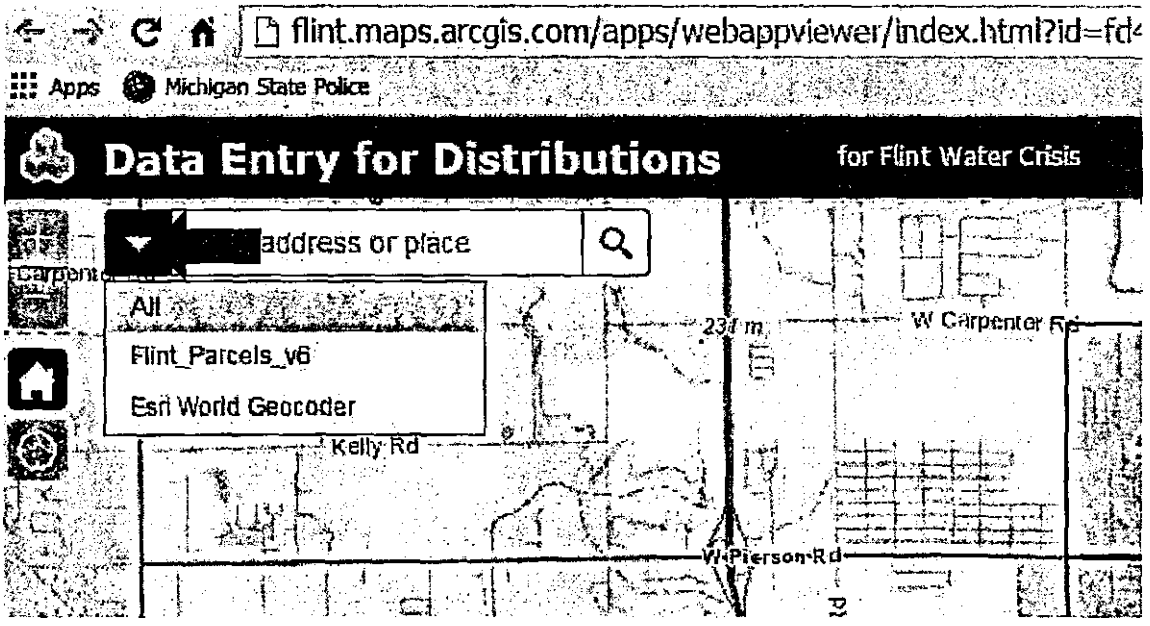
Look for the Data Entry Application.

Click "Open" then choose "View Application"



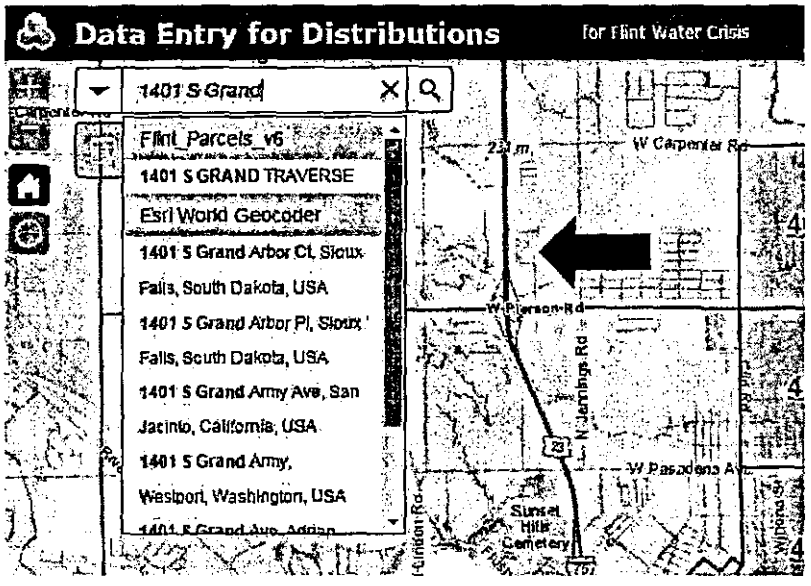
Search For Address

You can choose to use Flint Parcel Geocoder, ESRI World Geocoder or Both.



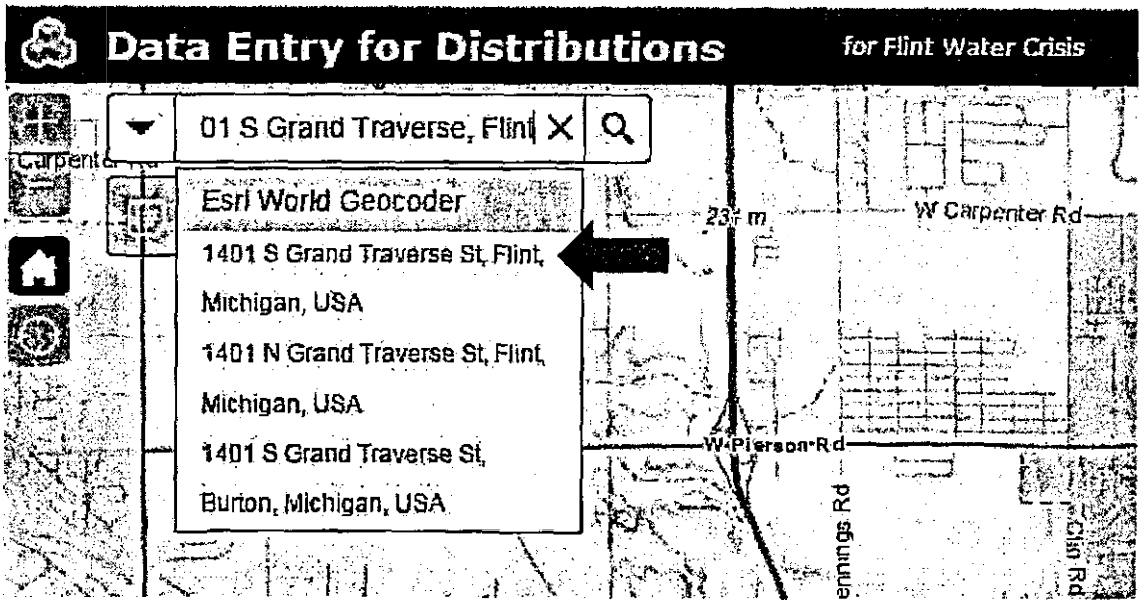
Search for the address, i.e, 1401 S Grand Traverse, Flint, MI

Notice as you start typing, choices appear. It attempts to search parcels first.



As you continue to type the address, it will search other data.

As you keep typing, you'll see additional results.



Click on one. It will zoom to that location on the map.

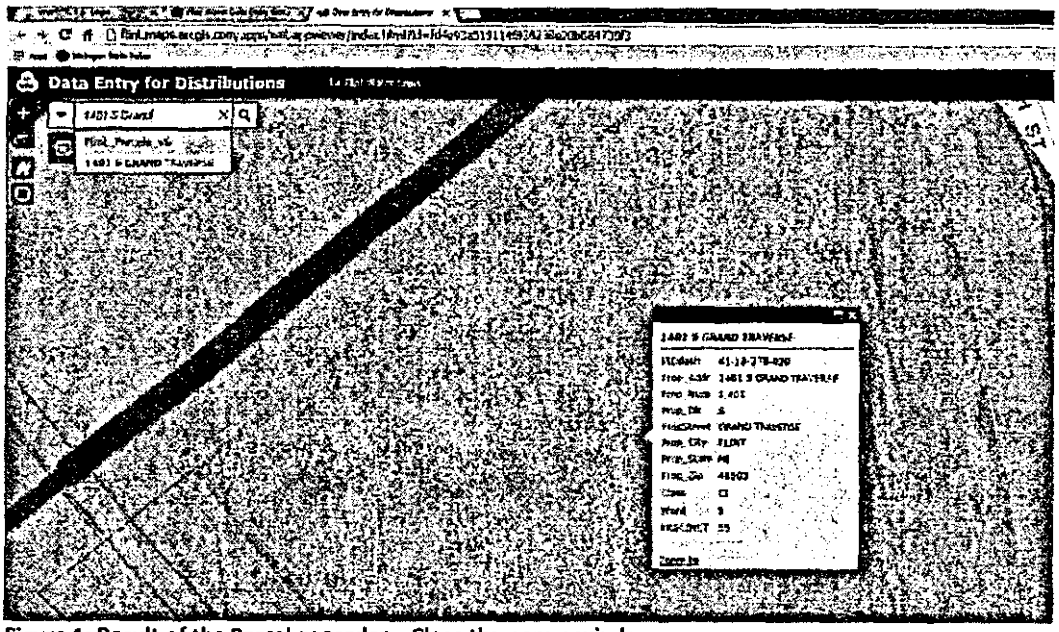


Figure 1: Result of the Parcel geocoder. Close the popup window.

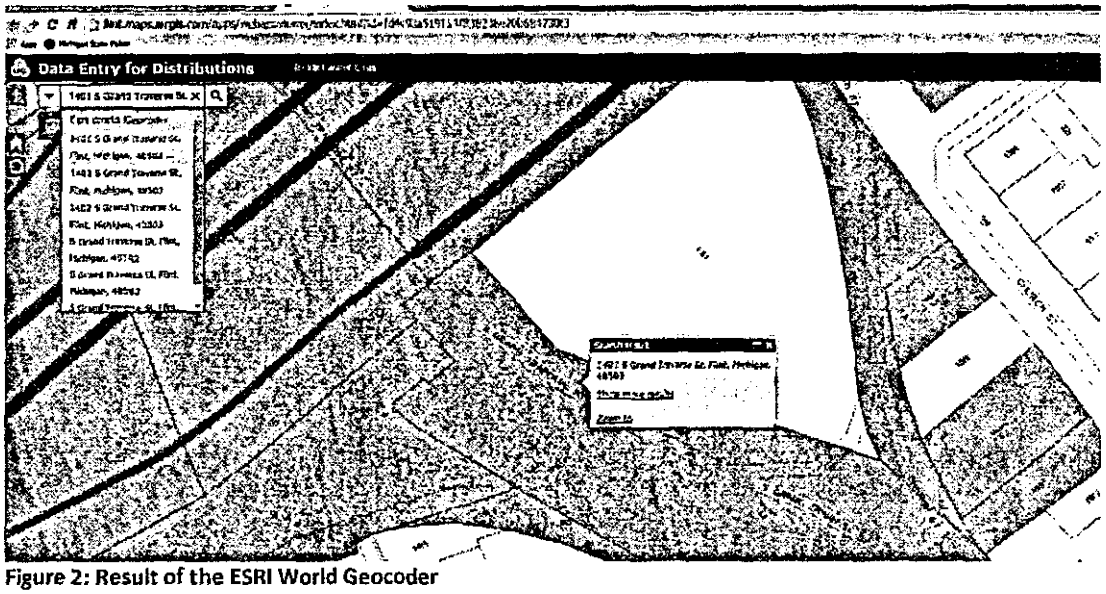

Figure 2: Result of the ESRI World Geocoder

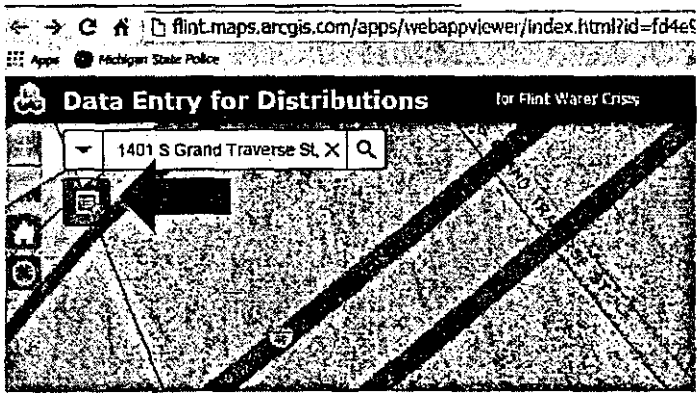
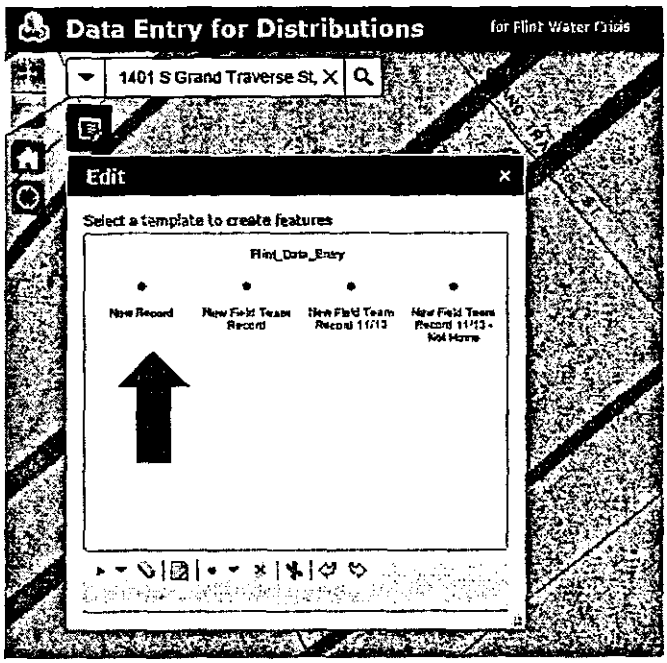
Once you have found the correct location, you are ready to add a point.

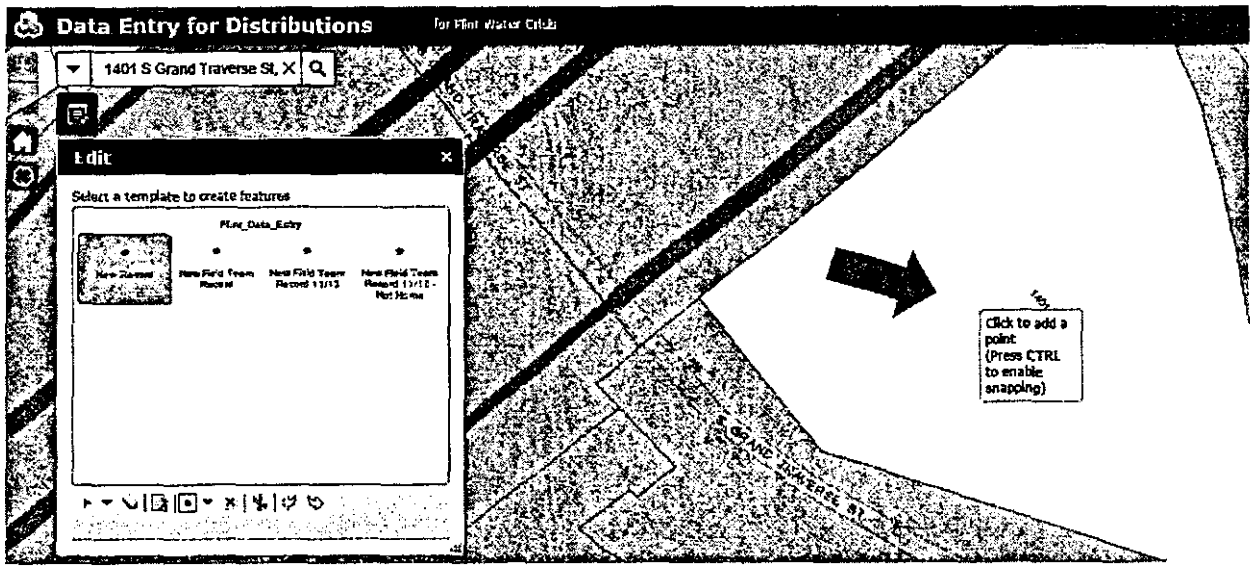
Add a new point

Click the icon below the search tool



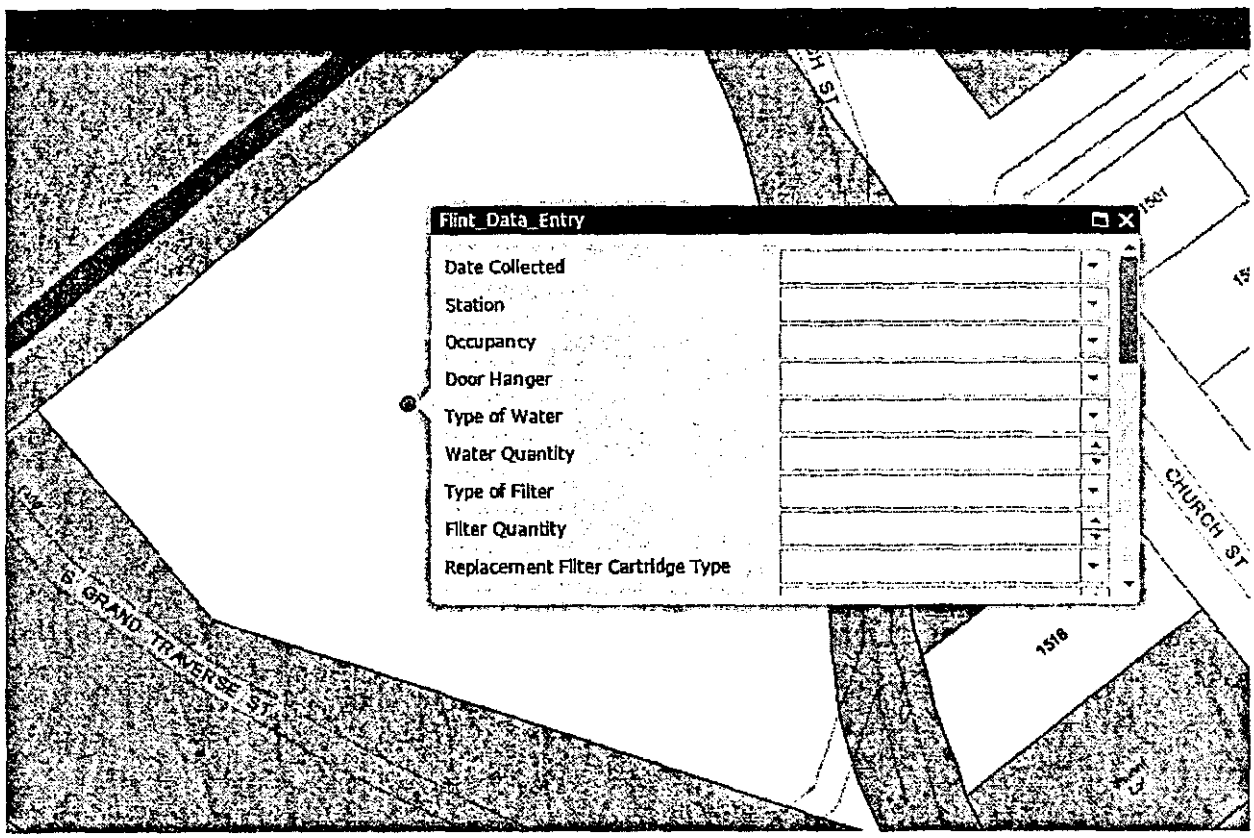


Click the "New Record". The other options are shortcuts so you don't need to fill in as much data.

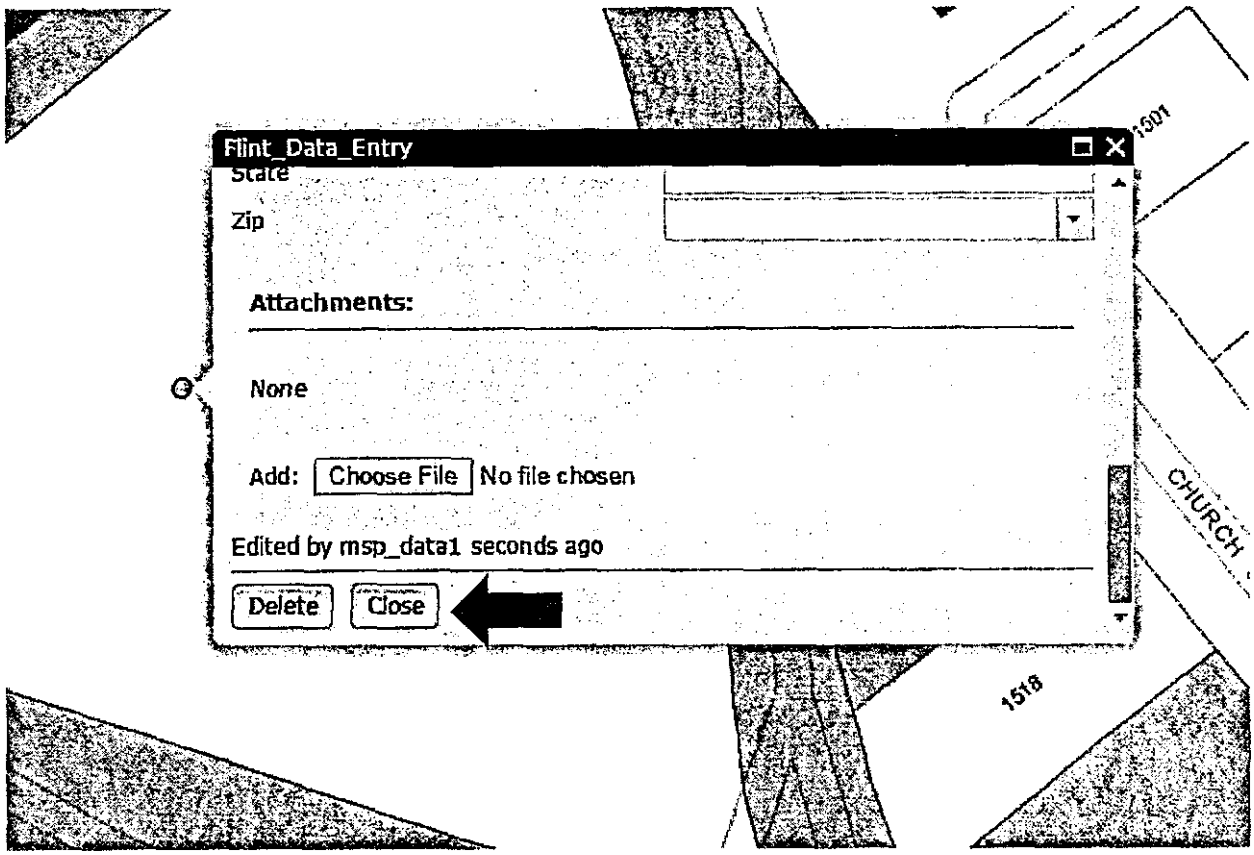


Click on the Parcel shape that contains the Street Address. Make sure the Red dot is inside the parcel shape and not on the street.

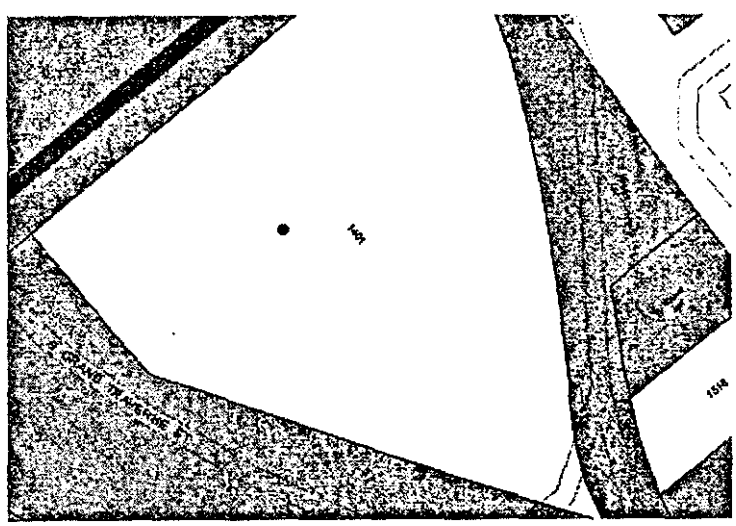
If there is no parcel for the reported address, leave the point where the geocoder put it and record the address in the form fields.



Fill out the fields as best as possible



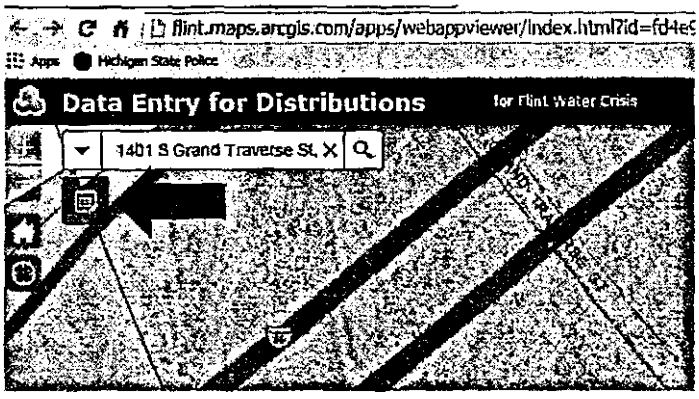
Click the "Close" button to finish



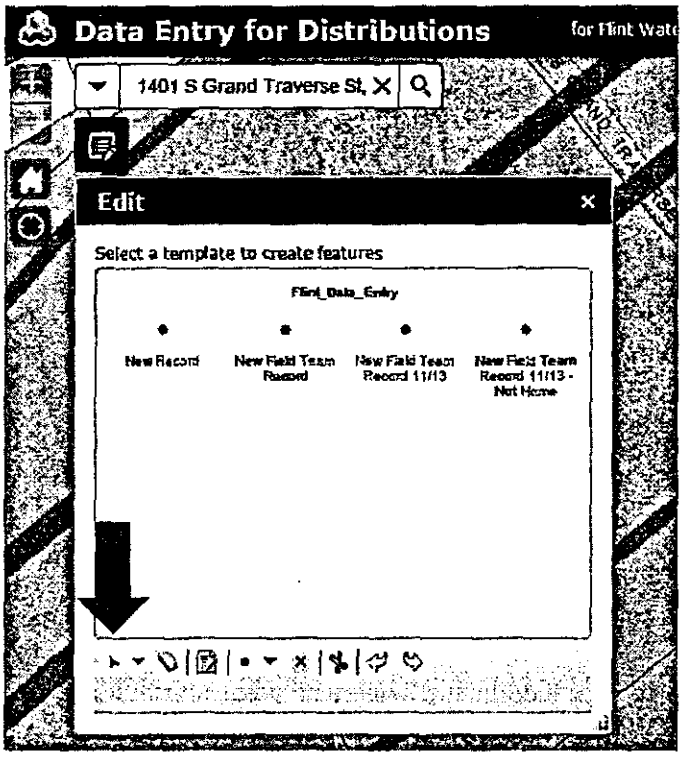
You should see a point. You are done with that record.

Edit a record

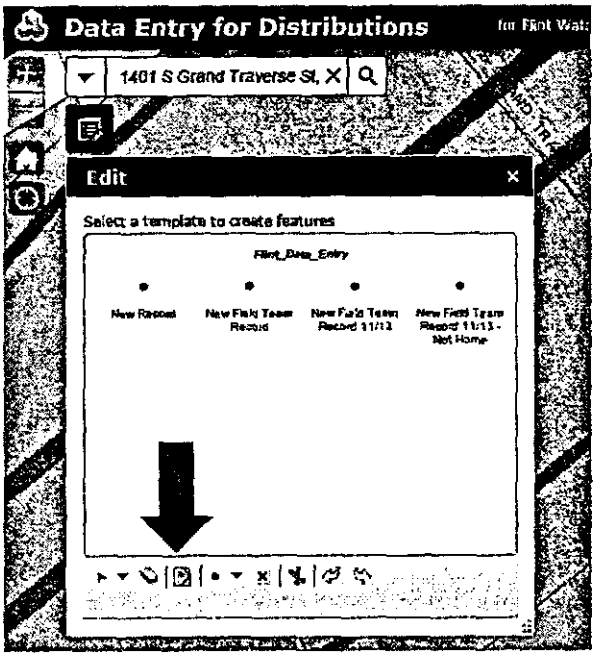
If you made a mistake or need to correct a record,



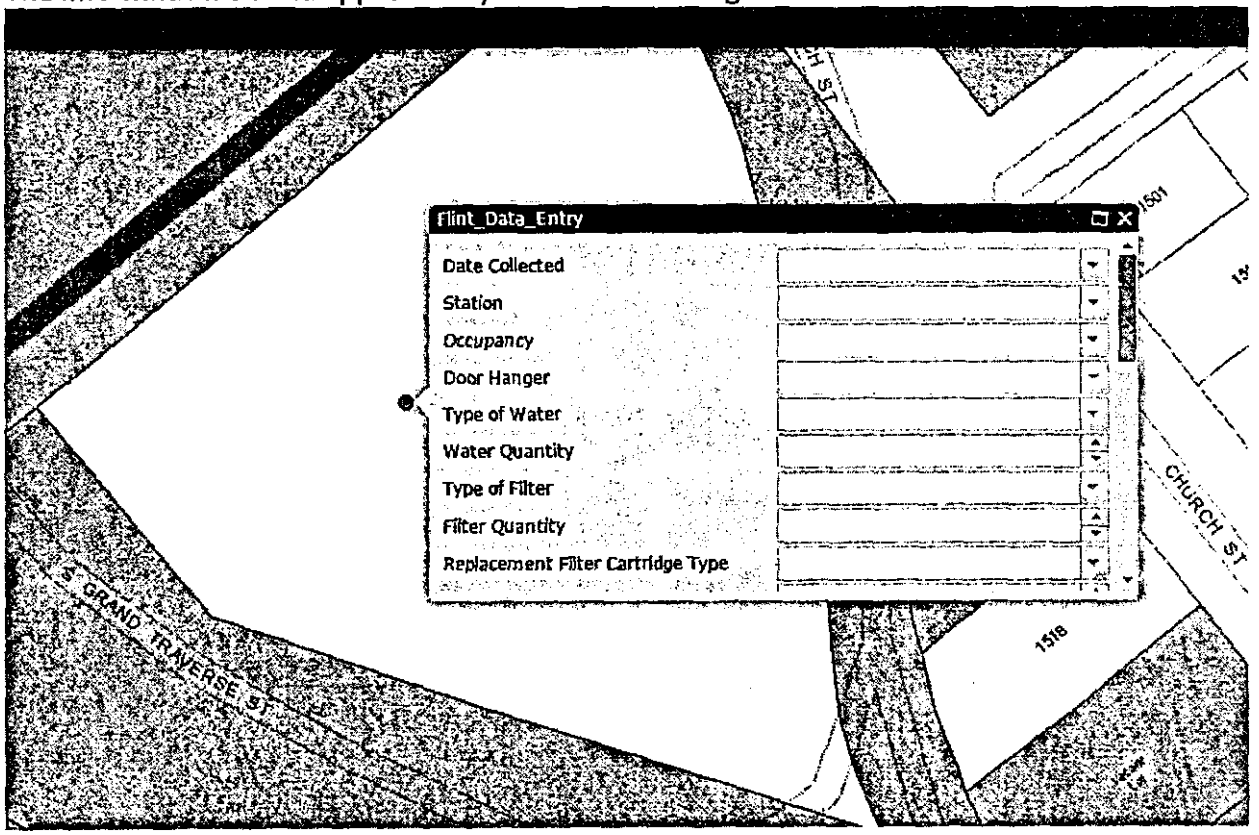
Click the Arrow and click on your point of interest.



Then click the "Attribute" icon



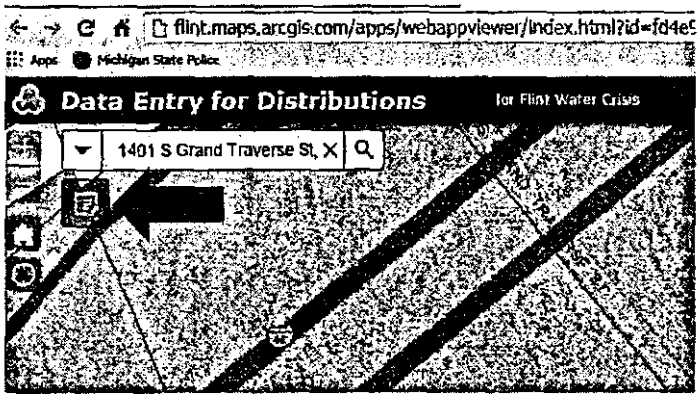
The info window should appear and you can make changes.



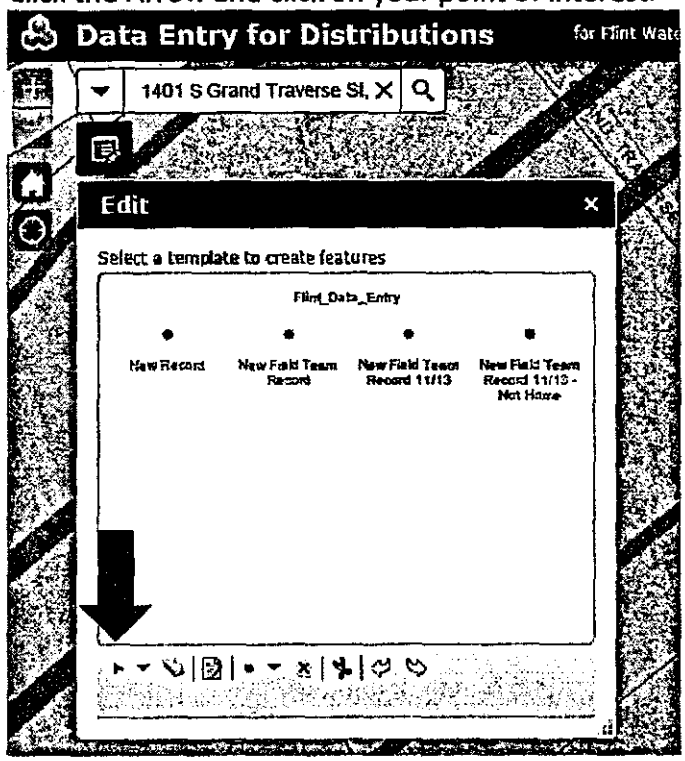
Scroll down and choose "Close" to save your changes.

To Delete a point

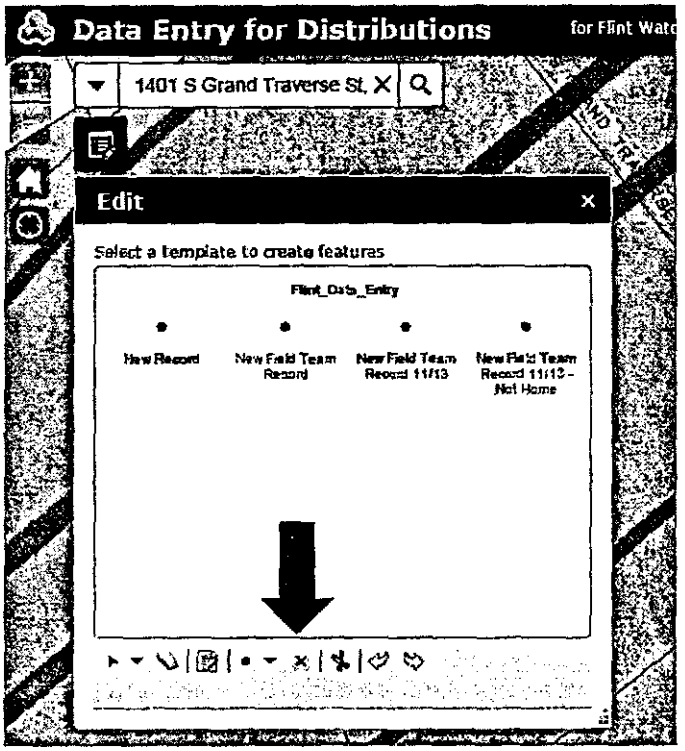
If you made a mistake or need to correct a record,



Click the Arrow and click on your point of interest.



Then click the red X



The point should disappear from the map.

Shawn,

City of Flint - Mayor Weaver has provided a list of needs to the Executive which include, Fire Department overtime costs of $360,000, and Police Department (civilian staff) overtime costs at $18,000, for a total of $378,000. Director Roberts is inquiring as to whether we can roll this figure into our SEOC costs?

It looks like you are correct that the $3.8 M Disaster and Emergency Contingency Fund plus the $100K for the advisory committee would cover our estimated SEOC costs – less water, filters and DMVA – through March. As far as DMVA, the number of troops that will be working in Flint increased today from 35 to 58, so that will short their mission significantly.

I am a little concerned about the $6.275 for water, filters and replacement cartridges; I just saw an order for cartridges, filters and water go out for $1.9 M through DHHS this afternoon. I'll have to take a look at the orders that have gone out since the SEOC was activated to see what kind of costs we are looking at that were not funded with DHHS supplemental from October.

On the bright side, if we end up with a Presidential declaration, we would be turning the water over to FEMA and I believe the National Guard as well. And if we end up with federal funds, we have a lot of volunteers that we could turn into match for the 25% requirement.

I have discussed with Captain Kelenske so he is aware. Please let me know how I can assist with any of this.

Thanks,
Penny

Please find attached the tentative emergency supplemental request for Flint. This supplemental request will be submitted to the Legislature early next week. It is intended to cover emergency items only. Other supplemental items (or augmentations to these items) may be submitted at a later date or as part of the FY17 budget request.

Please review the items for your agency. Let us know as soon as possible (preferably by 1:00 p.m. tomorrow) if you identify problems or omissions where you must have immediate new funding.

We will be in this week-end and will be checking e-mail and voice mail messages. Feel free to call me directly or call your appropriate office director.

Thanks for your help in identifying potential needs and in a quick response to this message.

Please find attached the tentative emergency supplemental request for Flint. This supplemental request will be submitted to the Legislature early next week. It is intended to cover emergency items only. Other supplemental items (or augmentations to these items) may be submitted at a later date or as part of the FY17 budget request.

Please review the items for your agency. Let us know as soon as possible (preferably by 1:00 p.m. tomorrow) if you identify problems or omissions where you must have immediate new funding.

We will be in this week-end and will be checking e-mail and voice mail messages. Feel free to call me directly or call your appropriate office director.

Thanks for your help in identifying potential needs and in a quick response to this message.

EXPLANATION: Per Article XVI, Sec.703(7), 2015 PA 84, the department is requesting authorization support the state's costs in response to the governor-declared State of Emergency within the City of Flint. Section 18 of the Emergency Management Act (MCL 30.418) provides that the DECF may be used, upon appropriation, for necessary and reasonable overtime, travel, and subsistence expenses incurred by an employee of a state agency in response to an disaster or emergency and, with concurrence by the governor, for other needs required for the mitigation of the the effects of, or in response to, a disaster or emergency. The DECF may be credited with any funds from the federal goverment or other source providing reimbursement for expenditures from the fund.

Boilerplate Appropriation Authority
Sec. 703(7) In addition to the funds appropriated in part 1, there is appropriated from the disaster and emergency contingency fund an amount necessary to cover costs related to any disaster or emergency as defined in the emergency management act, 1976 PA 390, MCL 30.401 to 30.421. Funds shall be expended as provided under sections 18 and 19 of the emergency management act, 1976 PA 390, MCL 30.418 and 30.419, and R 30.51 to R 30.61 of the Michigan administrative code.

Sec. 703(8) Funds in the disaster and emergency contingency fund shall not be expended unless the state budget director approves the expenditure and the department and the state budget office notify the senate and house appropriations committees.

Subject: FW: Disaster Contingency Fund
Attachments: 551004 - Disaster Assistance DECF.xlsx

Attached is an EBA for the DECF using the entire balance. (The appn is rounded up to allow the fund to be fully expended.)

From your questions to Shawn – this would be an "emergency" for which expenditures from the DECF are an appropriate use in support of the state's response to the Flint issue. The statutory definition of an "emergency" is an occasion in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property, and the public health and safety, etc. The situation was declared to be an "emergency" by the Governor on 1/5/16.

The Emergency Management Act (MCL 30.418) opens the DECF for expenditure for state agencies in mitigating the effects of, or responding to a disaster or emergency. The act also provides that the fund may be reimbursed for its expenditures by the federal government or another source.

MCL 30.419 opens the DECF for expenditure for direct assistance to local units when federal assistance is not available (i.e. no presidential declaration). Assistance is capped at $100,000.

Thanks,

Mark

Does the Flint water matter qualify as a "emergency" under the emergency management act?

If so, it would appear that your boilerplate Section 703(7) is an automatic appropriation:

(7) In addition to the funds appropriated in part 1, there is appropriated from the disaster and emergency contingency fund an amount necessary to cover costs related to any disaster or emergency as defined in the emergency management act, 1976 PA 390, MCL 30.401 to 30.421. Funds shall be expended as provided under sections 18 and 19 of the emergency management act, 1976 PA 390, MCL 30.418 and 30.419, and R 30.51 to R 30.61 of the Michigan administrative code.

If so, it would appear that your boilerplate Section 703(7) is an automatic appropriation:

(7) In addition to the funds appropriated in part 1, there is appropriated from the disaster and emergency contingency fund an amount necessary to cover costs related to any disaster or emergency as defined in the emergency management act, 1976 PA 390, MCL 30.401 to 30.421. Funds shall be expended as provided under sections 18 and 19 of the emergency management act, 1976 PA 390, MCL 30.418 and 30.419, and R 30.51 to R 30.61 of the Michigan administrative code.

All we need to do is an Electronic Budget Adjustment (EBA) moving authority to this appropriation and fund. Mark is working on a EBA. Do you want us to send it over to SBO?

If we get a declaration from the President the DCF does not apply. It only applies when we do NOT get a Presidential and we have a Governor's dec.

Is that what you are looking for or am I misunderstanding the question?

Chris

Subject: City of Flint supplemental meeting follow up
Importance: High

Good morning Shawn,

The $200K submitted by DMVA for the National Guard is a duplicate and should come off the list you provided yesterday. The financial folks at DMVA are supposed to remove the $200K request.

I confirmed the $303K amount DMVA provided us and that is the correct amount we are supposed to use. That amount increased a little as they added 2 additional troops to total 35 now. The addition is included in our request.

We added the Project Pay, FSB overtime, and the Flint Interagency Advisory Committee to our supplemental projection.

Revised projected supplemental request is attached. Please let me know if you have any questions.

Thank you,
Nancy

Importance: High

Good morning Shawn,

The $200K submitted by DMVA for the National Guard is a duplicate and should come off the list you provided yesterday. The financial folks at DMVA are supposed to remove the $200K request.

I confirmed the $303K amount DMVA provided us and that is the correct amount we are supposed to use. That amount increased a little as they added 2 additional troops to total 35 now. The addition is included in our request.

We added the Project Pay, FSB overtime, and the Flint Interagency Advisory Committee to our supplemental projection.

Revised projected supplemental request is attached. Please let me know if you have any questions.

Thank you,
Nancy

Shawn,

Good morning. I spoke with Lt. Colonel Sands and FSB's Budget is going to be based on 2 Lieutenants, a Sergeant and 5 Troopers. FSB personnel will be working 6 days a week on 12 hour overtime shifts. The budget will also include an amount for mileage reimbursement. No meals were included as the meals are currently being provided by the Red Cross.

FSB's request is for $2,294,110.

Thanks,
Dave

Clear on that. Shawn already has it and we have been working with his staff.

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.

- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water

- Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
- Ordered:
  - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
    - 1/3 is going to GCCARD and the rest is going to the new warehouse
  - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers

- Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
- We are working on version 2.0 so this can be used at the PODs
- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.

7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand

response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

  - A call is going out tomorrow morning to advise this information ... I do not believe it was *every resident but Tori Sachs has that info if needed.*

- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
  - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
    - Training is so those going door to door can explain what the filters do, how to install *them, if they need install help to call 211 who has a list of people who can install the* filters, and answer any other questions versus just handing them the filter.
  - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
  - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
  - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff ( ) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- *Finalize plan for data distribution methods*

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis

- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

I have not seen anything about a meeting. Lt. Col. Gorski passed the request for information on to Inspector Bolger while we were in the SEOC yesterday afternoon. And our projection includes other state agency costs such as warehouse rental, purchase of water resource supplies and DMVA costs.

I'll send our report to you in the morning and we can discuss as you would like

Thanks. Have a good rest of your evening.

Subject: Re: City of Flint financial projection

Thanks Penny. I look forward to seeing the final tomorrow, but I certainly understand the need to take a break from it for tonight and give it a fresh look in the morning.

We are gathering this material because SBO said they were planning on calling a meeting for tomorrow with all the state agencies involved to begin preparing a supplemental request. I was led to believe the invitation to that meeting was going direct to EMHSD. It sounded like they were going to reach out to Capt. Kelenske. Lt. Col. Gorski was going to make sure that the invite was forwarded to me, but I haven't seen anything yet. Have you heard anything about a meeting like that being set up?

Good Evening Mr. Sible;

Financial section staff just completed the projection for the City of Flint water emergency as requested. I apologize for not having this to you earlier but there was a lot of research to do and assumptions to gather to arrive at our figures.

I would like to take another look at this first thing in the morning with a fresh set of eyes. And we will be including detailed information that was used to arrive at these costs in an effort to help answer questions you may have.

We will get this to you first thing tomorrow morning.

Thanks,
Penny

Dave,

We will need to adjust our request. Please include the cost of another Lt., same hours as the one you submitted.

Hopefully Mr. Sible did not send everything in yet.

Thanks.

> I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have 50+ teams (best case scenario).

Subject: MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

Subject: Flint Water Detail
Attachments: Copy of Copy of Flint Water Detail (2).xlsx

Attached is a list containing the names of those approved to participate in the Flint Water detail. In order to minimize travel time, location of the volunteers was considered. Each Bureau is responsible for notifying their respective staff members and arranging for carpooling to Flint.

Attire: Appropriate attire for the weather conditions. Jeans are allowable. MSP uniforms including fatigue uniforms are prohibited. Military Surplus attire or attire that could be mistaken as that of the National Guard shall not be worn.

All individuals assigned to work as the Water Response Team in Flint shall report to the Genesee County EOC by 9 am on Thursday and/or Friday.

Location:
Genesee County Administration Building
1101 Beach St
Flint, MI 48502
In the basement or level "G" if someone used the elevator
Parking is available at Trinity Church, on the corner of Beach and Eighth. It is two blocks southeast of the Admin Building.

Lunch will be served at the EOC, Genesee County Admin. Building.

Each enforcement member should bring their assigned radio.

Subject: Flint Water Crisis - FSB Response

Good morning Shawn,

I met this morning with FSB to prepare a Budget to provide assistance to the City of Flint. Based on our discussion, FSB would be requesting the following:

Budget per Pay Period:
Lieutenant OT - $16,760 (1 Lieutenant x 6 days per week x 12 OT hours per day)
Trooper OT - $72,565 (5 Troopers x 6 days per week x 12 OT hours per day)
Mileage - $2,275 (Mileage - 1 admin. vehicle driving 10 miles per day & 5 patrol vehicles driving 80 miles per day)
Total - $91,600

We went with a per pay period Budget since we don't know if our commitment will be a few weeks, 3 months, or until the end of the fiscal year? This allows that decision to be made and then the Budget to be finalized.

Please let me know if you have any further questions.

Thanks,
Dave

Good Morning Shelley,

During my conversation with LTC Gorski yesterday he said he would wear jeans. We do not want our folks in uniforms or fatigues as we are trying to remain relatively low key. The big thing is for staff to dress to remain warm and comfortable. Hope this helps and give me a call if you have additional.

Expectation will be that they report to the GCCARD Facility at 2727 Lippincott, Flint MI at 9:00 am for briefing. The operational period will be until 4:00 pm, to give them time to get back to Lansing by 5:00.

On my 0830 call with the local EOC with a JIC rep that the integration of all resources had to be pushed more. This is exactly what we needed. Capt. Tafoya has been our go to person and staff has a great relationship with him in the EOC. Great job by Kaiser also.

As we spoke earlier about this issue, we will be putting out a department wide request to do this community service.

I'd like each Bureau to coordinate the appropriate number of staff needed for these 2 dates.

This will be "One Team"... Providing service with a purpose.

I need to attend the Flint meeting tomorrow.

I'm going to ask John Roberts to still meet with you.

Greg please take the lead in this discussion with John. (I would ask that Shawn validates any budget numbers and/or corrects any inaccuracies that John might have from the SBO staff.)

We can chat in the morning.

Thanks

Subject: Notification of Additional Expenditure Authorization

Good afternoon:

In accordance with Article XVI, Section 703(7) of 2015 PA 84, the Michigan State Police is notifying the House and Senate appropriations subcommittees with jurisdiction over the MSP budget and the House and Senate fiscal agencies that the State Budget Office has approved the following additional expenditure authorizations in the Michigan Administrative Information Network (MAIN).

FY: 2016
Date of Approval in MAIN: 2/1/2016
Appn: 28190 – Disaster Assistance
Source: Disaster and Emergency Contingency Fund (2880)
Amount: $3,871,100
Projected Use: Costs incurred by the department and other state agencies in responding to the state of Emergency within the City of Flint.

Sincerely,

Ms. Halima el-Sulayman

OK D-

This is the second issue I mentioned earlier today.
In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.

Subject: FW: Information Request and Documentation
Importance: High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Stephen Busch, P.E.

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

Jim Henry

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must **first** be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

<2-1-16 Flint Water Exp and Activity Tracking.pdf>

STATE OF MICHIGAN
STATE BUDGET OFFICE
LANSING

RICK SNYDER
GOVERNOR

JOHN S. ROBERTS
DIRECTOR

February 1, 2016

MEMORANDUM

TO: Chief Financial Officers and Human Resource Directors
All State Agencies

FROM: Michael J. Moody, Director
Office of Financial Management

SUBJECT: Flint Water Expenditure and Activity Tracking

In order to facilitate the tracking and monitoring of expenditures and activity related to the Flint water emergency, the Office of Financial Management (OFM) has established the following coding and processes. The coding and processes described in this memo will be used to track expenditures in MAIN and state employee activity in DCDS. Separate instructions regarding the tracking of outputs related to the Flint water emergency will be forthcoming.

Expenditure of Funds Appropriated in Public Act 3 of 2016

OFM has established a line item appropriation number (88500) that will be used for all appropriations included in Public Act 3 of 2016 (HB 5520). Each affected agency is responsible for submitting Electronic Budget Adjustment (EBA) documents using the appropriation number established by OFM and providing the necessary D23 coding for the funding source(s) identified in the appropriation act.

In addition to the submitting EBA documents, affected agencies must establish and use Program Cost Account (PCA) coding in MAIN to specify which of the activities identified in the appropriation act boilerplate are supported by expenditures. Each of the established PCA codes must include multipurpose code FNT-WTR. OFM will contact affected agencies within the next week to discuss establishment and use of the needed PCA codes in more detail.

Please note that these instructions apply only to funds appropriated in Public Act 3 of 2016. Additional instructions will be issued when future appropriations related to the Flint water emergency are enacted.

Expenditure of Other Funds

OFM has established MAIN multipurpose code FNT-WTR to be used by agencies to track expenditures of funds not appropriated in Public Act 3 of 2016 that are related to the Flint water emergency. FNT-WTR is a statewide multipurpose code that is available for use with any PCA code.

If your agency already uses multipurpose code in a manner that conflicts with using it as described above, please contact OFM as soon as possible to discuss alternative methods for tracking.

Tracking Time and Activity in DCDS

OFM has established a DCDS activity code (FDWP) that affected state employees should use to record the amount of time spent on activities related to the Flint water emergency. The activity code will be used to track employee hours devoted to activities related to the Flint water emergency. It is separate from and will have no impact on the expenditure tracking that will occur in MAIN. If employees are not familiar with the DCDS activity reporting process, the reporting is done biweekly on the "Activity" tab of the DCDS timesheet.

If you have questions regarding this memo, please contact Lora Mikula at 373-0447 or MikulaL@michigan.gov.

Suspended DEQ Official Received Bonus 4 Months Ago
The leader of the state's drinking water office who was first reassigned -- then later suspended -- in connection with her office's handling of the Flint water crisis had been approved for a one-time performance bonus of $2,652 in September 2015.

Liane Shekter **SMITH** was chief of the Office of Drinking Water and Municipal Assistance within the Michigan Department of Environmental Quality (DEQ), before being reassigned Oct. 19 after the DEQ admitted it made a mistake in how it handled overseeing Flint's switch to the Flint River (See "DEQ Takes Blame On Flint Water; Ananich Unforgiving," 10/19/15).

And last week, Smith was one of two DEQ employees suspended by the administration pending a Civil Service investigation, *MIRS* has confirmed.

But on Sept. 13, 2015, Smith was approved for a performance bonus worth $2,652 that was paid out in a lump sum, the Office of the State Employer (OSE) confirmed today. The amount awarded to Smith was based on 2 percent of her base pay, said Kurt **WEISS**, spokesperson for the OSE.

Former DEQ Director Dan **WYANT** had authority to approve any performance bonuses prior to processing, Weiss said. Wyant resigned in December (See "Wyant Resigns As Task Force Slams MDEQ Over Flint Water Contamination," 12/29/15).

It's not clear what rationale was given for awarding the performance bonus to Smith. State officials didn't address that question when asked.

Last week, Gov. Rick **SNYDER** announced two DEQ employees would be suspended due to "pending questions regarding employee actions related to water testing in Flint" (See "Snyder Suspends Two MDEQ Employees, Hires Crisis Comms Firms," 1/22/16).

The two employees were not named, and the state has declined to release the names. But multiple sources have confirmed it was Smith and fellow DEQ official Stephen **BUSCH** who were suspended.

Plus, the *Detroit Free Press* first pointed out this week an organizational chart dated Jan. 18 for the DEQ drinking water office was missing the names of both Smith and Busch.

While not their members, SEIU Local 517M Director Liza Estlund **OLSON** today raised concerns with how the state has handled the DEQ employees' suspensions. She also questioned why the state would award a performance bonus to an employee and then later suspend that person.

"If somebody has been given a pay-for-performance increase and then is told their work is so bad they're being let go by the state of Michigan, again it sends up a red flag as to whether there's really due process happening, and if these people are just being used as scapegoats for the Governor to point a finger and try to keep it away from his doorstep," Olson said.

The other suspended DEQ official, Busch, had received some scrutiny for an email he sent to the U.S. Environmental Protection Agency (EPA) in February 2015, in which he informed them that Flint had a corrosion control program in place for its water (See "DEQ, Flint Focused On Different Health Issue With Flint Water," 1/21/16).

But that wasn't the case, and the DEQ clarified that Flint was undergoing a procedure to evaluate whether a corrosion control program was needed for its water, which the DEQ acknowledged later should've been implemented from the very beginning.

Busch didn't receive any sort of performance bonus in September because his employee classification doesn't allow for such bonuses, Weiss said.

The man who first replaced Smith atop the drinking water office for the interim, DEQ Chief Deputy Director Jim **SYGO**, also received a performance bonus payment worth $5,837 on Sept. 13.

Sygo is listed as DEQ Chief Deputy Director as of Jan. 22, but Mary Ann **DOLEHANTY** is listed as the interim head of the drinking water office, according to an organizational chart posted on the DEQ website.

The DEQ -- and in particular the drinking water office -- have been singled out by the Governor, the Office of the Auditor General and others for its role in the Flint water crisis, mainly for not requiring corrosion control on the river water from when it was first used as Flint's water source beginning in April 2014.

Snyder, in his announcement of the suspended DEQ employees, went so far as to say that "some DEQ actions lacked common sense."

Subject: Flint Water Emergency

I would like you to schedule a meeting early next week (with all copied on this email) - to discuss the MSP's ongoing role with the Flint Water Emergency.

I would prefer everyone attend in person and no conference call for those invited.

I will create an Agenda of items to discuss.

If you want to put on EC meeting date (with specific time) that could work.

Thanks

Subject: City of Flint Costs - January 26th
Attachments: City of Flint Response Costs Jan_26_16.xlsx

Good Evening:

I have attached the current cost information related to the SEOC response for the City of Flint Water Emergency. You will find two tabs in this workbook. The first tab reflects current actual and estimated costs incurred by state agencies except Corrections who did not get their information turned in this week. The second tab contains detailed information obtained from DHHS purchasing as far as the water resources procured from Home Depot. These numbers are carried over onto the cost spreadsheet; this is just included to show you more of the detail.

The cost report details the current expenditures or estimated costs incurred. I have done this so you are able to see what types of items are being requested for this response. There are various lines within the supplemental appropriation included in this report, such as DMVA and DHHS. Costs so far are approximately $10.2 M with $8.7 M being spent on water resources since the Governor declared a state of emergency.

If I can answer any questions for you, please let me know.

Thanks and have a good evening.
Penny

Subject: Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske--As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (Entrepreneurial recruitment and identification of venture capital/other capital) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

Subject: Flint Status Update

All,

As of January 21, Rich Baird has assumed the Lead Point of Contact role for Flint. This has been communicated to the existing team working on the Flint water emergency. As of today, an office has been opened in the State of Michigan building located at 125 Union Street in downtown Flint. In addition to the individual team members listed below, a representative from DEQ, DHHS and the Department of Civil Rights will join Rich's team.

Per Rich, here is a list of the "Mission Flint" team and a summary of roles and responsibilities:

LG Calley—Will establish an office in Flint and provide input to POC Leader. He will also be focused on sustaining a quality partnership with Dr. Mona Hanna-Attisha and DHHS to attest to blood sampling protocols and interpretation, and begin executing additional monitoring/education and remediation for those impacted. He will also provide input and guidance to the EO communications team on ways to be more proactive with messaging and the public narrative (drawing attention to volunteers, community groups, and stories that are happening but not getting into the narrative).

Harvey Hollins—Harvey will continue (with R. Baird) to nurture a quality partnership with Mayor Weaver and her team, pastor groups, and provide grass roots community leadership so that we can stay acutely attuned to the needs of the Flint Community and bring resources to bear. Harvey will also serve as the co-facilitator for the FWIACC with the first meeting occurring on January 27.

Bill Nowling—Bill will step back from the role he is playing as Crisis Leader for Communications Department. Meegan Holland will work closely with LG Calley to improve (department wide) proactive efforts in messaging and narrative. Bill will approve all communications from our Flint Team. He will coordinate the Mercury team communications engagement and engage with Mark Davidoff and the Deloitte team to provide more support to Mayor Weaver (through his associate Ms. Cockrell).

Tori Sachs—Tori will continue playing a "utility" role on a variety of fronts, including supporting the philanthropic campaign, eliciting University engagement (Community Scholars, etc.), monitoring vendors and follow up with third party validation groups, assisting with messaging and volunteer deployment, and supporting Col. Greg Durkac in tracking our critical matters and decisions organization framework.

Colonel Greg Durkac—SME for project management, logistics, and organizational frameworks for critical matters and decisions. He lives in Linden (just outside Flint) and is deferring his retirement for this assignment.

Captain Chris Kelenske--As Chris winds down from Phase 1 Emergency Stabilization, it is important he remain engaged as a spokesperson, coordination expert, and leveraging his expertise as we continue a different model of community outreach (testing, monitoring, engaging resources, etc.). He will also work with Harvey on the FWIACC and in continued community outreach.

Nat Forstner/Ben Geiger— Will take the lead on data collection, analytics, comparative interpretation and communication to Governor Snyder and principals. Need more benchmarking and historical data not just from Michigan but around the country.

Others who have agreed to engage as appropriate are Mike Finney (community outreach), Nick Khouri (treasury support and financing), Chris Rizik (Entrepreneurial recruitment and identification of venture capital/other capital) Peter Remington (Philanthropic and Campaign Strategy) and Matt Rizik (Intergovernmental relations City/County).

Clearly there will many more connection points as represented in the FWIACC but the above represent a type of "executive committee" to lead us into Phase 2 and 3 of "Mission Flint".

Please feel free to reach out to me, Rich or Jarrod if you have any questions or suggestions.

Thanks,

Below is the list of individuals for whom each bureau has asked us to build project pay into the budget. HR is working on making that happen, but we wanted to make sure you approve first:

Chris Kelenske
Tony Katarsky
Matt Bolger
Mike Johnson
Gabe Covey
Shanon Banner
Dave Kaiser
Tom Kish

In addition to the request for Project Pay for Capt. Kelenske, to handle the State's response to the declared emergency in Flint,
I am requesting project pay for the following Group 4 employees:

Mr. Tony Katarsky
F/Lt. Gabe Covery
Insp. Matt Bolger
F/Lt. Mike Johnson

I would like to date the project pay back to the pay period beginning January 3, 2016.

Since January 6, the SEOC has been operational. The above employees have worked excessive hours, each day, into the evening, and through the weekends and holiday.

Thank you

gmg

Subject: Flint Supplemental

This just passed out of House Approps and is expected on the floor as early as today. Capt. Kelenske did give a brief overview of the process and our efforts to date. No real questions for MSP, though they did ask about whether we were prepared for civil unrest. I'm told Chris gave a great answer about how we're actually seeing nothing but gratitude and support from the people of Flint as we distribute supplies.

Tentative Emergency Assistance to Flint

Preliminary Draft; subject to change

	Fiscal Year	Local State External	Agency	one-time GF/GP*	one-time Gross*	Type of Request	Explanation

Dear Legislators:

SUBJECT: Supplemental Request 2016-2

Attached please find supplemental recommendations for fiscal year 2016 to address Flint emergency needs. Medium and long-term needs are still being assessed and will be addressed in a future supplemental request. This supplemental contains requests for the departments of Education, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs and State Police.

Action on this supplemental is requested by the end of January.

If you have any questions regarding this request, please contact Nancy Duncan at (517) 373-0870.

Sincerely,

John S. Roberts
State Budget Director

DEPARTMENT OF EDUCATION

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	935,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	935,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	935,000

(2) SCHOOL SUPPORT SERVICES

Flint declaration of emergency	$	935,000
GROSS APPROPRIATION	$	935,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	935,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Hiring additional school nurses.

(b) In the intermediate school district in which the declaration of emergency has been made, providing Early On and special education

services, coordinating wraparound services, providing nutritional snacks to elementary students, and providing and coordinating communications for parents, educators, and the community.

EXPLANATION:

This supplemental provides partial year funding for the hiring of 9 additional school nurses for the School District of the City of Flint. It also provides funding to Genesee Intermediate School District to support the hiring of 2 Early On service coordinators, a psychologist, and a health professional to coordinate the provision of wraparound services. In addition, funding to Genesee Intermediate School District will provide fresh fruit and vegetable snacks to elementary students in Genesee County and allow for coordination of communication for parents, educators and the community.

ENVIRONMENTAL QUALITY

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	5,786,500
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	5,786,500
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	5,786,500
(2) RESOURCE MANAGEMENT DIVISION		
Flint declaration of emergency	$	5,786,500
GROSS APPROPRIATION	$	5,786,500
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	5,786,500

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Water system needs

(b) Potential payment to city of Flint for water bill relief

(c) Lab and testing costs

(d) Corrosion control procedures

(e) Infrastructure integrity study using outside experts

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request includes funding for an infrastructure integrity study to assess the status of the infrastructure that supports the Flint water system and additional lab and testing costs in DEQ to handle the additional volume of testing required to address the emergency. Funds to assist the city of Flint include payment for corrosion control procedures for one year, potential payment to the city of Flint for water bill relief, and additional water system needs.

HEALTH AND HUMAN SERVICES

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	17,207,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	17,207,000
Federal revenues:		
Total other federal revenues		2,845,000
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		2,552,000
State general fund/general purpose	$	11,810,000

(2) LOCAL HEALTH ADMINISTRATION AND GRANTS

Flint declaration of emergency	$	17,207,000
GROSS APPROPRIATION	$	17,207,000
Appropriated from:		
Federal revenues:		
Total other federal revenues		2,845,000
Special revenue funds:		
Total other state restricted revenues		2,552,000
State general fund/general purpose	$	11,810,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Purchases of bottled water, water filters and replacement cartridges.

(b) Lead investigations and abatement of homes.

(c) Epidemiological analysis and case management of individuals with elevated lead blood levels.

(d) Nutrition support and community education.

(e) Support for child and adolescent health centers and Children's Healthcare Access Program.

(f) Assessment of potential linkages to other diseases.

(g) Food inspections.

(h) Crisis counseling and behavioral health services.

EXPLANATION:

This supplemental proposes a total of $17.2 million in the Department of Health and Human Services to address the water emergency in the City of Flint. $8.0 million is provided for the purchase of bottled water, water filters, faucet mounts, and replacement cartridges which will be distributed in partnership with the State Emergency Operations Center. Additional water resources are expected to be necessary during fiscal year 2016.

Remaining supplemental funding is expected to support local Community Mental Health organizations in the treatment of individuals with elevated lead blood levels, including diagnostic testing, nurse visits, environmental assessments, and crisis counseling. These funds will also support two existing child and adolescent health centers, the Children's Healthcare Access Program, and additional medical support services in every school in Flint as well as funding for nurse case management, community education and additional lead investigations. Funding will be used to support food inspections at licensed food establishments to be conducted by the Genesee County Health Department and increased nutrition support by Women, Infants,

and Children (WIC) Food and Nutrition Program staff, including education, screening, and a lactation consultant at Genesee County. Dollars will also be used to provide for lead abatement of homes performed by contractual staff and field consultants. These supplemental funds will also support two epidemiologists who will conduct blood lead level analyses on zip codes in the City of Flint and provide for assessments by contractual staff of potential linkages to other conditions such as Legionnaire's Disease.

LICENSING AND REGULATORY AFFAIRS

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	2,000,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	2,000,000
Federal revenues:		
Federal funds		0
Special revenue funds:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the Michigan National Guard water support efforts.

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request addresses funding needs for the Michigan National Guard's role in providing support to the citizens of Flint, including costs for Guard member salaries, travel, lodging and meals for 3 months.

Dear Legislators:

SUBJECT: Supplemental Request 2016-2

Attached please find supplemental recommendations for fiscal year 2016 to address Flint emergency needs. Medium and long-term needs are still being assessed and will be addressed in a future supplemental request. This supplemental contains requests for the departments of Education, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs and State Police.

Action on this supplemental is requested by the end of January.

If you have any questions regarding this request, please contact Nancy Duncan at (517) 373-0870.

Sincerely,

John S. Roberts
State Budget Director

DEPARTMENT OF EDUCATION

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	935,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	935,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	935,000

(2) SCHOOL SUPPORT SERVICES

Flint declaration of emergency	$	935,000
GROSS APPROPRIATION	$	935,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	935,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Hiring additional school nurses.

(b) In the intermediate school district in which the declaration of emergency has been made, providing Early On and special education

services, coordinating wraparound services, providing nutritional snacks to elementary students, and providing and coordinating communications for parents, educators, and the community.

EXPLANATION:

This supplemental provides partial year funding for the hiring of 9 additional school nurses for the School District of the City of Flint. It also provides funding to Genesee Intermediate School District to support the hiring of 2 Early On service coordinators, a psychologist, and a health professional to coordinate the provision of wraparound services. In addition, funding to Genesee Intermediate School District will provide fresh fruit and vegetable snacks to elementary students in Genesee County and allow for coordination of communication for parents, educators and the community.

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Water system needs

(b) Potential payment to city of Flint to aid with utility issues

(c) Lab and testing costs

(d) Corrosion control procedures

(e) *Infrastructure integrity study using outside experts*

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request includes funding for an infrastructure integrity study to assess the status of the infrastructure that supports the Flint water system and additional lab and testing costs in DEQ to handle the additional volume of testing required to address the emergency. Funds to assist the city of Flint include payment for corrosion control procedures for one year, potential payment to the city of Flint to aid with utility issues, and additional water system needs.

HEALTH AND HUMAN SERVICES

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	17,207,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	17,207,000
Federal revenues:		
Total other federal revenues		2,845,000
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		2,552,000
State general fund/general purpose	$	11,810,000

(2) LOCAL HEALTH ADMINISTRATION AND GRANTS

Flint declaration of emergency	$	17,207,000
GROSS APPROPRIATION	$	17,207,000
Appropriated from:		
Federal revenues:		
Total other federal revenues		2,845,000
Special revenue funds:		
Total other state restricted revenues		2,552,000
State general fund/general purpose	$	11,810,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Purchases of bottled water, water filters and replacement cartridges.

(b) DHHS field operations costs.

(c) Epidemiological analysis and case management of individuals with elevated lead blood levels.

(d) Nutrition support and community education.

(e) Support for child and adolescent health centers and Children's Healthcare Access Program.

(f) Assessment of potential linkages to other diseases.

(g) Food inspections.

(h) Crisis counseling and behavioral health services.

EXPLANATION:

This supplemental proposes a total of $17.2 million in the Department of Health and Human Services to address the water emergency in the City of Flint. $8.0 million is provided for the purchase of bottled water, water filters, faucet mounts, and replacement cartridges which will be distributed in partnership with the State Emergency Operations Center. Additional water resources are expected to be necessary during fiscal year 2016.

Remaining supplemental funding is expected to support local Community Mental Health organizations in the treatment of individuals with elevated lead blood levels, including diagnostic testing, nurse visits, environmental assessments, and crisis counseling. These funds will also support two existing child and adolescent health centers, the Children's Healthcare Access Program, and additional medical support services in every school in Flint as well as funding for nurse case management, community education and additional lead investigations. Funding will be used to support food inspections at licensed food establishments to be conducted by the Genesee County Health Department and increased nutrition support by Women, Infants,

and Children (WIC) Food and Nutrition Program staff, including education, screening, and a lactation consultant at Genesee County. These supplemental funds will also support two epidemiologists who will conduct blood lead level analyses on zip codes in the City of Flint and provide for assessments by contractual staff of potential linkages to other conditions such as Legionnaire's Disease.

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	935,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	935,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	935,000

(2) SCHOOL SUPPORT SERVICES

Flint declaration of emergency	$	935,000
GROSS APPROPRIATION	$	935,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	935,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Hiring additional school nurses.

(b) In the intermediate school district in which the declaration of emergency has been made, providing Early On and special education

services, coordinating wraparound services, providing nutritional snacks to elementary students, and providing and coordinating communications for parents, educators, and the community.

EXPLANATION:

This supplemental provides partial year funding for the hiring of 9 additional school nurses for the School District of the City of Flint. It also provides funding to Genesee Intermediate School District to support the hiring of 2 Early On service coordinators, a psychologist, and a health professional to coordinate the provision of wraparound services. In addition, funding to Genesee Intermediate School District will provide fresh fruit and vegetable snacks to elementary students in Genesee County and allow for coordination of communication for parents, educators and the community.

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Water system needs

(b) Potential payment to city of Flint to aid with utility issues

(c) Lab and testing costs

(d) Corrosion control procedures

(e) Infrastructure integrity study using outside experts

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request includes funding for an infrastructure integrity study to assess the status of the infrastructure that supports the Flint water system and additional lab and testing costs in DEQ to handle the additional volume of testing required to address the emergency. Funds to assist the city of Flint include payment for corrosion control procedures for one year, potential payment to the city of Flint to aid with utility issues, and additional water system needs.

HEALTH AND HUMAN SERVICES

Flint declaration of emergency	$	17,207,000
GROSS APPROPRIATION	$	17,207,000
Appropriated from:		
Federal revenues:		
Total other federal revenues		2,845,000
Special revenue funds:		
Total other state restricted revenues		2,552,000
State general fund/general purpose	$	11,810,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Purchases of bottled water, water filters and replacement cartridges.

(b) DHHS field operations costs.

(c) Epidemiological analysis and case management of individuals with elevated lead blood levels.

(d) Nutrition support and community education.

(e) Support for child and adolescent health centers and Children's Healthcare Access Program.

(f) Assessment of potential linkages to other diseases.

(g) Food inspections.

(h) Crisis counseling and behavioral health services.

EXPLANATION:

This supplemental proposes a total of $17.2 million in the Department of Health and Human Services to address the water emergency in the City of Flint. $8.0 million is provided for the purchase of bottled water, water filters, faucet mounts, and replacement cartridges which will be distributed in partnership with the State Emergency Operations Center. Additional water resources are expected to be necessary during fiscal year 2016.

Remaining supplemental funding is expected to support local Community Mental Health organizations in the treatment of individuals with elevated lead blood levels, including diagnostic testing, nurse visits, environmental assessments, and crisis counseling. These funds will also support two existing child and adolescent health centers, the Children's Healthcare Access Program, and additional medical support services in every school in Flint as well as funding for nurse case management, community education and additional lead investigations. Funding will be used to support food inspections at licensed food establishments to be conducted by the Genesee County Health Department and increased nutrition support by Women, Infants,

and Children (WIC) Food and Nutrition Program staff, including education, screening, and a lactation consultant at Genesee County. These supplemental funds will also support two epidemiologists who will conduct blood lead level analyses on zip codes in the City of Flint and provide for assessments by contractual staff of potential linkages to other conditions such as Legionnaire's Disease.

Subject: RE: Draft Flint Supplemental
Importance: High

The supplemental has been updated slightly since last night's version. Wording changes in the DEQ and DHHS portions. John asked that I send you the latest draft for your information. As soon as the formal supplemental is transmitted (still planned for this a.m.) we will send you the final version.

Thank.

Nancy

Subject: Draft Flint Supplemental

Team-

Attached is the current draft of the Flint supplemental and summary spreadsheet. The plan is to transmit the supplemental at 10:00am tomorrow(following the Leadership mtg). We may have a couple of minor wording edits in the morning but I do not expect the numbers to change.

Please do not forward until we have the final version. Let me know if you have any questions.

Thanks,

John

Tentative Emergency Assistance to Flint

Dear Legislators:

SUBJECT: Supplemental Request 2016-2

Attached please find supplemental recommendations for fiscal year 2016 to address Flint emergency needs. Medium and long-term needs are still being assessed and will be addressed in a future supplemental request. This supplemental contains requests for the departments of Education, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs and State Police.

Action on this supplemental is requested by the end of January.

If you have any questions regarding this request, please contact Nancy Duncan at (517) 373-0870.

Sincerely,

John S. Roberts
State Budget Director

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request addresses operational funding needs for the Flint Water Interagency Coordinating Committee created via Executive Order 2016-1.

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
STATE BUDGET OFFICE
LANSING

JOHN S. ROBERTS
DIRECTOR

January 19, 2016

The Honorable Dave Hildenbrand, Chair
Senate Appropriations Committee
Michigan State Senate
State Capitol
Lansing, Michigan 48909

The Honorable Al Pscholka, Chair
House Appropriations Committee
Michigan House of Representatives
State Capitol
Lansing, Michigan 48909

Dear Legislators:

SUBJECT: Supplemental Request 2016-2

Attached please find supplemental recommendations for fiscal year 2016 to address Flint emergency needs. Medium and long-term needs are still being assessed and will be addressed in a future supplemental request. This supplemental contains requests for the departments of Education, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs and State Police.

Action on this supplemental is requested by the end of January.

If you have any questions regarding this request, please contact Nancy Duncan at (517) 373-0870.

Sincerely,

John S. Roberts
State Budget Director

DEPARTMENT OF EDUCATION

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	935,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	935,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	935,000
(2) SCHOOL SUPPORT SERVICES		
Flint declaration of emergency	$	*935,000*
GROSS APPROPRIATION	$	935,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	935,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Hiring additional school nurses.

(b) In the intermediate school district in which the declaration of emergency has been made, providing Early On and special education

services, coordinating wraparound services, providing nutritional snacks to elementary students, and providing and coordinating communications for parents, educators, and the community.

EXPLANATION:

This supplemental provides partial year funding for the hiring of 9 additional school nurses for the School District of the City of Flint. It also provides funding to Genesee Intermediate School District to support the hiring of 2 Early On service coordinators, a psychologist, and a health professional to coordinate the provision of wraparound services. In addition, funding to Genesee Intermediate School District will provide fresh fruit and vegetable snacks to elementary students in Genesee County and allow for coordination of communication for parents, educators and the community.

and Children (WIC) Food and Nutrition Program staff, including education, screening, and a lactation consultant at Genesee County. Dollars will also be used to provide for lead abatement of homes performed by contractual staff and field consultants. These supplemental funds will also support two epidemiologists who will conduct blood lead level analyses on zip codes in the City of Flint and provide for assessments by contractual staff of potential linkages to other conditions such as Legionnaire's Disease.

LICENSING AND REGULATORY AFFAIRS

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	2,000,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	2,000,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	2,000,000
(2) OCCUPATIONAL REGULATION		
Flint declaration of emergency	$	2,000,000
GROSS APPROPRIATION	$	2,000,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	2,000,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities: plumbing fixture replacements in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers within the City of Flint.

EXPLANATION:

This supplemental provides $2,000,000 in state general fund/general purpose funds to support emergency efforts related to the City of Flint's water system. Funding will support the costs to purchase and replace plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers within the City of Flint.

MILITARY AND VETERANS AFFAIRS

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	2,000,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	2,000,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	2,000,000
(2) MILITARY		
Departmental and national guard operations	$	2,000,000
Schedule of programs:		
Flint declaration of emergency		*2,000,000*
GROSS APPROPRIATION	$	2,000,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	2,000,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the Michigan National Guard water support efforts.

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request addresses funding needs for the Michigan National Guard's role in providing support to the citizens of Flint, including costs for Guard member salaries, travel, lodging and meals for 3 months.

STATE POLICE

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	100,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	100,000
Federal revenues:		
Federal funds		0

Team-

Attached is the current draft of the Flint supplemental and summary spreadsheet. The plan is to transmit the supplemental at 10:00am tomorrow(following the Leadership mtg). We may have a couple of minor wording edits in the morning but I do not expect the numbers to change.

Please do not forward until we have the final version. Let me know if you have any questions.

Thanks,

John

<Flint Water Supplemental Bullets.docx>

City of Flint – Water Contamination/Shortage

Supplemental Projection Assumptions

- Average Daily need for Drinking and Cooking is two gallons per person
- Household and Business Count is based on those connected to City Water Utility
- Average number of persons per household is 3
- Average number of persons per business/non-profit is estimated at 10
- Replacement Cartridge Life is 100 gallons which is 16 days for household or 2 per month
- Initial Faucet filter count was for one per household
- Additional Filters and Cartridges will be needed if decision is made to provide for additional faucets
- Overtime estimate is based on operational hours of 8AM to 8PM seven days a week for staff in the SEOC and JIC/local EOC

I've attached the most current version of the State Emergency Operations Center estimate of spending by month for the balance of the fiscal year. We are using these numbers, plus input from other affected agencies and local partners, to help craft the supplemental request which should be coming over tomorrow. Obviously, all numbers are very fluid and expenditures will change based on the regular re-assessment of need.

Shawn Sible at MSP is available to help explain the assumptions behind the numbers on the spreadsheet if needed.

The Budget Director is looking at allocating these resources to the SEOC and having them hold for contingency purposes. He will run this by the Executive later and we will apprize accordingly of his direction.

Subject: FW: Disaster Contingency Fund

Attached is an EBA for the DECF using the entire balance. (The appn is rounded up to allow the fund to be fully expended.)

From your questions to Shawn – this would be an "emergency" for which expenditures from the DECF are an appropriate use in support of the state's response to the Flint issue. The statutory definition of an "emergency" is an occasion in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property, and the public health and safety, etc. The situation was declared to be an "emergency" by the Governor on 1/5/16.

The Emergency Management Act (MCL 30.418) opens the DECF for expenditure for state agencies in mitigating the effects of, or responding to a disaster or emergency. The act also provides that the fund may be reimbursed for its expenditures by the federal government or another source.

MCL 30.419 opens the DECF for expenditure for direct assistance to local units when federal assistance is not available (i.e. no presidential declaration). Assistance is capped at $100,000.

Thanks,

Mark

Cc: Doll, Ryan (DTMB); Olney, Robert (MSP); Irwin, Sherri (MSP)
Subject: FW: Disaster Contingency Fund

Attached is an EBA for the DECF using the entire balance. (The appn is rounded up to allow the fund to be fully expended.)

From your questions to Shawn – this would be an "emergency" for which expenditures from the DECF are an appropriate use in support of the state's response to the Flint issue. The statutory definition of an "emergency" is an occasion in which the governor determines state assistance is needed to *supplement local efforts and capabilities to save lives, protect property, and the public health and* safety, etc. The situation was declared to be an "emergency" by the Governor on 1/5/16.

The Emergency Management Act (MCL 30.418) opens the DECF for expenditure for state agencies in mitigating the effects of, or responding to a disaster or emergency. The act also provides that the fund may be reimbursed for its expenditures by the federal government or another source.

MCL 30.419 opens the DECF for expenditure for direct assistance to local units when federal assistance is not available (i.e. no presidential declaration). Assistance is capped at $100,000.

Thanks,

Mark

Importance: High

Shawn, et al,

State Emergency Operations Center (SEOC) expenditures through March 2016, will be covered utilizing the available balance within the Disaster Contingency Fund. This will be communicated to the Legislature early this week as part of our FY16 Supplemental ask for Flint related emergency. The House believes they can move a vehicle bill this Wednesday. The supplemental will also include $100,000 GF/GP; Gross for the Flint Interagency Advisory Committee.

On the Flint fire fighter overtime matter we discussed a day or so ago, Director Roberts wants to build this into your SEOC projections for the "Overtime SEOC, JIC, Truck Drivers" category since it is all unfunded at this time anyway. *Therefore, subsequent supplemental requests will include the Flint component.*

Finally, we are wondering if it is okay to share your most recent version of SEOC spreadsheet with the fiscal agencies ?

Shawn,

The Budget Director is looking at allocating these resources to the SEOC and having them hold for contingency purposes. He will run this by the Executive later and we will apprize accordingly of his direction.

Chris and Shawn:

If Capt. Kelenske is preparing to testify to the legislature on this Flint water Crisis - he will need details.

I want to have a briefing prior to any testimony.

I'm also asking MSP Legislative staff be looped into these details as well.

Thanks

We are working on the plan with FEMS now. John called me to discuss how the declaration affects the supplemental. Tonight I am going to ask the govs staff as to what he wants for the future as that will determine costs. John sent me the document so I knew what was on the list.

7	2016	Contractors	DHHS	$275.0	$275.0	Supplemental request	Contractual expertise to assess potential linkages to Legionnaire's disease
8	2016	State	DHHS	$8,000.0	$8,000.0	Supplemental request	Emergency purchases of bottled water, filters, and replacement cartridges; augment with $5M in FEMA funds; additional funding will be needed
9	2016	State	DHHS	$0.0	$145.0	Supplemental request	Partial year cost for epidemiologists to analyze blood lead levels.
10	2016	Contractors	DHHS	$0.0	$1,510.0	Supplemental request	Partial year costs to abate lead in homes in Flint; support contractual staff and field consultants.
11	2016	Contractors	DHHS	$0.0	$90.0	Supplemental request	Partial year costs for additional lead investigations
12	2016	State	DHHS	$0.0	$70.0	Supplemental request	Partial year costs for nurse case management
13	2016	County	DHHS	$0.0	$120.0	Supplemental request	Partial year costs for additional positions for community education with Genesee County Health Department

Tentative Emergency Assistance to Flint

Preliminary Draft; subject to change

	Fiscal Year	Local State External	Agency	one-time GF/GP*	one-time Gross*	Type of Request	Explanation
14	2016	Schools State	DHHS	$800.0	$800.0	Supplemental request	Child and adolescent health centers - support for children's healthcare access program
15	2016	Schools State	DHHS	$670.0	$670.0	Supplemental request	Additional support for child and adolescent health centers
16	2019	Local	DHHS	$30.0	$957.0	Supplemental request	Nutrition support WIC staff/education and screening; lactation consultant to Genesee County Health Department
17	2016	CMH	DHHS	$1,335.0	$3,870.0	Supplemental request	Treatment of children with high blood levels (diagnostic testing, nurse visits, environmental assessments, etc.)
18	2016	CMH	DHHS	$500.0	$500.0	Supplemental request	Crisis counseling through local CMH
19	2016	State	DMVA	$2,000.0	$2,000.0	Supplemental request	Michigan National Guard water support effort (3 months)
20	2016	State	LARA	$2,000.0	$2,000.0	Supplemental request	Fixture replacements (schools, daycares, adult foster care, nursing homes, dialysis centers, surgery centers); replacing 50% of fixtures those that fail to meet standards
21	2016	Schools	MDE	$320.0	$320.0	Supplemental request	Partial year costs for additional nurses at schools in Flint
22	2016	Schools	MDE	$615.0	$615.0	Supplemental request	Genesee Intermediate School Districts
23	2016	Local State	MSP	$100.0	$100.0	Supplemental request	Operational funding for Flint Interagency Advisory Committee
FY2016 Supplemental Subtotal				**$22,631.5**	**$28,028.5**		

Tentative Emergency Assistance to Flint

Preliminary Draft; subject to change

	Fiscal Year	Local State External	Agency	one-time GF/GP*	one-time Gross*	Type of Request	Explanation
24	2016	State City	MSP	$0.0	$3,871.1	Automatic boilerplate appropriation	State emergency operations center expenditures (other than water & filters); Estimate through March 2016; use disaster contingency fund
25	2016	City	Treasury	$0.0	$2,000.0	Existing Grant Program	Repay City of Flint for water connection costs (distressed community grant already appropriated in PA 84 of 2015)
26	2016	City Contractors	Treasury	$0.0	$500.0	Existing funding	Accounting and legal support services (fund from existing local government appropriations)
FY2016 Total				**$22,631.5**	**$34,399.6**		

Potential funding source: $3.4M remains in existing appropriation for grants to distressed cities; boilerplate change would be necessary; $3.4M available; would leave $0 for other communities

Note: List does not include funding estimates for potential secondary prevention or long-term child treatment costs (e.g., Special Education, long-term health monitoring, etc.)
List does not include potential water system infrastructure remediation.

DEQ Subtotal	$5,786.5	$5,786.5
DHHS Subtotal	$11,810.0	$17,207.0
DMVA Subtotal	$2,000.0	$2,000.0
LARA Subtotal	$2,000.0	$2,000.0
MDE Subtotal	$935.0	$935.0
MSP Subtotal	$100.0	$3,971.1
School Aid Subtotal	$0.0	$0.0
Treasury Subtotal	$0.0	$2,500.0
Total	**$22,631.5**	**$34,399.6**

Importance: High

We plan to send our FY16 supplemental request to the legislature Tuesday morning with a request for legislative action on Wednesday in the House.

Can we share this spreadsheet with the fiscal agencies tomorrow (Monday)?

Thanks Penny. I look forward to seeing the final tomorrow, but I certainly understand the need to take a break from it for tonight and give it a fresh look in the morning.

We are gathering this material because SBO said they were planning on calling a meeting for tomorrow with all the state agencies involved to begin preparing a supplemental request. I was led to believe the invitation to that meeting was going direct to EMHSD. It sounded like they were going to reach out to Capt. Kelenske. Lt. Col. Gorski was going to make sure that the invite was forwarded to me, but I haven't seen anything yet. Have you heard anything about a meeting like that being set up?

Can you take those projections and extend them out for the rest of this fiscal year, including what FSB has spent to now? Meeting with SBO is at 1:20 today.

											Grand Total	$ 45,466,844

Data Used

Population of Flint	100,000
Households	39,027
Businesses	936
Persons per Business	10
Persons per household	3
Gallons of Water/person/day	2
Cartridge life in gallons	100
Gallons per Day	200,000
Filters	30,000
Cartridges	30,000
Days	30

City of Flint – Water Contamination/Shortage

Assumptions

- Replacement Cartridges one every two weeks per household
- Average Daily need for Drinking and Cooking is two gallons per person
- Household and Business Count is based on those connected to City Water Utility
- Average number of person per household is 3
- Average number of persons per business/non-profit is estimated
- Replacement Cartridge Life is 100 gallons which is 16 days for household or 2 per month

Subject: City of Flint supplemental meeting follow up
Importance: High

Good morning Shawn,

The $200K submitted by DMVA for the National Guard is a duplicate and should come off the list you provided yesterday. The financial folks at DMVA are supposed to remove the $200K request.

I confirmed the $303K amount DMVA provided us and that is the correct amount we are supposed to use. That amount increased a little as they added 2 additional troops to total 35 now. The addition is included in our request.

We added the Project Pay, FSB overtime, and the Flint Interagency Advisory Committee to our supplemental projection.

Revised projected supplemental request is attached. Please let me know if you have any questions.

Thank you,
Nancy

If so, it would appear that your boilerplate Section 703(7) is an automatic appropriation:

(7) In addition to the funds appropriated in part 1, there is appropriated from the disaster and emergency contingency fund an amount necessary to cover costs related to any disaster or emergency as defined in the emergency management act, 1976 PA 390, MCL 30.401 to 30.421. Funds shall be expended as provided under sections 18 and 19 of the emergency management act, 1976 PA 390, MCL 30.418 and 30.419, and R 30.51 to R 30.61 of the Michigan administrative code.

Looking at the chart it seems they are funding through March only at this time. Does the math work out if you pro-rate what we provided?

Please find attached the tentative emergency supplemental request for Flint. This supplemental request will be submitted to the Legislature early next week. It is intended to cover emergency items only. Other supplemental items (or augmentations to these items) may be submitted at a later date or as part of the FY17 budget request.

Please review the items for your agency. Let us know as soon as possible (preferably by 1:00 p.m. tomorrow) if you identify problems or omissions where you must have immediate new funding.

We will be in this week-end and will be checking e-mail and voice mail messages. Feel free to call me directly or call your appropriate office director.

Thanks for your help in identifying potential needs and in a quick response to this message.

Nancy Duncan
Deputy State Budget Director
517-373-0870

Sent this to Rob earlier so you may get the question twice, but I need to know when you and Penny say that they are covering the SEOC costs for the first three months, does that include the distribution teams which cover trooper OT? Is there anything we asked for that isn't included?

Subject: Flint Supplemental

SBO is planning on running a short-term supplemental next week. They are covering anticipated costs through March. EMHSD and DSD staff have both reviewed the numbers and confirmed they did include all MSP costs (SEOC and agency-specific such as trooper OT) for that time period.

If it turns out they want us to eat this out of the total we've already agreed to, is there enough wiggle room in that number to make it happen?

I don't have the details on what the Feds are/aren't providing. That changes the spreadsheet significantly. Have you or your staff been working with SBO on those changes? They should be incorporated before we share this sheet.

Subject: FW: Disaster Contingency Fund

Attached is an EBA for the DECF using the entire balance. (The appn is rounded up to allow the fund to be fully expended.)

From your questions to Shawn – this would be an "emergency" for which expenditures from the DECF are an appropriate use in support of the state's response to the Flint issue. The statutory definition of an "emergency" is an occasion in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property, and the public health and safety, etc. The situation was declared to be an "emergency" by the Governor on 1/5/16.

The Emergency Management Act (MCL 30.418) opens the DECF for expenditure for state agencies in mitigating the effects of, or responding to a disaster or emergency. The act also provides that the fund may be reimbursed for its expenditures by the federal government or another source.

MCL 30.419 opens the DECF for expenditure for direct assistance to local units when federal assistance is not available (i.e. no presidential declaration). Assistance is capped at $100,000.

Thanks,

Mark

Draft

STATE OF MICHIGAN
STATE BUDGET OFFICE
LANSING

RICK SNYDER
GOVERNOR

JOHN S. ROBERTS
DIRECTOR

January 19, 2016

The Honorable Dave Hildenbrand, Chair
Senate Appropriations Committee
Michigan State Senate
State Capitol
Lansing, Michigan 48909

The Honorable Al Pscholka, Chair
House Appropriations Committee
Michigan House of Representatives
State Capitol
Lansing, Michigan 48909

Dear Legislators:

SUBJECT: Supplemental Request 2016-2

Attached please find supplemental recommendations for fiscal year 2016 to address Flint emergency needs. Medium and long-term needs are still being assessed and will be addressed in a future supplemental request. This supplemental contains requests for the departments of Education, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Military and Veterans Affairs and State Police.

Action on this supplemental is requested by the end of January.

If you have any questions regarding this request, please contact Nancy Duncan at (517) 373-0870.

Sincerely,

John S. Roberts
State Budget Director

DEPARTMENT OF EDUCATION

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	935,000
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	935,000
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	935,000
(2) SCHOOL SUPPORT SERVICES		
Flint declaration of emergency	$	935,000
GROSS APPROPRIATION	$	935,000
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	935,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Hiring additional school nurses.

(b) In the intermediate school district in which the declaration of emergency has been made, providing Early On and special education

services, coordinating wraparound services, providing nutritional snacks to elementary students, and providing and coordinating communications for parents, educators, and the community.

EXPLANATION:

This supplemental provides partial year funding for the hiring of 9 additional school nurses for the School District of the City of Flint. It also provides funding to Genesee Intermediate School District to support the hiring of 2 Early On service coordinators, a psychologist, and a health professional to coordinate the provision of wraparound services. In addition, funding to Genesee Intermediate School District will provide fresh fruit and vegetable snacks to elementary students in Genesee County and allow for coordination of communication for parents, educators and the community.

(1) APPROPRIATION SUMMARY

GROSS APPROPRIATION	$	5,786,500
Interdepartmental grant revenues:		
Total interdepartmental grants and intradepartmental transfers		0
ADJUSTED GROSS APPROPRIATION	$	5,786,500
Federal revenues:		
Federal funds		0
Special revenue funds:		
Total local revenues		0
Total private revenues		0
Total other state restricted revenues		0
State general fund/general purpose	$	5,786,500
(2) RESOURCE MANAGEMENT DIVISION		
Flint declaration of emergency	$	5,786,500
GROSS APPROPRIATION	$	5,786,500
Appropriated from:		
Special revenue funds:		
State general fund/general purpose	$	5,786,500

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Water system needs

(b) Potential payment to city of Flint to aid with utility issues

(c) Lab and testing costs

(d) Corrosion control procedures

(e) Infrastructure integrity study using outside experts

EXPLANATION:

This supplemental provides funding to address immediate needs resulting from the January 5, 2016 Declaration of Emergency which includes parts of the City of Flint within the County of Genesee. Specifically, this request includes funding for an infrastructure integrity study to assess the status of the infrastructure that supports the Flint water system and additional lab and testing costs in DEQ to handle the additional volume of testing required to address the emergency. Funds to assist the city of Flint include payment for corrosion control procedures for one year, potential payment to the city of Flint to aid with utility issues, and additional water system needs.

	HEALTH AND HUMAN SERVICES		
	(1) APPROPRIATION SUMMARY

State general fund/general purpose.....		$	11,810,000
(2) LOCAL HEALTH ADMINISTRATION AND GRANTS			
Flint declaration of emergency.....		$	17,207,000
GROSS APPROPRIATION.....		$	17,207,000
Appropriated from:			
Federal revenues:			
Total other federal revenues.....			2,845,000
Special revenue funds:			
Total other state restricted revenues.....			2,552,000
State general fund/general purpose.....		$	11,810,000

BOILERPLATE:

Sec. xxx. From the funds appropriated in part 1 for the Flint declaration of emergency, the department shall allocate funds to address needs related to the declaration of emergency issued on January 5, 2016. These funds may support, but are not limited to the following activities:

(a) Purchases of bottled water, water filters and replacement cartridges.

(b) DHHS field operations costs.

(c) Epidemiological analysis and case management of individuals with elevated lead blood levels.

(d) Nutrition support and community education.

(e) Support for child and adolescent health centers and Children's Healthcare Access Program.

(f) Assessment of potential linkages to other diseases.

(g) Food inspections.

(h) Crisis counseling and behavioral health services.

EXPLANATION:

This supplemental proposes a total of $17.2 million in the Department of Health and Human Services to address the water emergency in the City of Flint. $8.0 million is provided for the purchase of bottled water, water filters, faucet mounts, and replacement cartridges which will be distributed in partnership with the State Emergency Operations Center. Additional water resources are expected to be necessary during fiscal year 2016.

Remaining supplemental funding is expected to support local Community Mental Health organizations in the treatment of individuals with elevated lead blood levels, including diagnostic testing, nurse visits, environmental assessments, and crisis counseling. These funds will also support two existing child and adolescent health centers, the Children's Healthcare Access Program, and additional medical support services in every school in Flint as well as funding for nurse case management, community education and additional lead investigations. Funding will be used to support food inspections at licensed food establishments to be conducted by the Genesee County Health Department and increased nutrition support by Women, Infants,

and Children (WIC) Food and Nutrition Program staff, including education, screening, and a lactation consultant at Genesee County. These supplemental funds will also support two epidemiologists who will conduct blood lead level analyses on zip codes in the City of Flint and provide for assessments by contractual staff of potential linkages to other conditions such as Legionnaire's Disease.

Subject: Flint Supplemental

This just passed out of House Approps and is expected on the floor as early as today. Capt. Kelenske did give a brief overview of the process and our efforts to date. No real questions for MSP, though they did ask about whether we were prepared for civil unrest. I'm told Chris gave a great answer about how we're actually seeing nothing but gratitude and support from the people of Flint as we distribute supplies.

In addition to the request for Project Pay for Capt. Kelenske, to handle the State's response to the declared emergency in Flint,
I am requesting project pay for the following Group 4 employees:

Mr. Tony Katarsky
F/Lt. Gabe Covery
Insp. Matt Bolger
F/Lt. Mike Johnson

I would like to date the project pay back to the pay period beginning January 3, 2016.

Since January 6, the SEOC has been operational. The above employees have worked excessive hours, each day, into the evening, and through the weekends and holiday.

Thank you

gmg

Below is the list of individuals for whom each bureau has asked us to build project pay into the budget. HR is working on making that happen, but we wanted to make sure you approve first:

Chris Kelenske
Tony Katarsky
Matt Bolger
Mike Johnson
Gabe Covey
Shanon Banner
Dave Kaiser
Tom Kish

Subject: RE: MIRS Capitol Capsule, Thursday, January 28, 2016

Suspended DEQ Official Received Bonus 4 Months Ago
The leader of the state's drinking water office who was first reassigned -- then later suspended -- in connection with her office's handling of the Flint water crisis had been approved for a one-time performance bonus of $2,652 in September 2015.

Liane Shekter **SMITH** was chief of the Office of Drinking Water and Municipal Assistance within the Michigan Department of Environmental Quality (DEQ), before being reassigned Oct. 19 after the DEQ admitted it made a mistake in how it handled overseeing Flint's switch to the Flint River (See "DEQ Takes Blame On Flint Water; Ananich Unforgiving," 10/19/15).

And last week, Smith was one of two DEQ employees suspended by the administration pending a Civil Service investigation, *MIRS* has confirmed.

But on Sept. 13, 2015, Smith was approved for a performance bonus worth $2,652 that was paid out in a lump sum, the Office of the State Employer (OSE) confirmed today. The amount awarded to Smith was based on 2 percent of her base pay, said Kurt **WEISS**, spokesperson for the OSE.

Former DEQ Director Dan **WYANT** had authority to approve any performance bonuses prior to processing, Weiss said. Wyant resigned in December (See "Wyant Resigns As Task Force Slams MDEQ Over Flint Water Contamination," 12/29/15).

It's not clear what rationale was given for awarding the performance bonus to Smith. State officials didn't address that question when asked.

Last week, Gov. Rick **SNYDER** announced two DEQ employees would be suspended due to "pending questions regarding employee actions related to water testing in Flint" (See "Snyder Suspends Two MDEQ Employees, Hires Crisis Comms Firms," 1/22/16).

The two employees were not named, and the state has declined to release the names. But multiple sources have confirmed it was Smith and fellow DEQ official Stephen **BUSCH** who were suspended.

Plus, the *Detroit Free Press* first pointed out this week an organizational chart dated Jan. 18 for the DEQ drinking water office was missing the names of both Smith and Busch.

While not their members, SEIU Local 517M Director Liza Estlund **OLSON** today raised concerns with how the state has handled the DEQ employees' suspensions. She also questioned why the state would award a performance bonus to an employee and then later suspend that person.

"If somebody has been given a pay-for-performance increase and then is told their work is so bad they're being let go by the state of Michigan, again it sends up a red flag as to whether there's really due process happening, and if these people are just being used as scapegoats for the Governor to point a finger and try to keep it away from his doorstep," Olson said.

The other suspended DEQ official, Busch, had received some scrutiny for an email he sent to the U.S. Environmental Protection Agency (EPA) in February 2015, in which he informed them that Flint had a corrosion control program in place for its water (See "DEQ, Flint Focused On Different Health Issue With Flint Water," 1/21/16).

But that wasn't the case, and the DEQ clarified that Flint was undergoing a procedure to evaluate whether a corrosion control program was needed for its water, which the DEQ acknowledged later should've been implemented from the very beginning.

Busch didn't receive any sort of performance bonus in September because his employee classification doesn't allow for such bonuses, Weiss said.

The man who first replaced Smith atop the drinking water office for the interim, DEQ Chief Deputy Director Jim **SYGO**, also received a performance bonus payment worth $5,837 on Sept. 13.

Sygo is listed as DEQ Chief Deputy Director as of Jan. 22, but Mary Ann **DOLEHANTY** is listed as the interim head of the drinking water office, according to an organizational chart posted on the DEQ website.

The DEQ -- and in particular the drinking water office -- have been singled out by the Governor, the Office of the Auditor General and others for its role in the Flint water crisis, mainly for not requiring corrosion control on the river water from when it was first used as Flint's water source beginning in April 2014.

Snyder, in his announcement of the suspended DEQ employees, went so far as to say that "some DEQ actions lacked common sense."

STATE OF MICHIGAN
STATE BUDGET OFFICE
LANSING

RICK SNYDER
GOVERNOR

JOHN S. ROBERTS
DIRECTOR

February 1, 2016

MEMORANDUM

TO: Chief Financial Officers and Human Resource Directors
All State Agencies

FROM: Michael J. Moody, Director
Office of Financial Management

SUBJECT: Flint Water Expenditure and Activity Tracking

In order to facilitate the tracking and monitoring of expenditures and activity related to the Flint water emergency, the Office of Financial Management (OFM) has established the following coding and processes. The coding and processes described in this memo will be used to track expenditures in MAIN and state employee activity in DCDS. Separate instructions regarding the tracking of outputs related to the Flint water emergency will be forthcoming.

Expenditure of Funds Appropriated in Public Act 3 of 2016

OFM has established a line item appropriation number (88500) that will be used for all appropriations included in Public Act 3 of 2016 (HB 5520). Each affected agency is responsible for submitting Electronic Budget Adjustment (EBA) documents using the appropriation number established by OFM and providing the necessary D23 coding for the funding source(s) identified in the appropriation act.

In addition to the submitting EBA documents, affected agencies must establish and use Program Cost Account (PCA) coding in MAIN to specify which of the activities identified in the appropriation act boilerplate are supported by expenditures. Each of the established PCA codes must include multipurpose code FNT-WTR. OFM will contact affected agencies within the next week to discuss establishment and use of the needed PCA codes in more detail.

Please note that these instructions apply only to funds appropriated in Public Act 3 of 2016. Additional instructions will be issued when future appropriations related to the Flint water emergency are enacted.

Expenditure of Other Funds

OFM has established MAIN multipurpose code FNT-WTR to be used by agencies to track expenditures of funds not appropriated in Public Act 3 of 2016 that are related to the Flint water emergency. FNT-WTR is a statewide multipurpose code that is available for use with any PCA code.

If your agency already uses multipurpose code in a manner that conflicts with using it as described above, please contact OFM as soon as possible to discuss alternative methods for tracking.

Tracking Time and Activity in DCDS

OFM has established a DCDS activity code (FDWP) that affected state employees should use to record the amount of time spent on activities related to the Flint water emergency. The activity code will be used to track employee hours devoted to activities related to the Flint water emergency. It is separate from and will have no impact on the expenditure tracking that will occur in MAIN. If employees are not familiar with the DCDS activity reporting process, the reporting is done biweekly on the "Activity" tab of the DCDS timesheet.

If you have questions regarding this memo, please contact Lora Mikula at 373-0447 or MikulaL@michigan.gov.

OK D-

This is the second issue I mentioned earlier today.
In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.

Subject: FW: Information Request and Documentation
Importance: High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Stephen Busch, P.E.

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

Jim Henry
